## PREFACE

---

TO again resume the publication of the Documentary History of Maine, though a somewhat exacting task demanding time which I cannot well spare, is a great satisfaction, as I can see a prospect of being able to finish the work to which I set my hand many years ago. This volume, as it contains a large portion of the account of the grave disaster which befell the State in the mismanaged Penobscot Expedition, will, I believe, be welcomed by students of Maine history.

JAMES PHINNEY BAXTER,

*Letter Sam Freeman to Hon. Jer<sup>h</sup> Powell*

Falmouth August 13 1779

Sir Cap<sup>t</sup> Greenfield Pote has just arriv'd in Town and says that being out a fishing the Day before Yesterday about

ten Leagues from Cape Elizabeth he was taken in the Afternoon by a Six Gun Sloop, & put on board a 44 Gun Ship— That a 32 Gun Ship was in Company with her & that he was told they were waiting for other Ships to Join them bound to Penobscot, having saild from N. York in Company with two 64 Gun Ships & 2 Frigates.

Pote had liberty to come on Shore in a Boat wherein were two Women & other Persons belonging to another Vessel the Enemy had taken.

And Last Evening a fishing Boat arriv'd here the Skipper of which informs us that on the same last Wednesday afternoon they saw four large Ships a few Leagues about S. E. off of Monhegin & another Vessel at so large a distance they could not determine what it was—at the same time they heard a few Cannon which seem'd to be fir'd at the S. W. of them.

By this Intelligence which is as particular as can at present be related, we are of the Opinion the Enemy are about reinforcing their Ships & Troops at Penobscott—

The Selectmen & Committee of this Town who are at hand judge it expedient to give this Account to the Hon. Council with all possible dispatch—and have therefore employed the Bearer M<sup>r</sup> Fosdick to come Express therewith.

I am in hast your Honors Most Obed<sup>t</sup>

& very humble Serv<sup>t</sup>

Sam<sup>l</sup> Freeman

*Letter S. Lovell B<sup>r</sup> G<sup>t</sup> to Hon. Jer<sup>h</sup> Powell*

Head Quarters Magabagaduce

Aug. 13 1779

Sir I receiv'd your favour of Aug<sup>t</sup> 6 this day wherein

you mention your want of intelligence of the State of the army under my Command.

Immediately on my taking possession of this Ground which was the first important movement that happened, I dispatch'd an Express by the way of Falmouth to you and soon after another by M<sup>r</sup> Murray which hope before this you have receiv'd likewise another Letter by Major Bradish and you may depend when ever any important transaction takes place I shall make the greatest dispatch in doing every thing in my power to forward the intelligence—

The Situation of my Army at present I cannot but say is very critical their number does not exceed nine hundred & fifty Men, rank & file, while that of the Enemy by the best Accounts I can collect from Inhabitants, Prisoners & Deserters are Seven hundred Troops & three hundred Seamen & Marines, who Act occasionally either on board the Ships or on the Land—Many of my Officers & Soldiers are dissatisfied with the Service tho' there are some who deserve the greatest credit for their Alacrity & Soldier like conduct—

I cannot divide my force so as to act with Spirit on account of equality of my Army with that of the enemy's tho' I have taken every Measure to obtain the compliment of Men voted by Government, therefore Sir I wait with impatience for your directions in answer to my requisitions by M<sup>r</sup> Murray in the mean time I am making use of every measure towards reducing the Enemy—Inclosed you have the proceedings of five Councils of War, You may Judge my Situation when the most important Ship in the Fleet and almost all the private property Ships are against the Siege, you will find the Ships were determined to go in if I would take possession of the Ground in the rear of the Enemy's fort, I knew it would be a dangerous Attempt but rather than our Ships should not go in I consented, accordingly the men were detached, & in

the Afternoon I made a tryall of them, and found by their behaviour before the enemy, it would be inexpedient, I therefore called a Council of War who were unanimously of my Opinion —

The Commodore and Captains then Determined not to go in — As to Ordnance Stores our Shells are all gone, but a few 12 pound Cartridges, and three Quarters of our small arm Cartridges are expended, owing in a great measure to the almost continual wet weather, and frequent Skirmishes — In case I should be obliged to raise the Seige, I would wish to be informed whither it is expected I take post at some convenient place this way, or retire from this part of the Country.—

I am Sir Your Honours most Obed<sup>t</sup> very Humble Serv<sup>t</sup>  
S. Lovell B<sup>r</sup> G<sup>l</sup>

P. S. since writing the above a very sudden movement has taken place in my Army — Last night at Twelve o Clock I reciev'd a Billet from the Commodore a Copy of which you have herewith inclosed informing me of the arrival of the Brig Diligence and Active who were sent out to make discoveries and that it was the opinion of the Captains, the Fleet which has appear'd were an Enemy — I therefore thought it expedient with all possible dispatch to make a retreat which effected without Loss and am now on my way up Penobscot River to take post at Fort Pownal if found convenient unless our fleet should be Superiour, if so I shall do my Endeavour to repossess myself of the Ground — While I am under these misfortunes I hope the Public will suspend their Judgment till a fair and Candid hearing can be had—

The two Fleets are now closing together what will be the Event God only knows.—

I await with impatinsse for your Directions,

*Letter Stephen Hall to the Council*

Falmouth 13 Aug. 1779

Gentlemen, We have just receiv'd Intelligence of a Fleet suppos'd to be bound to Penobscott— On Wednesday Evening last Cap<sup>t</sup> Pote of this Place was taken from a fishing Boat on board a 44 Gun Ship she was in Company with a 32 Gun Frigate— The Ships were about 8 Leagues South-east from Elizabeth. They sailed from New York in Company with two 64 Gun Ships and two Frigates, Six in all. Said Pote learnt in conversation with some persons on board the Ship that the above Fleet was destin'd to Penobscott—

We have dispatched a Boat to Gen<sup>l</sup> Lovell with the Same account, & Post script we have sent your Honors

By Order of the Committee

Stephen Hall Chairman

P. S. The Committee saw not the person taken viz. Cap<sup>t</sup> Pote: But were notified by Sam<sup>n</sup> Freeman Esq<sup>r</sup> & M<sup>r</sup> John Fox, said Pote is a person of Intelligence & Credit Freeman & Fox had had their Account from Pote himself. We have written to the Committee of York desiring them to dispatch a Boat to meet the Ships from Boston, & to give the necessary Intelligence— The Committee would inform the Hon<sup>ble</sup> Council of an Embarassment they are under: having no Means of forwarding dispatches but at their advancing Money to defray Expenses—

Gen<sup>l</sup> Lovell who desir'd me to inform your Honors of any thing material which I should discover of the Enemies Strength after I left him, at which time the General had discovered only three large Ships, but soon after the Fogg cleared off I saw three more, on this discovery our fleet went up the River and was when I saw them last, about two Gun Shot a head of the Enemy Just above the old Fort point

Marblehead Aug<sup>t</sup> 15 1779

Sir Whenever we are under the disagreeable Necessity of giving such information as must in its Tendency give pain to y<sup>t</sup> person or body Informed; and more especially where there is a possibility of the public being Injured for want of such Information; the task however disagreeable demand Execution, and as it is possible in this Case a remedy may be provided before any ill consequences can take place, we would beg leave to Observe to your honor, that the Armed Brig<sup>no</sup> of Sixteen Guns at this place which we had the Assurance of from the Owners as part of a Convoy for y<sup>e</sup> Troops designed as a reinforcement to the army at Penobscott can not be manned and of Course will not proceed, this failure we cannot at present account for, the difficulty is with y<sup>e</sup> Seamen which imagines that they are to be held to do duty as soon as they Arrive at Penobscot and so on while the Siege last; but we are rather inclined to think that the disaffected persons (which are permitted to dwell here amongst us) has dissuaded y<sup>t</sup> people from going y<sup>e</sup> Expedition —

The Selectmen & Committee had not y<sup>e</sup> least doubt when

the information respecting her was handed the Hon<sup>ble</sup> Board, but the Vessell would be ready when wanted, and doubt not but she might have been obtained for the publick was it not for the aforesaid difficulties as the greatest part of the owners was for her proceeding; but we hope no inconveniences will arrise from this disappointment —

We are respectfully Your Honors most obed<sup>t</sup> & very Humble Servants

Sir

The Council have thought proper to make some change in the Course of Your Passage Eastward which was given in Orders to Capt Robert Adamson of Yesterday: a Copy of which Orders has been delivered to You — This Change you will find in other orders to Capt Adamson of this day a Copy of which you will receive herewith — You are to consider Capt Adamson as subject to your Orders, if circumstances now unforeseen shou<sup>d</sup> render it expedient to deviate from this last Course — You will remember the great Object in view is to reinforce Gen<sup>l</sup> Lovell with the Regiment under your Command without unnecessary delay, & you will therefore proceed as far as Townsend or some safe Port contiguous thereto from whence you will immediately forward An Account of your Arrival & of the State & condition of your Regiment — You will not stop short of this Station unless the movements of the Enemy shou<sup>d</sup> render it adviseable, which is submitted to your Judgment — The Council have appointed a spy boat to pre-

cede your Fleet & have enjoined the Master of it, if he discovers the Enemy, to return & give the earliest Notice to the Fleet—he is directed to make the best of his way for Penobscot with dispatches from Council to Gen<sup>l</sup> Lovell without waiting for the Fleet—A change of circumstances hath induced the Council, to leave it to your discretion to order the Spy Boat to continue with the Fleet 'till your Arrival at or near Townsend & then if you think it safe to send her on for Penobscot with the above dispatches directing the Master to sink his dispatches if he finds it impracticable to escape from the Enemy shou'd you continue her with the Fleet as above you are to take them into your Custody 'till you shall send the Spy Boat on. Duplicates of these dispatches have been forwarded by other hands great risque need not therefore be run in sending him—Send a Copy of these Orders to the Master of the Spy Boat so far as respects him—

Assist in every thing our Power—But with great regret find it out of our Power to collet any number of troops of the charecter which you mention, so speedily as would be likely to be of any Service: we have no particularly disciplined Companies, and but few persons who have been Acquainted with affairs of the War, but what are already in the Service so that at present we see no prospect of procuring in Season any number of Men such as we wanted for the present Emergency.

Penobscot Indian Settlem<sup>t</sup>Aug<sup>t</sup> 16<sup>th</sup> 1779

In Council

My Brethren,

I heartily thank you for your faithful services while with me at Majabigwaduce a true Representation of which I will not fail to make to the Grand Council at Boston, we here have suffered a little disappointment but notwithstanding your Brethren will still continue to protect you and Your families till the pleasure of Council can be known who I doubt not will do all in their power for your welfare and prosperity,—I am heartily sorry to see you and Your little ones drove from your Habitations and even your dependence, (Your Bread and part of your Hunting,) but fear not you will be Restored to it again shortly.—I wish it was in my

power to Relieve you a little at present but I have lost all myself — The Chiefs answered. — They were sensible the Gen<sup>l</sup> Had lost every thing, and would help him all in their power That Five Canoes and Eight Indians should forward him towards his friends at Kenebeck that his Visit<sup>s</sup> their Wigwams and the notice he had taken of them had given them a satisfaction they had never before Received. That they should continue their sincerity. That a little misfortune would not make them change their Hearts they would ever be friends with the Grand Council and open enemies to the Tories and Brittish Troops who had hurt their young Men, and that their faith was firm more so on account of the Alliance with France that they Had but Two Fathers General Washington and the King of France who they would assist They then desired the Gen<sup>l</sup> to Observe their poverty & said the General Court had often promised them articles but they had not Received them except some few trifling things, that they designed to be true and hoped infuture their Brethren would be the same. — The Gen<sup>l</sup> Replied — That sundry things had been sent to them and particularly at this time part of which they had received & the Rest destroyed by their Enemies the English, That he would use his endeavors to get them some Necessaries by the way of Kenebeck infuture

That he had the highest esteem for them and their unasked offers of being our inseperable Breth'ren, that it would be highly pleasing to the Grand Council at Boston, — The Indians then desired that nothing intended for them might be sent to Machias, That two of them are desirous of going to Boston and that the Rest would Return to defend their families — The Gen<sup>l</sup> wished them not to go as every thing then would doubtly be in confusion however they Importuned & M<sup>r</sup> Gilman was directed to Repair to Boston along

with them, on the Gen<sup>ls</sup> Leaving their Wigwams the Young Men was all under arms and give him at his departure a discharge of Musquetry & shewed every sign of satisfaction

May it please your Honors This day rec'd a letter from General Lovell wherein he writes that the three hundred Men ordered from my Brigade that he has at Penobscot there is about one hundred & Thirty short of said number, the Reason is about Twenty of said number after they were Drafted and ordered to March to Wells went on board the Ship Hamden then laying at Portsmouth since sailed to said Penobscot, our orders came to us late but about four days before the Transports came for the Men & then went right to

Casco Bay the remainder of said Men were mostly ready to March but the Transports sailed before the Men could be got to Casco, General Lovell requests that the Men be sent to him Either by Transports or by land, I have no Orders from your Honors to hire Transports, I sent one Major who fell in Landing, a good Officer he was; Now I beg your Honors would send me some Directions about the Affair whither I shall send the remainder of the Men, and how, whither I shall send another Major or not,—the Militia Law gives Twenty four Hours for those that are drafted to pay their fines which put the Officers to a great Deal of Trouble large numbers paying their fines, the Men will be all ready by thursday onely wait your Honors Orders, which shall be punctually obeyed as soon as rec<sup>d</sup>.

*Letter Enoch Freeman to Hon<sup>b</sup> Jeremiah Powell*

Falmouth Augt. 18<sup>th</sup> 1779

Sir

The Invasion of Penobscott by a very considerable force of the Enemy, their Progress there and the Ravages committed by them in other places at the Eastern Part of this State make us apprehensive that they have a design to cutt it off from the other part of the State. and either annex it - to the Province of Nova Scotia, or form it into a separate Government under the British Administration —

Under such Apprehensions, a number of Gentlemen from most of the Towns in this County, this Day assembled in Convention in this Town to consult what is proper to be done for our safety and defence —

We think the Harbour here would be of such importance to the Enemy, in the execution of what we judge<sup>d</sup> to be their grand design, that they will not much longer neglect to attempt to possess themselves of it, and make it a place of Rendezvous for their Troops & Ships of Force — and we are sorry to inform your Honours, that such is the state of our fortifications — & such the weakness of our Force, that unless some measures are immediately enterd into, for our pro-

tection and defence, we fear we shall fall a Prey to their Rage and Malice—

We therefore humbly pray that your honours would take our case into your serious consideration & order that such steps may be taken as will put us in a good posture of Defence—

We have recommended to the several Towns in this County to raise immediately their respective proportion of one hundred Men to repair the Forts here and build others in such places as a Committee, (whom we have appointed for the purpose), shall judge best—and we trust the General Court will make provision for paying them for their Services—

And we would request that the Honorable Council would appoint & send as soon as possible: some experienced, faithful Engineer to take the oversight of the Work—

We would further pray that at least two hundred Men might be ordered here from the County of York, or some other County to the Southward of us, to increase our Strength, which is already much reduced—

We also think it necessary that a number of Cannon and a suitable quantity of Military Stores, should be procur'd & sent here to be placed in fresh Forts as may be erected—and also some Field Pieces—(two at least we think are necessary)

And as Provision is extremely scarce here, & it would be almost impossible to collect on an Emergency as much as might be wanted, we think it absolutely necessary that a Magazine thereof should be provided & placed in a proper part of the Town to be used when an Alarm should require it—

I am in the name & behalf of the Convention—your Honors most obedient—and very hum<sup>e</sup> serv<sup>t</sup>.

Enoch Freeman

We have this minute receiv'd advice (by the Bearer who

August, 19<sup>th</sup> 1779

Sir

The Council take this opportunity to express their obligations to you for your ready & kind attention to their late request by so early despatching a detachment of Troops, under the Command of Col<sup>o</sup> Jackson.—They sailed Yesterday Morn<sup>g</sup> under convoy of a 16 Gun Ship, & 2 Brigs & caution given to keep near the Shore to prevent risk as much as may be; as there have been reports of a reinforcement to y<sup>e</sup> Enemy being seen.

This Morning We have received a letter from General Lovell da<sup>d</sup> y<sup>e</sup> 14<sup>th</sup> instant informing that a reinforcement had arrived, and that it was thought expedient with all possible dispatch to make a retreat, which he effected without loss, & is now on his way up Penobscot River to take Post at Fort Pownal if found convenient: the two Fleets were closing

together & the General expresses his great anxiety for the event. We are informed by a Gentleman from Newbury-Port that the Fleet with Col<sup>o</sup> Jacksons Regiment were seen Yesterday off Newbury-Port, from whence a boat was immediately despatched to give them an Account of the arrival of the Enemies Fleet at Penobscot; & we have no doubt but Col<sup>o</sup> Jackson will be careful to take Post So as not to run any unnecessary risk & to be ready to afford Succour to General Lovell & prevent y<sup>e</sup> ravage of the Enemy.—The Board are expecting every moment to hear a more particular Account from Penobscot which shall be communicated to you

Portsmouth Aug<sup>t</sup> 19<sup>th</sup> 1779

Sir I embrace this opportunity to inform your Honor I arriv'd in this Harbour this Afternoon at 3 o Clock with the whole of the Fleet under my command in good Order, the inclosed information I rec'd Yesterday Evening off Newbury port from Brig<sup>g</sup> Gen<sup>l</sup> Titcomb—I thought it most adviseable to stand immediately for Casco Bay and there gain further intelligence before I proceeded to Townsend as directed by the Hon<sup>ble</sup> Board—I had wrote my Orders for the Spy Boat to go on with the greatest dispatch to Falmouth & gain every intelligence in his Power,—but the Wind coming round to the N. E. obliged me to put into this Harbour, as it was the Pilot I could not proceed any further with the Wind in that quarter—immediately on my arrival here I sent off an Express by Land to Gen<sup>l</sup> Lovell informing him of my arrival

here, And that when the wind permitted I should proceed to his relief—The bearer of this M<sup>r</sup> Brewer this Moment arriv'd from Penobscot & informes me of the Situation of Gen<sup>l</sup> Lovell & that the Enemy has Two Frigates & Two Tenders Cruising for me, by intelligence they had gained by an advice Boat they had taken with the dispatch's from the Hon<sup>ble</sup> Board to Brig<sup>r</sup> Gen<sup>l</sup> Lovell; as I wish not to delay one Moment—I shall propose to this Town to morrow Morning if I can be provided with waggons to transport my Baggage, Provision & Military Stores, I will immediately March for Casco Bay—I wish some directions from the Hon<sup>ble</sup> Board respecting this Matter

I have the Honor to be with the greatest respect yours &c

### *A Proclamation*

By the Hon<sup>ble</sup> the Council of the State of Massachusetts Bay

Whereas the inveterate Enemies of the United States of America have for some time past invaded the Eastern Parts of this State and have made a Lodgement on Majorbagaduce—And it appears to this Board that their main Design is to maintain a Post there, & as their Custom hath been to commit wanton & savage Depredations on the Inhabitants—The Good People of this State & those in particular whom it may more immediately concern are therefore hereby called upon duly to consider the Solemn Obligation they are under for the Honor & Safety of their Country to exert themselves to the utmost to defeat the Enemy in this their unjust & Cruel Design. And they are earnestly exhorted to be upon their Guard against the Arts that may be made use of to prevail upon them to withdraw their Allegiance from the

Government of this State, as they will answer it at their Peril And this Board hereby invite the virtuous Freemen of the Counties of York, Cumberland & Lincoln upon the call of Brig Gen<sup>l</sup> Lovell to exhibit the proofs of their zeal & Attachment to their injured & insulted Country by voluntarily repairing to his Standard Armed & accoutred & with such Quantities of Provision as they may be able to take with them. In firm Reliance that Heaven will smile upon & prosper their Vigorous Efforts in like Manner as this State heretofore experienced at Saratoga And the Inhabitants of the aforesaid Counties are hereby assured of all that Countenance & Assistance which it shall be in the Power of this Government to afford —

Given at the Council Chamber in Boston the 19<sup>th</sup> day of Aug<sup>t</sup> in the Year of Our Lord 1779 And in the fourth Year of the Independence of the United States of America —

Dear Sir/ Captain Goodale (of whom I spoke to you when you was coming on to Head Quarters with L<sup>t</sup> Col<sup>o</sup> Campbell) is come out on Parole to Return in Forty days from the 13<sup>th</sup> Ins<sup>t</sup>—unless Cap<sup>t</sup> Kerr a prisoner at Rutland is sent in Exchange for him—My dear Sirs if it is possible for you (Consistant with your duty) to git Cap<sup>t</sup> Kerr into the hands of the Council as a State prisoner to be exchanged for Captain Goodale it will do both him and me the greatest favour in your power, as well as greatly promoting the Service—Cap<sup>t</sup> Goodale is one of the best partazan Officers within my Acquaintance, he took near One hundred prisoners out of Burgoyne's Army before the Convention which he Effected at different times in a masterly manner of address, as well as Art & Strategem, Patience, bravery & Perseverence,

It is from these Considerations I solicit his exchange out of his common Course, Colonel Ward's exchange was (as I am Informed) Effected this way, by the Council sending in the Captain of the Summersett—Perhaps you may owe them a. Captain or may lend them one—I rest the matter with your wisdom and goodness to conduct, and should the wished for event take place, shall Consider my-self under the greatest Obligation in the power of any Gentleman to lay me under—I am sir

Thomaston 19<sup>th</sup> August 1779

Hon<sup>d</sup> Sir Being uncertain whither you have yet been informed of the sad catastrophe of your Armament against the Enemy at Magabagaduce am under the disagreeable Necessity of informing your Honor that (by information which I depend upon) the destruction of your Fleet was compleated on the forenoon of the 16<sup>th</sup> Instant and that the army five Companies excepted, are dispersed to their several homes—Your Honor is doubtless inform'd by the return of your Express to Gen<sup>l</sup> Lovell who left us on the 14<sup>th</sup> Ins<sup>t</sup> of the Evacuation of the Heights of Magabagaduce by your troops on the Morning of that Day, on the approach of a Fleet up the Sound the Evening before and that our Fleet was under Express to Gen<sup>l</sup> Lovell who left us on the 14<sup>th</sup> Ins<sup>t</sup> of the Evacuation of the Heights of Magabagaduce by your troops way up Penobscott River & that the Enemy was in pursuit The Wind being very faint and much against us prevented our getting far up the River on the Tide of Flood, till the

coming in of the Sea Breeze in the Afternoon which brought in the Enemy's fleet along with it, & the tide of Ebb taking us the Stronger as we advanced up the River, brot their foremost Ships up with our Rear & cut off the Hamden, Hunter & one Brigg below fort Point; & our transports not being able to stem the Current, to prevent drifting down to the Enemy chiefly Shot into the Eddy on the westerly Side the River & ran ashore about two Miles below the Narrows whilst our Ships of War by the help of much sail & Boats reach'd a little farther up the River.

Whilst this was doing I had been up a little past our foremost Ships Just at the narrows to find a place for landing & hawling up our Cannon to check the Enemy's progress; having given Orders for their readiness beforehand; but on returning to my great surprize found many of our Transports on fire all deserted & our troops Scatter'd in the Bush in the Utmost Confusion, It was now Dusk & the Enemy's Ships at Anchor rather below our Cluster of Transports, Our Vessells of War & a few transports still endeavoring to stem the Current—No Pains was spared to collect the Troops, to save the Stores & Ordnance on board the Transports then on fire, but neither Men nor Officers were under the least controul, & it was with the utmost difficulty with the help of a few Individuals, that a small Quantity of Provisions only were saved from the conflagration in the midst of Fire Smoke and Shot, By whose order the transports were fired is uncertain; Gen<sup>l</sup> Lovell tis said was gone up the River in the Hazard which was the headmost Vessell.—Our army by this time was thoroughly dispers'd in the Wood and our Ships of War not able to hold their Ground began to Blaze. Three of them were burnt the forepart of the Night the first of which was the Sky Rocket: the rest on the turn of the tide tow'd up the River and pass'd the Narrows, the Enemy's

Shipping in the morning remain'd in the same place as in the Even<sup>g</sup> before it being calm & Foggy & were said to be the Reasonable of 64 Guns, a Fifty, a Forty, the Blond & several Smaller Ships—Early in the Morning I endeavored to rally our Scatterd Troops on the high Ground near where we ran ashore, that we might recieve the Generals Orders, but to no purpose, for in General both men and Officers had dismissed themselves & march'd off the Parade faster than they could be brot on—When most of the forenoon had been spent in this fruitless Attempt, not being able to get Intelligence from the Gen<sup>l</sup> for four or five Miles up the River & unable to retain a man on the Ground, I swang my Pack & march'd directly for Camden (directing the Course of all I overtook to the same place there to halt) where I arriv'd on the 17<sup>th</sup> Instant: some of the Militia had passed before I came up others had sheard off to prevent being Stop'd; and the rest altho: much fatigu'd had not lost their Eagerness for returning home, & in spite of every Order & precaution, after drawing provisions skulk'd off, except five Companies, who were retain'd by the influence of good Officers, these have this Afternoon been ordered to take their separate posts at Belfast, Campden, W S W Gigg, S<sup>t</sup> Georges & Townsend in order to protect the inhabitants from the Incursions of the Tories & small parties of the Enemy & to encourage them to save their Corps & not to fly from their habitations, which would have been the case of very many families, had nothing been done for their encouragement. This distribution I have ventured to make without the order of the General, not having seen him since the morning of the evacuation; but think it most probable that he pass'd from the head of the River into Kennebeck & is gone down the river in which case I hope your Honor has had earlier and more Intelligible Account of Facts than is here contain'd from the General

himself — I would however beg leave to suggest to your Honor the great importance of keeping a small Force of three or four hundred men under the direction of the Brigadier of the County Stationed along the Sea Coast to prevent the sudden incursions of the Enemy to check the spirit of Toryisms within & to Strengthen & Encourage the Wavering & to prevent many families on the Sea Coast from flying from their Estates & leaving them to be plundered by the Enemy Convinced of the Necessity of such a Measure I have wrote to Brig<sup>r</sup> Cushing desiring him to send from the inland part of the County five Companies of the Militia who lately dismissed themselves from Penobscot or some others to relieve the Companies now on the Ground; (as four of them belong to the County of Cumberland & all live on or near the Shore and cannot be better dispos'd of for the public good than by being dismiss'd & returning home) & to continue till Orders from the General, or the Hon<sup>ble</sup> Council can be obtained: & should it be thot proper to continue such a Force on the Sea Coast till the Enemy could be driven from this Quarter, should think it best that they should be under the Direction of the Brigadier of the County who will be likely to make a better Disposition of them than any other Officer —

The Companies on the Ground have about Twenty five Rounds p Man: they are fed with fresh Beef Rye Meal & Petatoes, which I suppose can be procured here for the present. Your Honors need not be Informed that a Supply of both Ammunition and Provisions is necessary immediately if it should appear expedient to keep the Troops on the Sea Coast, and indeed some Ammunition will be necessary for the inhabitants in case no Troops should be kept up.

I have not heard of the Supplies which the Gen<sup>l</sup> was expecting before the evacuation, & fear least they have fallen into the hands of the Enemy.—

An Express from your honor I am informed, turnd back the day before I arriv'd at Campden on hearing of our Disaster I was not acquainted with his business.— I have this moment on Account by L<sup>t</sup> Little of the Hazard, that Gen<sup>l</sup> Lovell after every Possible exertion to save the Fleet, & after seeing the last of them on Fire much against his Opinion; had crossed over from the Head of Penobscot to Kennebeck River; in which case I think it most likely that Cap<sup>t</sup> Lovett who goes express with this will meet him either at the Crossing the River or on the way; I shall therefore inclose this to the General who will send it forward to your Honor or not, as he thinks.— Cap<sup>t</sup> Lovett is a Gent<sup>n</sup> of a very good Character & his information respecting the Situation of the Coast here may be depended upon. He advances money for the expences of the Journey, which I have given him encouragement will be repaid him on his arrival at Boston & which I ask as a Favour.

I shall remain in this Quarter till I receive Orders from the General or from your Honor, when I hope to have Leave to Return. In the Mean time I have the Honor to be

Sir

This Board have rec'd your Letter date the 19<sup>th</sup> at Portsmouth and are happy in your Safe Arrival there with the whole Fleet under your Command. They approve of your Resolution to march to Falmouth, and make no doubt but upon your Application to the People of Portsmouth, or as it appears to the Council most effectual, to the Selectmen of

the Towns Eastward of Portsmouth, you will be amply provided with Waggon &c for the Transportation of your Baggage Provisions & military Stores. By the time of your Arrival at Falmouth, you will probably receive Directions for your further Conduct from Brig<sup>r</sup> Gen<sup>l</sup> Lovel who is authorized, if he shall judge it necessary, to call in the Militia of the Counties of York Cumberland & Lincoln It is expected that so spirited, experienced and well Disciplin'd a Regiment as yours is will add Vigor to the Inhabitants of that Part of the State, upon whose Attachment to the Cause of their Country great Dependence is to be had. a Single Disappointment though attended with Loss should by no means be a Discouragement to us. It is hoped that a Respectable Body of the Militia will be again collected, at Such place as Gen<sup>l</sup> Lovel if necessary Shall think most convenient, and that by the Smiles of Heaven our Enemies in that Quarter will yet be subdued. We pray God to protect & prosper you.

*Letter Charles Cushing Br G<sup>l</sup> to the Council*

Pownalboro August 21 1779

To the Hon<sup>ble</sup> the Council of the State of Mass<sup>ts</sup> Bay

May it please your Honors This accompanies a Petition from the Committee of Georgetown setting forth in a proper light the exposed Situation of that place & the poor circumstances they are under for defence of an Attack from the Enemy, which we have the greatest reason to fear from threats given out by them, I need not enlarge to induce your

honors to make necessary provision for the defence of this place as the Eastern Country is now become the seat of War & unless the most important places are defended in the best manner (as undoubted—Kennebeck must be allowed to be a Principal one) all safety of retreat must be cut off not only for the Militia of this County but for any Troops that your Honors may think proper to Station in any parts to the Eastward thereof as indeed appears very essential should be done at this time. a little precaution may save us from being involved here & keep the Enemy from any nearer approaches With your Honors indulgence I would suggest the propriety of stationing some Troops at Camden & of erecting a fort there, & also of Stationing troops at some of the principal Rivers between that & Kennebeck River, Sheepscut River, I apprehend ought to be well guarded as that is a Commodious Harbour for Men of War of the first Rate—if the enemy should get possession of Kennebeck & Sheepscut Rivers, it would cost the Continent much blood & Treasure to regain them. The Consequence of this Eastern Country to the rest of the State is so well known to your Honors that I need not urge any thing to enduce a particular attention to the same— If any Troops should be Stationed in this river Kennebeck I beg leave to recommend Major Lithgrow as a Suitable person to command (provided his Commission in the Continental army would not interfere) if your Honors thought proper.—

I am with the greatest Esteem &c

Sir The People who have been on the late Eastern Expedition are now returning, and being destitute call upon us for supplies, we are disposed to do every thing in our power necessary for their Comfort but as this town is a Sea Port and so near the Confines of New Hampshire we expect that great numbers of the Navy and Army will be applying to us for help unless some provision is made for their Relief in another way; and as we have had a Vast deal of trouble in the like way, and have expended large sums of Money for which we have had no compensation, we shall be exceeding glad if your Hon<sup>ble</sup> Board will take this Matter into your consideration and make needful provisions for these returning People by appointing some suitable Person to the Business or otherwise as you shall see fit, we shall at least hope to be informed as soon as possible what are the Sentiments of the Hon<sup>ble</sup> Council respecting this Matter that we may conduct ourselves

Brunswick Aug<sup>t</sup> 21<sup>st</sup> 1779

Sir I take the liberty now to inform you that it was on Wednesday afternoon that we rec'd the disagreeable news from Penobscot; on which we put into Piscataqua; I set forward immediately in order to rouze the Country from their present idle despair—I have requested the Brig<sup>rs</sup> & Col<sup>os</sup> of Militia wherever I came, to have their whole force ready to march on the shortest notice to any place where it may be thought best to make a Stand—and have engaged teams to convey the baggage & Stores by land from Portsmouth to Falmouth and thence by water (tho' within land & out of the way of any enemy) to Townsend:—the Deserters are innumerable—their Officers however are trying hard to be foremost: I have urg'd the Committees to collect and provide

for them: I have pick'd up Col<sup>o</sup> Mitchel & brought him on: and am now in quest of General Lovell—when I find him we will know where to Stand—mean time I have sent express to General Wadsworth, who is nobly endeavoring to collect the remains of the deserted army, & make a Stand at Cambden, to assure him of immediate Succour from Col<sup>o</sup> Jackson—Our case is very bad 100<sup>s</sup> of families are now starving in the woods—their all left behind them—all will despair—& the Majority will Quit the Country & the rest will revolt if something vigorous be not done to protect them from the insolence of the triumphing foe, who are carrying fire & desolation wherever they come:—a large reinforcement of Men—intrenching tools—Cannon Ammun<sup>n</sup> & provisions is absolutely necessary to save us—not a moment is to be lost—a very little delay will put us beyond remedy—but if we are immediately reliev'd: this little disaster need not discourage us—it will, if we act with proper spirit, issue in our Good, I hope every Man will be obliged to be ready that all deserters will be collected—& that the fugitive Officers will be properly rewarded—I am now setting off by water up Kennebec if peradventure I may light of the General & when it is in my power shall not fail to inform you further of any thing Material that turns up.—

I have the Honor to be with great regard,

Sirs

I have the honor of inclosing a number of Acts, lately passed by the general assembly of the State of New Jersey, and by what is wrote on the outside leaf, you will perceive, that they were to be communicated, by direction, thro' the hands of their delegates in congress, and that they are desirous of a "communication in kind from y<sup>e</sup> State of Mass<sup>a</sup> Bay," if the proposal should be agreeable to the hon<sup>ble</sup> board; they will be pleased to give y<sup>e</sup> necessary directions to the sec<sup>y</sup>; and if it should be thought most adviseable, that they shou<sup>d</sup> be conveyed thro' y<sup>e</sup> hands of your delegates in congress, they will be properly noticed, & delivered accordingly.

I have the pleasure of congratulating the hon<sup>ble</sup> board, on the success of our troops under the immediate command of Major Lee; I have not the particulars before me, but have no doubt, they will reach you before this.

We are anxiously concerned here, for our fleet and army at penobscot.

Sir,

Providence August 26<sup>th</sup> 1779 —

The Situation of Affairs, to the Eastward of your State, giving me no Hopes of seeing Colonel Jackson's Regiment return to this Port, so soon as I expected, I must entreat you,

not only to complete your Quota of Troops, but to make an early Provision for replacing the Four Weeks Men, whose Term of Inlistment will shortly expire.

I beg you will not expose me to Censure for having trusted your Promise, to replace Jackson's Corps, which your Representation of General Lovell's Danger persuaded me to detach, when I was apprehensive of being attacked by a Superior Force. The Enemy are perfectly acquainted with our numbers here; and it is highly probable that, knowing the Re-inforcements that have been sent to you, and to the North River, the Day on which the Four Weeks Men are to be disbanded, and some other Particulars, they will attempt to spirit up their desponding Soldiers, and the Tories, by a powerful and rapid Incursion on this State. I am informed that silent Preparations are made, which indicate such Design. I shall not solicit your Assistance in preserving my Reputation; but it is my Duty to represent to you what immediately affects your own, as well as your Safety.

I have the Honour to be,

*Letter F. H. Tarkson to Hon. Jeremiah Powell.*

Falmouth Aug<sup>t</sup> 28. 1779

Sir

I arrived here on the 24<sup>th</sup> Ins<sup>t</sup>, it being very rainy & disagreeable march'g my Regiment did not arrive till yesterday—on my arrival I made strict enquiry for Brig<sup>r</sup> Gen<sup>l</sup> Lovell & from reports expected him in Town from day to day till yesterday evening, when an Express arrived to me with a Letter from the Revd Mr John Murray dated at Georgetown Aug<sup>t</sup> 25. 1779 the foll.g is a Paragraph—"I proceed from hence to Fort Western where I arrived at midnight & found the Comodore with Major Brown who is aid to the General together with the Secretary & Several others of the General's family but not a word from himself since he set out from Penobscott in company with some Indians & an interpreter together with Major Todd, Col<sup>o</sup> Davis & Doct<sup>r</sup> Downing designing by the help of the Indians to make a Short passage by way of the Streams to Sabasticook—but now every one that under took the longest route is arrived even the women, I have talked with one, that carri'd her babe not 4 weeks old & another of 62 that carried bed & provisions—at three o Clock on Monday morning an express set out for the highest settlements on Sebastickook and return'd the next night without any tidings of the General—I then despatched two faithfull men from Fort Halifax with Orders to follow the Streams & keep the Indian track untill they have gone thro' & informed Brig Wadsworth at Cambden of the result—you will perceive from this narrative that my fears have been alarmed for the Generals safety—Indians keep no faith unless it appears to be their present advantage to do so—Tories multiply—the hope of reconciliation with a victorious Enemy & the Prospect of a Present (even if it were a gallon of Rum) would be a sufficient price for the

life of an American to most of that Class of Men—if the present Express brings no better news than the last I mean next to send a messenger to the Indians to demand him—and a Flag to the enemy to enquire for him—We have learned from a man that was lately taken in a Canoe from this river & carried to the enemy's camp & afterwards made his escape, that the enemy are about embarking & are bound for Townsend Kennebeck & Falmouth—”

Your Honor will observe by the above Paragraph that it is very suspicious that the Indians have either Kill'd the General or delivered him to the enemy & what makes it more alarming is the Gen<sup>ls</sup> commission was found in the woods by a Soldier & the Gentleman who came express, inform'd me he saw it & read it—also from the above Paragraph it appears very probable the enemy intend to pay this Town a Visit—and it's my opinion that this Harbour from the Situation will be their first object—I shall therefore make a stand here until I hear from the Hon<sup>ble</sup> Board—I this morning order'd Capt Vose of the Continental Artillery, (who Gen<sup>l</sup> Gates was pleased to detach from his Army with my Regiment to immediately examine into the State of Cannon & ordinance at this Port & make return to me of their Situation—The Sloop with ordinance Stores on board remain at Portsmouth wait'g orders from the Hon<sup>ble</sup> Board, as She was not put under my direction, & my not knowing what Stores are on board her, cannot det[er]mine if this will be wanted at this port—Yesterday the Sloop Fanny Cap<sup>t</sup> Kilburn arrived here with Provisions from the board of war at Boston directed to my care to be deliver'd to the Order of Gen<sup>l</sup> Lovell for the use of the retreating Troops under his Command—as the General is not yet heard off—and I am this moment inform'd the Brigadier of this County has orderd Col<sup>o</sup> Mitchels Regiment of Militia to repair at this

Port — & as part of s<sup>d</sup> Regiment is arrived & are coming in every hour — I have thought proper to deliver the whole of the above Cargo to Mr John Lucas, Commissary of Issues to Gen<sup>l</sup> Lovell<sup>s</sup> army, to be delivered out to the Troops — if it should be the determination of the Hon<sup>ble</sup> Board to make a stand here it will be necessary to have a magazine of Provisions immediately form'd in some place near this port, as the Provisions now own hand will not last more than ten days — I would also recommend that a Purchaseing Commissary be appointed to purchase fresh Provisions for the immediate consumption of the Troops & the Salt meat & hard bread remain'g on hand be keep in case of an immergency — Inclosed is a return of Ammunition & impliments wanting to compleat the Cannon at this Garrison — & upon examination I find this Town & harbour is by no means in a State of defence, as but few of the Cannon are fit for any long service, & if the Hon<sup>ble</sup> Board should think proper to make this Post defencable it will be necessary to have a number of heavy Cannon immediately senthere, & the Town & Harbour properly fortified — the Militia are exceedingly destitute of Arms ammunition and accoutrements, as I find by enquiry not more than one half are arm'd & accoutred — no news from the Eastward this day, when any thing of importance arises your Honor may expect the earliest intelligence —

I am with the greatest Respect your Honor most Ob<sup>t</sup>

*Letter from Gen. Lovell.*

Georgetown Aug<sup>t</sup> 28 1779

Sir

I am this moment arrived at this place from a long and tedious march, which is the occasion of my not writing you before which I hope will be a Sufficient apology

My last of the 14 August was dated in Penobscot River immediately after my retreat from Majabigwaduce Soon after my writing that Letter our Ships of war on finding the Enemy's Fleet superior to them came up with all Sail, the Transports were not able to proceed any further than Sandy point about five mile above Fort Pownal, the Troops were then Landed as the British Shipping were only  $\frac{3}{4}$  of a mile a Stern, but being taken up with pursuing out Men of War they did not play on us, till a fire Ship stop'd their progress from going up the River, after taking out but a small Quantity of Provision the Transports were set on fire.

Early the next morning I went on board the Commodore to Know whether any measures had been determined on by the Shipping, & finding no plan for their future operations had been settled, therefore the Commodore agreed that I

shou'd go up the River & request the several Captains to come on board him with their barges crew & assist him to get up the River all which I did and endeavour'd to encourage a Stand, but when I found my efforts ineffectual I then took care to see that the Hospital was properly supplied.

After this I went up the River to the Lower Town of the Indians in order to have a Conference with them, which I thought a matter of the utmost importance, as they might from our Defeat, be drove to despair, finding the greater part had gone up to their upper Town which is 90 Mile from the Mouth of the River, and as I cou'd not confer with those, they advised me to proceed there I accordingly went & gave them every encouragement in my Power & they are at Present satisfied I shall by the first Opportunity send you a Copy of our Proceedings Maj<sup>r</sup> Todd having the Copi<sup>s</sup> & not with me I found myself Obliged to promise them a Truck house on Kennebeck River which was the first Article they insisted on as they cou'd not Subsist without

I then set out from their Town attended by eight of their Tribe whom I hired to convey myself & eight persons with me to Kennebeck River, the whole were very desirous of going to Boston but I cou'd not consent only to two, to whom I shou'd be glad, if you wou'd pay twelve Dollars hard money each or Cloathing to the same amount, as I was obliged to agree with the whole party to give them two Dollars hard money p Day the other six I have paid at Fort Weston. I thought it best to comply with these terms as I was a great distance & in critical circumstances

The two Indians will be conducted to Boston by Lieu<sup>t</sup> Gilman to whom I refer you for further particulars concerning them

I am now setting off for Cambden in order to fix on the Different posts necessary to defend the Country. there is a

number of Letters from you sent Gen Wadsworth on Supposing me to be a Prisoner

You may depend I shall do everything in my power for the Good of the State

Head Quarters Aug<sup>t</sup> 29 1779

Sir

This Day came to hand your Orders of the 19<sup>th</sup> ins<sup>t</sup> my Tour to the Indian Country I mention'd in my last prevented my Receiving them sooner, which I shall execute with all possible dispatch — — —

Gen Wadsworth is now at Camden with what few Troops he cou'd collect in the retreat, covering the Country, & I have wrote to the Brig<sup>rs</sup> of the Counties to assist the Officers of the Forces of the Penobscot expedition, to collect & forward their Men to the different Posts I mean to Establish: viz at Camden three hundred Men who are to cover the Country from Pemaquid to Belfast & assist the Inhabitants in getting off their Stock & Grain, to be in small parties in readiness to reinforce each other when attacked.

At Townsend which I propose at present for Head Quarters, Col<sup>o</sup> Jacksons Reg<sup>t</sup> who are to Guard from the west side of Pemaquid to the East side of Sheepscut River

At Kennebeck River three hundred Men to be posted on a very advantageous piece of Ground at Cox's head, who are to dispose of several small Guards from the west side of Sheepscut River to Small point.— — —

At Falmouth the Detachments lately on the Penobscot Expedition from Cumberland & York who are to Guard the Coast from New Meadows River to Falmouth

My intentions are to raise a considerable Fortification at this place, and another at the mouth of Kennebeck River, which must be supplied with Cannon for their Defence viz two Nines & one eighteen pounder at Townsend two Nines & one eighteen pounder at Cox's head with their apparatus & one hundred rounds each of round & Grape Shot

In order to carry on these Works it will be necessary to have three hundred set of intrenching Tools

I cou'd wish the nine pounders might be mounted on Travelling Carriages, but if they cannot be procur'd must beg they may be sent without Delay with Garrison Carriages

There is two Companies of Artillery in this County, but have little Knowledge of their Duty, and cannot all be Detached, I shou'd be glad if one Company of Col<sup>o</sup> Revere's detachment might be sent back with all Speed for to be disposed of at Kennebeck River & Townsend I shou'd likewise beg you wou'd give L<sup>t</sup> Col<sup>o</sup> Revere a very severe reprimand for his unsoldierlike behavior in returning home without orders.

I wou'd be glad to Know the Intentions of Council whether they mean I shou'd tarry here after the expiration of the time of Troops under my Command, if they do I must beg you wou'd cloath me with the same Authority to call out the Militia as I had in the Expedition, and to be furnished with some necessaries for my living as I have lost all my Stores & camp equipage in the late Destruction of the Fleet

& most of my Cloaths a schedule of what I shall want is here with inclosed

I think it of Consequence as the Enemy are frequently plundering the Islands of Stock to immediately have them taken off which I shall endeavour to effect without loss of time

The present appearances of things at Majabigwaduce seem as if the Enemy intended to hold their Ground, by accounts received this Day from the Eastward that they are daily at work cutting down the Trees on the Peninsula & fortifying with the greatest industry, having call'd in the Inhabitants resworn them with the addition to take up Arms & compelled them to work on their Fortifications, the Enemy's Ships are continually cruising off that we can scarcely take a look but some of them appear

I hope the affair of the Truck house on Kennebeck River will be attended to as soon as possible, as it is of the greatest consequence to retain the Indians in our favour

Am Sir with Great Esteem

Falmouth 30 August 1779

Sir,

The Committee of Safety &c for Falmouth would inform the Honourable Board of their embarrassments, & beg their directions.

The return of y<sup>e</sup> Seamen from Penobscot in y<sup>e</sup> greatest distress imaginable has obliged us to act as commissary, Quartermaster, &c. &c. To furnish them with necessary provisions & to relieve their distresses we have been obliged to issue some impress Warrants; some provisions we have purchased; & some we have borrowed. We have observed y<sup>e</sup> greatest Economy & order y<sup>e</sup> necessary confusions would admit of. The men returned without Officers; without Order. We shall transmit your Honors an account of our doings as soon as y<sup>e</sup> men have done returning.

Col<sup>d</sup> Jackson applys to us for assistance, where he has not proper Officers to supply him: This however gives us but little trouble: But the Militia, who have returned from Penobscot, are ordered to this place. They are not properly attended with Officers, & those who do attend them, have not proper directions what to do with their men. They apply to the Committee. The Committee know of no business they have with them. Here we are much embarrassed. We have also frequent applications from Expresses for assistance; & some times are obliged to send of Expresses our selves.

New applications of various kinds are daily made to us; & new difficulties arise.

In short affairs here are in the wildest Confusion. We wish for y<sup>e</sup> direction & assistance of y<sup>e</sup> Honourable Board.

We are, with Sentiments of Respect,  
Your Honours most obedient & very

Boston August 31, 1779

Sir

We have your favor of yesterday recommending our sending out the Continental Ships of War, now in this harbour, with all possible dispatch, to Cruise in this Bay. —

Previous to the requisition, we had directed the several Captains of those Ships, to prepare them for cleaning & fixing for sea, without loss of time, in which business they have proceeded so far, as to render it impossible to send them out immediately; especially as their men are dispersed & cannot be collected, upon so sudden emergency

You S<sup>rs</sup> may be assured, we are ever ready to give all the aid & assistance to the Trade of this State, in our power, for which purpose we shall order, the Providence & Queen of France to be Equipt with all diligence. The Ship Pranger may sail in the morning, altho not fully manned; if the Captain of the French Frigate, can be prevailed with, to Accompany her, perhaps may be sufficient force, to Chastise

the Insolence of the Enemy; that are said to be at the mouth  
of the Harbour.

I am now to acknowledge the receipt of your favour of the 28<sup>th</sup> July & 14<sup>th</sup> Aug<sup>t</sup> ultimo covering several acts of Congress. The General assembly meet next week at which time the said Resolves will be laid before them and recommended to their Consideration

With disagreeable Sensation I now acquaint you that the Expedition to Penobscot (of which we had formed pleasing prospects of great good accruing to the United States) has proved abortive. On the fifteenth ult<sup>o</sup> when General Lovell was flattering himself with the prospect of success the Enemy were reinforced with a Naval force Superior to that which we had there and immediately Raised the Seige and caused our armed Vessels & transports to push up Penobscot River to prevent their falling into the Enemies hands. When they had got up the River as far as the Point where Fort Pownal stood & into the Narrows the tide being against them the whole of the fleet was burnt & destroyed to prevent the Enemy from taking them, Excepting the Camden & Hunter

which fell into the Enemy's hands, three or four of the transport, and the Pallass, which made her escape. We have not as yet received the particulars from General Lovell by reason of his being obliged to go 100 miles up the River to Escape the Enemy and has not had time since his return to give us the particulars of this catastrophe. The most Authentick account which we have had is contained in Brigadier General Wadsworth's letter Extracts of which you have inclosed. When we have the particulars the Council will do themselves the Honour to transmit them to your Honorable Body A

This will be an unfortunate event if that Post with Nova Scotia should be permitted to Continue in the Enemies possession, not only to the United States but to our Illustrious Allies as the Enemy will command the "Mast ground" belonging to this State and the Cod fishery which is of the greatest consequence to the United States will be wrested out of their hands.

A The Dislodging the Enemy from the Post they had possessed themselves of at Penobscot was Esteemed by the General Assembly of this State of such Importance to the United States as well as to our allies that it was a prevailing notice with them to enter upon this Expedition & we doubt not it will meet the Approbation of Congress although it has proved unsuccessful, we are still obliged to keep a number of the Militia in pay to defend the Eastern part of this State from the Ravages & depredations of the enemy

*General Lovell's Letter to the Council Sept. 3, 1779.*

Head Quarters Townsend

Sir

Sept<sup>r</sup> 3 1779

Yours of the 27<sup>th</sup> of Aug<sup>t</sup> I this day received; wherein you  
 direct me to transmit to you the most authentick Account in  
 my power of the number & strength of the Enemy at  
 Penobscot.

By the best accounts I have been able to collect from  
 Prisoners, Deserters, & Inhabitants, while at Majabijwaduce,  
 the Enemy's numbers were seven hundred Land Forces, &  
 three hundred seamen & Marines, who acted occasionally  
 either on board or on Shore; the Ships Albany of K, Nauti-

lus of K, & North an Old Ship of 18 Guns, the Santilena a prize Ship that mounted a few Cannon. ———

You also direct me to give you an Acco' of the retreat of the Army lately under my Command, & the Cause & Circumstances of the same ——— Aug<sup>t</sup> 13 at 10 OClock in the Evening I received advice from Commodore Saltonstall, informing me that Capt Brown of the Deligence had, upon a reconnoitre, discover'd six Ships in the Offing; in his opinion they were heavy Ships, but expected further information by Capt Hallet: — — — about 12 OClock the same Evening he informed me by Letter "that there were seven square rigg'd Vessells off, five of which were Ships, four of whom in his opinion were Men of War, & requested I wou'd make my movements accordingly"—

With the advice of my Officers I immediately dispatched Orders to the different Corps under my command, to hold themselves in readiness for marching; and that the Boats be ready on Shore well man'd to wait further orders; at the same time, I directed the Commanding Officer of Artillery to embark his Ordinance & Stores; & with a fatigue party secured every Article in the Commissary & Q M Gen<sup>s</sup> Department's; I then reinforced my Pickett Guards with 100 Men; and having advice that only my Troops remained, & that the Boats were waiting my Direction, I order'd my army to retreat; which was regularly effected by sunrise next morning: my Guards then were drawn in, & embarked without loss of time; & I issued my orders that the Transports retire immediately up Penobscot River.

The Nights being very dark and the Ground very disadvantageous, — had not the greatest exertions taken place, much must have been left. ——— On an Island in the entrance of Majabijwaduce River, were two 18 pounders & one 12, under the care of the Officers of the Navy, which

were not brought off; I used every endeavour to secure them, by ordering a party for that purpose, but my time was too short, the Enemy's Shipping & boats then being near that place, and that part of our Navy which cover'd this post having drawn off, I dispatched orders for them to desist. — After my Transports had passed two leagues up the Bay, which brought them to the entrance of the River Penobscot, they were becalmed; and the Tide upon Ebb—no thing cou'd be done, but to come to Anchor; soon after the Enemy's Ships had a Breeze from the Southward, from which they received every advantage, and was the occasion of my Transports being so near as above described, unexpected to me I observed our Navy under way, tho with little wind, but soon received the breeze, and at 5 OClock P. M. were along side of us, the Transports then receiving the same advantage, with every endeavour strove to keep way; but the Armed Vessells run by and left them to the power of the Enemy; for by sunset the Enemy's Vessells lay abreast of us. The Troops were Landed where they cou'd get the most convenient ground: about half an hour previous to this, Directions were given to keep the Vessells at Anchor, but in the Evening finding all attempts must be fruitless to save them, the Enemy having sent a large number of Boats, possessed themselves of one Schooner; and had two frigates to cover any movements even to the carrying of my Transports; I was satisfied these Vessells must fall into their hands; but before I cou'd give my Directions, some of the commanders had Orders from the Commodore to destroy them; the conflagration took place; & all except three were burnt which fell into the hands of the Enemy: Night then having approach'd & the Troops being scatter'd in the Woods, it was impracticable to collect them, and the next morning a very few cou'd be found.

Brig<sup>r</sup> Gen Wadsworth being with these few Troops that remained, and fearing the Destruction of the Armed Vessells was nigh, I hasten'd to endeavour ye securing them, & warmly recommended that they shou'd draw a Line a cross the River and endeavour to support them; for which purpose wou'd call to that place the remains of my Army, & further assistance if necessary; I applied to the Commodore to Know whether my measure was concerted for the security of the Shipping, but found him totally undetermined; the next morning I found the Vessells were to be destroyed, the Crews having got exceedingly uneasy: &, by 10 OClock, the Private Vessells taken into the service by Government, were in flames and at these places, viz Sonadabscock & Condeskeige, in two hours were destroyed all the Shipping on that Expedition; by whose direction, or whether by, advice of any Council I know not; seeing this done I then found the security of that place was trivial; but unexpectedly discover'd a universal uneasiness among the Indians belonging to that River; and found it most advisable to pay some attention to them; they then having committed many outrages which drew terrible Apprehensions on the Inhabitants: I repair'd to their Towns, negociated matters with them, and effectually secured them to our Interest, the heads of which I have transmitted, a peice of service I hope will meet with the approbation of your honours.

In the mean time Gen Wadsworth collected at Cambden, what Troops cou'd be got together and made a stand, for which he deserves particular thanks. — — —

I am now to give your honors as perfect an Account of the Eastern parts of this state as I am able, In regard to the different Rivers, Bays and Harbours, I have obtained the remarks and practice of the most Eminent Pilots, which I herewith transmit; This Country is of vast extent, thinly

settled, but immensely valuable; the soil, the Timber, and the easy conveyance, as will appear by the several Bays and branches described, renders it an Object of the highest importance; added to this the Salmon Herring, Cod and other fisheries, which yield a great releaf to the Inhabitants, and is of the greatest importance to Trade. — — They have with great industry nearly bro't to perfection a sufficient proportion of the necessaries of Life almost equal to that of our Western parts, The Inhabitants are our worthy friends except a feu, and seem not to doubt of receiving the Protection of Authority, and a sufficient force to dislodge the Enemy, and drive them fro<sup>m</sup> that valuable River Penobscot.

The forces at present at Majabijwaduce are as near as can be ascertain'd between eight or nine hundred Men, well posted, the Shipping have all sail'd from Penobscot except the Albany of 16 Guns the North of 18 Guns,—The Enemy are finishing their fortress & expect a reinforcement from N York, a number of their Ships are Cruising off this Coast, am

*A part of General Lovell's relation of facts during his command at Penobscot.*

In consequence of a Council of War held on the 10<sup>th</sup> the determination of which was to take possession of the Ground in the rear of the Enemy's main fort, & to go in with the Ships on the 12<sup>th</sup>, on which I dispatched orders to Gen

Wadsworth who was erecting a Battery on the S. E. side of Bigwaduce River which he had almost compleated, to repair with his force to the main Camp, But was much disappointed in finding the Volunteers who were on the Main, fall much short of the numbers given by the returns, on the 11<sup>th</sup> in the Afternoon order'd six hundred Men to be detached in order to make an experiment of them how they wou'd behave, but only 400 came upon the Ground, after harranguing them order'd two hundred to advance Under the Command of Major Brown, Brownville & Larrabee, to the Battery captur'd on the 1st with orders to send out small parties to decoy the Enemy out, the other 200 lay as a reserve in the woods ready to succour in case of necessity, about sundown finding the Enemy did not approach them I gave the Signal to retire, immediately on the signal being given & they had began to retire, the Enemy rush'd from behin[d] a Barn were they where concealed & gave them a fire on Which they retreated in the greatest confusion notwithstanding the exertions of Major Brown & Bronville & a few other Officers, on w<sup>ch</sup> A General uneasiness took place among the Officers commanding Corps & complained that their Reputation was at stake to go into the Field with such Men, and desir'd me to call a Council which I did the results of which N 8 is before you

As this movement was intended to cooperate with the Shipings going into the Harbour I the next morning viz the 12<sup>th</sup> informed the Commodore of our proceedings which produced a Council N 9 were they determind not to go in

In the Afternoon the Officers of the Navy & Army proposed calling a joint council but while we were confiring the Enemy made a Sally which brought on a Skirmish The Army being order'd to their alarm posts, the Council was defer'd to the next morning which met accordingly On the

13<sup>th</sup> by 5 OClock, many were for evacuating the post as will appear by N<sup>o</sup> 10 but as I soon expected advice from Boston, and every moment a reinforcement by Col<sup>o</sup> Allan & Porter, and my orders being of such a Tenor I did not consider myself at Liberty to retreat with out an Order from Council, I cou'd not give my Vote for leaving so important a post, as I had rec'd no information of any renforcement on their Way to join the Enemy,

Some of the Officers being desirous of once more trying the Men by encouraging a number of Volunteers to make another Attempt In the Afternoon I went myself after harranguing them & promising I wou'd myself lead them, about 300 turned out, half of which joined by about fifty Marines, went and took post near the Ground were the Commodore required the other half lay in reserve with Brig Wadsworth Capt Burke of the Navy being with me I desir'd him to go on board the Commodore to acquaint him I was then ready to fulfill his requisitions, the Ships soon after got under way, but the wind dying, as we supposed prevented their coming in, after remaining till dark I order'd my Men to retire which they did in good order

*General Lovell to the Council Sept. 4, 1779.*Head Quarters Sep<sup>t</sup> 4 1779

Sir

In addition to my Letter of Yesterday I have to inform you that from Good authority I have just had information of Gen McLeans having sent a flag of truce to the Indians inviting them to be his friends, but its probable they will not meet with a very agreeable reception

Some Persons (tis to be fear'd not well affected to our Cause) are purchasing fat Cattle in this County and driving them westward a practice that will be very detrimental to the Troops raised for the defence of these parts I have therefore taken the Liberty to send a party with an Officer to Stop any Cattle passing Kennebeck River & requesting the Committees of Correspondence &c to be assisting in so salutary a work; which I hope will meet with the approbation of your honors, but wou'd wish to know how I am to proceed in future on such Occasions as these parts at present wear the aspect of the seat of war.

I have called in the Troops belonging to the service, but find their numbers very small at present a return of which as soon as I possibly can obtain I shall forward, I have issued positive orders to the Militia Officers and requested the Committees to forward the Men, if it is not done I shall not be in a situation of Defence

I have taken the greatest precautions in my power to defend the exposed parts of the Country adjacent to the Enemy, by posting Troops at Cambden and Guards at Belfast and Georges and having intilligence that the Enemy had taken out of the wreck of the Ordinance Sloop, some 18 pounders & smaller cannon & landed them on Brigadier's Island, I detached a party of twenty Men with the best craft I cou'd

obtain to fetch the same off, since which I have not had any account from Gen Wadsworth who commands there,——

As it is of consequence to have the harbour of Townsend & mouth of Kennebeck River fortified I shou'd recommend an able Engineer's being sent this way immediately as Gen Wadsworth is so much employed in his command that he cannot attend to it

With respect to supplies, it is the conclusive opinion of the most competent Judges that two months provisions may be had in the County of Lincoln for 1000 Men the article of Bread excepted and not affect the Inhabitants

It is my Opinion it will be absolutely necessary to have two hundred & fifty Men at Kennebeck River to guard from small point to Sheepscut River; Two hundred & fifty at Townsend of Col<sup>o</sup> Jacksons Reg<sup>t</sup> which being disiplined I think ought to be station'd there to reinforce either East or West; Three hundred at Cambden, who Shall act as Scouting partys to Penobscot at Falmouth——Tis a long extent of coast, and if the Inhabitants are not defended, it will be attended with very dangerous Consequences. I have in-closed Your Honor Gen<sup>l</sup> McLain's first oath Imposed on the Eastern Inhabitants & his last Proclamation.——

Since my writing the above I have had information of the Recall of Colo Jacksons Regem<sup>t</sup> by Gen<sup>l</sup> Gates, and also that Your Honors has Ordered a New Levy of Militia to be under the Command of the Committee & Select men of the County of Cumberland, looking upon these Directions as superceeding my command and by them supposing my Return is expected. As soon as I can effect the settlement of Matters at this quarter I shall consider myself at liberty to Return without I can have further directions in the Mean time.

I make no doubt it would have been to my advantage to have arrived at Boston with the Rest but I doubt not your

Honors are sensible of my situation, and as the duty of my country has detained me, I conclude nothing unfavorable in the Meantime will take place——

I have forwarded Maj<sup>r</sup> Todd with these papers to whom, provided anything is wanting I Refer Your Honors, having gone thro' a detail of Affairs.

Whereas a petition of the second parish in Falmouth in the county of Cumberland and requesting that said parish may be incorporated into a distinct town is now lying before the Court. We the subscribers inhabitants of said parish humbly beg leave to express our Sentiments to your honors that in the present situation of the town the prayer of said

Petition ought not to be granted — We believe that the parish would thereby at present be relieved & eased of several burthens occasioned by y<sup>e</sup> present war more especially the maintenance of the poor much the greatest proportion of whom live in the first parish, & many of whom are made so by the war: but as we ourselves are very ready & willing to bear our parts of these burthens, so we cannot but think it unreasonable for the second parish to desire at this time to through them off from themselves upon the other parts of the town & thereby increase their difficulties & distresses which in y<sup>e</sup> present circumstances of things are very great — But altho we allow that the second parish may reap a present advantage thereby which yet they ought not to desire, yet we cannot think it will hereafter, in a time of peace & tranquillity, be for their advantage.

*Answer Town of Falmouth to Pet<sup>n</sup> 2<sup>nd</sup> Parish.*

To the hon<sup>l</sup> the council & house of Representatives of the State of Massachusetts Bay in great & general court assembled

Sept. 1779

The town of Falmouth in the county of Cumberland, in answer to the petition of the second parish, in said town praying to be set off & incorporated into a distinct town or

district beg leave to say that they cannot at present consent but must object to the granting the prayer of that petition.

The town have many reasons to offer against it but at present, will trouble your honors with the mention of only a few.

- 1 In the first place the principal business of a public nature more especially relating to the war is & from its local situation, must be, transacted, principally, on the neck, or principal Seaport, in the first parish in the town, by the Selectmen, Committee of Safety & others; which considerably increases the public charges of the town; their proportion of which, as they arise in support of the common cause, the second parish ought chearfully to pay, but from which they would be wholly eased should they be incorporated, while the rest of the town would be further burthened.
- 2 There are near thirty families of continental Soldiers in this town entitled to a Supply at the prices regulated by the general Court, Three only of which live in the second parish, and altho these supplies will be finally paid for by the State, Yet the great difficulty of procuring many of the necessaries of life which such families must have, the advancing the money for purchasing the same & bying out of it for a considerable, time before it can be repaid, is found, in fact, to be a very considerable burthen to the town, from which the second parish will be in a great measure relieved by being now incorporated, while the rest of the town will be proportionally and unjustly burthened.
- 3 The town apprehend that the second parish has within its bounds its full proportions of good land, but not near its proportion of the numerous and expensive bridges liable to be made and repaired by the town: & therefore by being

incorporated it would ease itself of a very considerable burthen with regard to the making & repairing bridges, and throw the same upon the rest of the town, but  
4<sup>th</sup> and principally The late destruction of great part of the first parish, in the town by the enemy, well known to your honors, together with the almost total stagnation of trade and business occasioned by the war, in the principal Seaport of the town which is in the first parish, have greatly increased the number of the poor there, whom the town must support while the second parish has suffer'd comparatively little or nothing by the war, & yet as this calamity was occasioned by a Common Enemy and in Support of a Common cause, the second Parish ought chearfully to share in it, by bearing their proportion of the burthen of supporting the poor, especially those thus reduced to poverty, altho they do not live within their bounds; & the town cannot but esteem it unjust, as well as ungenerous, in them to attempt or desire to rid themselves of this burthen, and throw it on the rest of the town, already labouring under great & almost insupportable difficulties, as they would do should your honors grant their request. And the town is happy to find a considerable number of men of character & property in the second parish who coincide in Sentiment with the town, & I think that altho the second parish might receive a present unfair advantage by a separation, yet that it would not hereafter, when peace shall be restored, be to their benefit & therefore do not ask nor wish for it, but object against it—

The above facts the town apprehend they could fully & abundantly support by proper Evidence had they time & opportunity for it; but the short notice given them by the Petitioners (not sooner than the 27<sup>th</sup> of August last, tho the order of Court to notify passed in June last & they

had been possessed of it many weeks before:) the necessary & urgent business now lying before the Selectmen & committee of Safety in providing for the Militia ordered to be Stationed here and the general concern of all to provide for the common defence, now, when they have great reason to fear an invasion & further destruction from the Enemy, render it impossible for the town to procure and forward such evidence by the time they are required to make answer. The town must therefore submit it to your honors to pay such credit to their assertions, as your honors shall think they merit.—

Your honors will further permit the town to suggest their fears that should said parish be now incorporated into a town, difficulties & disputes would arise in settling and adjusting accounts & demands & the proportion of taxes between the parties, and uneasinesses & animosities be occasioned, & thereby the attention of the people diverted to objects of comparatively small importance, when union & harmony are so desirable and necessary & while their whole attention ought to be paid to such measures as are now more especially necessary for the Salvation of the town & country.

But not further to trouble your honors, the town would only add, that the only inconvenience complained of by their brethren of the Second parish (& which the town do not remember to have heard of before their present troubles) viz—their distance from the place where town meetings are usually held, is common to many other towns in the State, and in many greater (for many of the inhabitants of this parish, can & do most frequently & conveniently come by water) and, should it be deemed sufficient, would furnish a precedent for numerous applications of the like nature; but whether the division of old

towns & thereby multiplying their number in the State without much more weighty reasons is expedient or politick is humbly submitted to the wisdom of the legislature.

Signed in behalf and by order of the town by  
Nat. Green Moody T. Clerk

At a legal meeting of the Town of Falmouth in the county of Cumberland held by adjournment on the 8<sup>th</sup> September 1779

Voted that the foregoing answer to the petition of the second parish in said town praying to be incorporated into a separate town or district be accepted; and that the town Clerk sign the Same in behalf of the town and forward the same to the General Court as soon as may be.

*Remonstrance Town of Fryeburg.*

State of Massachusetts Bay

To the Honorable the Council and The Honourable House of Representatives in general Court Assembled  
The Remonstrance of the Inhabitants of the Town of Fryeburg humbly shews

That we Your Remonstrants, being so fully persuaded in our minds that the war in which the United American States are engaged is just, that we are not only willing but desirous of bearing such a part of the Expenses thereof, as from a due consideration of our Ability in this remote Place, it shall appear to be our just Proportion: — But to pay the Tax of five Thousand, nine Hundred & seventy five Pounds, fifteen shillings & nine Pence three Farthings, which we are now called

upon for, and in the Tax-Act is called our proportion of two Millions, eight Hundred & thirty seven Thousand, Six Hundred & thirteen Pounds, twelve Shillings & eight Pence two Farthings, is a much greater Sum than is in our power to pay; and with due Submission to your Honours, take leave to say, we humbly conceive that had there been a true Account & Valuation of our Interest in this obscure part of the State, been return'd to your Honours, it would have very evidently appear'd our Proportion of that Sum would not be so great:— Such a Return would have been made had we ever been called upon for it, (as we imagin all other Incorporated Towns in the State were) but as we were not, we thought we had Reason to conclude, your Honours had considered us (as we really are) in a State of Infancy, and at Such a great distance from the Place which the Return must have been made, that you compassionately spar'd us the expence of it, and concluded to lay Such a Sum upon us as in Your wisdom you Should judge such a Place could bear:. And we are confident you would have so done had not Reports (as we are Informed) made your Honours believe our ability to be much greater than in Fact it is, the truth whereof, we trust we shall hereby make appear and also that the People who Propagated those Reports, were great Strangers to the true State of our Interest & circumstances in Life:— And in order to Shew They must be so, Your said Remonstrants beg leave to Inform your Honours, that we being much Surpriz'd at the call for Such a heavy Tax caused a Town meeting to be called, and when met, we chose a Committee to take a true account of our Estates, which They have done, and we take leave to give your Honours a view thereof in the following manner —

1<sup>ly</sup> It having been reported (as we often hear) that there has been a great quantity of Bread-Corn-Sold out of

this place the present year, and consequently a great deal of money must be among us, we, by our Committee have Examined Strictly into the affair, and find that all that has been sold out of Conway, out of Brownfield, and all Places in the Pigwacket Country, is reported to be Sold out of Fryeburg:—what quantity it would all amount to we cannot tell, but with Regard to Fryeburg alone, we find by the strictest Examination which could be made by our said Committee, that there has been Sold out of it, of the last years growth of every sort of Bread-Corn we raise, no more than three hundred and Sixty Bushels as by said Committees Account herewith exhibited will appear, all of which was Barter'd for Salt, Cotton-wool, Shoe-Leather, Iron and such other Necessaries as we cannot live without, except fifty three & 1/2 — — Bushels were sold for money, and that money (which was but a small matter) was carried out of Town and laid out for the Same Sorts of Necessaries above enumerated, so that there is no Ballance left in our hands from the Sale of Bread-Corn to help pay the Tax.—

2<sup>ly</sup> Your Honours have exhibited herewith, another paper containing an exact account of all the Horses, Stock of Neat-Cattle, Sheep & Swine we Possess'd the first Day of February last, taken by the Selectmen of this Town in order to a just Proportion among us, of the State Tax then laying upon the Town, and it is near the Same now; for the destruction made by the wolves among our sheep, keeps back the Increase of Them, and but very few Calves raised among us the last Spring, so that there can be but very little odds in our Stock between that & this Time;—And as there is Sixty nine Families in the Town, and most of Their Houses Replenisht with Young Children, Your Honours will plainly See, that very little (compar'd with the Tax in Question) can be taken from our Stock to help pay it, without Stopping

our Plows, Starving & Freezing Those young Families;— and since the States are endeavouring to bring our Paper Currency into Repute, (in which it's to be hoped they will have Success) may we not Rationally Suspect that the whole of our Stock will fall Short of paying the Tax?—and if the whole Stock must be taken from us and more too, the Town will soon be blotted out of the Book of remembrance, for it will be rendered (to our sorrow) unable to do any further Service to the State.—

3<sup>ly</sup> Your Honours have one more Paper herewith exhibited, which contains a true account of all the Lands under Improvement in the whole Town which you will find is but 1168 acres;—and that Land, with the Smiles of Heaven on the Labour we bestow thereon, is all we have (at present) upon the face of the Earth to draw Subsistance from, for our Familiés & Stocks and to pay all sorts of Taxes:— For we cannot raise a Single Farthing out of our Wilderness—Land, we have no market for a stick of Fire-wood nor Timber, so that we can Reap no profit from that Land, till by hard Labour we can remove the heavy Spontaneous growth thereon, and then by further hard Labour bring it to some profit, but it's long before we can bring it to be so, compar'd with what might be made of the wood or Timber growing thereon, had we a market for the same, as those have for Theirs, who live nearer the Sea Coasts;—So that we are confin'd to the said 1168½ acres, to draw from thence Subsistance for our Families and money to pay every kind of Tax:—and to pay the aforesaid Tax of £5975 .. 15 .. 9 .. 3 brings it upon us to pay out of each of those Identical acres, the sum of £5 .. 2 .. 3 .. 3  $\frac{711}{1178}$  to raise that sum, besides Subsistance for our Families, and money to pay Town & County Charges; which is impossible to be done.—

Wherefore your said Remonstrants Pray your Hon<sup>rs</sup> would take the Premises under consideration, and bring said Tax down to such a sum as shall appear by the accounts of our Estates and circumstances herewith exhibited is our just Proportion of the State Tax above mentioned. And as in duty bound Prays—

That the said Nathan Goodale an Officer in Col<sup>o</sup> Putnam's

him; Major Mascran being gone on a journey to the South-

*Report of J. H. Allan.*

Machias Sept<sup>r</sup> 10<sup>th</sup> 1779

Sir

The Unhappy & Unparalleled Defeat at Penobscut has put this Department in a Most Critical & Dangerous situation Such as Requires the most Vigilant Attention for its preservation—

The Various Objects I am Compelled to Turn my Thoughts & time to, will prevent my being so Explicite in my Communicating Matters as I could Wish But Shall Endeavour to give as Satisfaction as in my power—

I inform'd the Hono<sup>ble</sup> Board sometime Ago by Letters from Passamaquody & this place of my proceedings, A Short time after the Britains Arrival at Penobscut—

After having settled matters in this place I went the second time for Pasamaquody where I found the Indians in a far Diffrient Temper then when I was there first, Occationed By New Inteligence of Encouragement from S<sup>t</sup> Johns, & partly owing to some Disputes Among some persons of their own Sect of Religion who Came with me, which I am much Disappointed in—

I was Ditermined still to pursue my first Object & to keep Continually with them, After a few day I gote Them

all Back to me & form'd them Ready to March—On the first of Aug<sup>t</sup> recievd an Express from Briged<sup>r</sup> Gene<sup>l</sup> Lovell, Desiring If not Inconsistant with my Command, to Go for Majabaguaduce—The Second day After I Gote the Last of my Indians, then present Embarked & arrived at Mechias myself the 5<sup>th</sup> After Arranging Matters & Settling the Necessary Measures for the Defence of this place—I Embarked on Board the Neshquowoit the 9<sup>th</sup> having 47 Warriors & 20 White persons Provision & Amunition for the Use of the Whole & Most of the Indian Supply which Came down taking also the prize Brig. under Convoy till she pass'd penobscut,

the wind being not fair did not Gete out of the River, on the 10<sup>th</sup> Received Another Express from Gen<sup>l</sup> Lovell, Desiring me to proceed with all Expedition & Bring as Many of the Militia as Cou'd be spared—Also to Bring the prize Brig to Majabagauduce, for fear of Being in Want of Provisions I Immediately Gave Orders for the purpose—The wind & Fogg Continuing prevented my proceeding, in the Evening Two Indians Arrived from Passamaquody with Inteligence that some Armd Vessells were there, and a Number of Troops—this seem'd to Corroborate with accounts I had before received that the Enemy Intended a faint or if possible a real Attack on Machias to Divirt Our attention towards Penobscut

I thought it not prudent to proceed till I heard further & accordingly Dispatched Two parties for Inteligence By Sea & thro The Woods the same Evening at the same time sent Express to Gen<sup>l</sup> Lovel, Next day the 11<sup>th</sup> returned myself, to Order such further Necessary Measures for a Defence—the 12<sup>th</sup> Receiv<sup>d</sup> accounts from Passamaquody, that there was nothing More then some Traiding Vessells under Convoy of the Buckram Schooner—

the same day Had a Conference with the Officers of Militia & others & gave my Advice that but one fifth of the Militia should Go from this Distric, as my Going with the Indians woud Leave the place Defenceless—in the Evening Col<sup>o</sup> Lowder arrived with another Express from Gen<sup>l</sup> Lovell, Deserving my Attendance at Head Quarters—

The Indians being in a fluctuating Moode Occationed by some difference Among themselves, I did not Get of till the 14<sup>th</sup> About 10 OClock, A. M. Having with me Including a few Militia about 100 Men—

the 15<sup>th</sup> the Wind Continueing a Head I sett of with the Indians in Canoes & the Whites in Boats Ordering the Vessells to push on as fast as posible & to Assemble at Aggamonogen reach—

the 16<sup>th</sup> the wind fair to the Eastward, Saw the Vessels Contrary to my Intention streaching Across However I pursued on with all Expedition & the Wind Breaking Occationed the Canoes to Seperate— On my Geting to Mount Desirt the Same Evening, receiv'd Intelligence of the Arrival of the British Ships & the Retreat of Our Army, & that an Express had Come to Give me notice—

I was in Much Trouble About the Vessells as also for some of the Indians who might Not have had the Inteligence, In Consiquence I Dispatched of Lieut DeLesdernier with three Good Indians by day Light of the 17<sup>th</sup> in Quest of the Vessells & Canoes & to Order the Former immediately into Frenchmans Bay, as the provision might be Transported by Land to penobscut if wanted the Latter to Continue at Naskeigh.

After I gote my Express from the Gen<sup>l</sup> & sent Major Stillman to receive the Melitia as they Came in, & Gave Orders how we were to joyn, as I was Still Ditermind if the Schooner was safe to Joyn Gene<sup>l</sup> Lovell, I proceeded for Nas-

kiegh, where I found several Indians, & had the Hapiness to hear of the Brig & Schooners Being Safe,

On the 18<sup>th</sup> from the Great Quantity of Smoke I Immagind the Enemy were Burning the Settlements further Westward, having but 1/3 of the Indians No provisions or Amunition—Equivalent to Go on—I returned Immediately to Frenchmans Bay & to my Great Disappointment, rec<sup>d</sup> word that the Schooner & Brig had proceed'd for Machias, the Capt<sup>n</sup> having not seen M<sup>r</sup> DeLesdernier, but rec<sup>d</sup> Certain Inteligence of a Number of Crusers out & that Gen<sup>l</sup> Lovell Orders were for me to Return Immediately—

This Intirely Overthrew my plan, & found myself with a Number of People, as About Seventy Militia had got together, & nothing to support them with, the Indians being Disappointed in not Geting what they wanted perticularly Rum, which they Allway Expect after a fatigue, became Outragous & By the Vessells returning so precipatatly, Suspected some Greivous Matter & all I could do would return Immediately to their famelys. In this time I Received the Horid & Malancholy news of the Destruction of such a fine Fleet & the Dispersion of Our Troops, Notwithstanding if I had, had Supplys shoud made a Diversion towards the Enemy to prevent or diter them in their Depradations—

But from the Many Circumstances Corrobrating, & the precarious situation of this place & the Difficult State of Individuals in General thro the Country I Dismis'd the Militia—Recommending to the Officers a Vigelent attention to have all in Readiness at a Minuts warning I took upon Me | as I found the Eyes of the Whole Country were upon me and depended, as Being in Commission the Care of the Whole | to Isue another proclamation Encouraging the Inhabitants to Stand out— and had Conferences with the Several Committes found they were Ditermind to Stand out

all to the Eastward of Union River, & have since Been Con-  
vinced By their Conduct, of their Integrity & Sincerity

I returned here with the Indians the 22<sup>nd</sup> where I found  
the Schooner & Brig Immediately Call'd a Court of In-  
quiry on the Conduct of the Captain of the Neshquowoit in  
Leaving me— Upon the Whole—it appeard he Acted from  
a principle of saving the Vessells & Securing the Cargo & if  
any failing an Error of Judgment—

By this Time I percieved the Situation of Affairs to be  
disparate & nothing but the Utmost Exertions & Useing every  
Forcable Method without Controle or fear of Censure would  
Answer to Save Us from Distruction—The Cargo of the  
Brig Gave me the Greatest Concern, as it was—of so much  
Value, & not knowing how approvd by Government I used  
every possible Caution About her till this time, for the Safety  
of the Country, or its ruin, Depended upon my Manage-  
ment with her, the Greatest fear of the people was how they  
Coud Subsist, to Defend, if attack'd, upon the whole, think-  
ing the States, by her Detention might be answerable if any  
Damage arise—I took upon me to Order three Quarters of  
What was Left to be Landed, all of which I—Except the  
Butter will be wanted if the Country is to be Defended—I  
Gave a Certificate accordingly to the Master, a Copy I here  
Inclose Leaving it to the Honorable Court to Order what  
further they please Concerning it—If I have done wrong  
I shall willingly Answer & Submit to any Ditermination, as  
I act from a Principle of doing Service to my Country—The  
Stores I Trust, will be safe & Unmolested till such time as  
further Order Are Given—respecting them,

The Dishonorable Flight | permit the Expression | without  
Censure from a feeling of mortification for the Disgrace  
Brought on the Arms of Our Country of the Americans on  
Penobscut River has Given a Wound to our Indian Affairs,

they were always Ambitious of their Consiquence & from the fear of people, were Sencible, that they were dreaded & fear'd But now it has rose to a Greater pitch By the affair of Penobscut as they Express it "the Safety of the Country Depends Upon them, for what assistance Can be Expected from Americans when so fine a fleet & Army were Distroyd without opposition," they Threaten, Menace and Enter Distant Houses, treating people ill—Some are Intimidated, thinking the Britons will Over run the Country, Skulk away to the Lakes & Others are for Geting to S<sup>t</sup> Johns making an appology it is to Defend their own River—I am Obliged to Lett them Go Often a Hunting for fresh provisions, as they Must be in Action or Drunk, there is now Most of them Abroad, and Expect of hearing of Many Going on S<sup>t</sup> Johns River, Notwithstanding I keep people perpetually watching their Motions & Encouraging them, they Are Also Much divided among themselves & abuse every Body behind their Backs who have had any connection with them—Their Demands are Insatiable & perpetual, being often obligd to Employ them in Expresses for want of others, must be paid to the Highest & Most Extravagant rate & not only must Clothe Men, But Women & Children—

But under all this I Flatter myself not only will fight against us, & by No Means seem to diminish their Atteachment to the Country or my self—I am Unhappy with some who I Employ'd the past Spring & the Devisions amoung them Salves is hartfull to the Interest of Our Court & that of Our Allies, Our Situation for want of Strength, & the fear of Creating a Tumult Among the Indians at this Critical Juncture Obliges me to Use every Act & Policy, to Keep ourselves in any Posture of Security—

I have rec'd Inteligence from Nova Scotia by two Authentick Officers that the Britains had seized Sixteen Mickmacks

& Kill'd three this with the repeated Correspondence Kept up from this way, will I trust Divert their attention so as to Deter them in the plan Intended by the Britains—

I have Taken upon myself to Order Provisions from the Stores for the Militia when Going on duty—as otherways they Could not have done without such assistance—

By this Oppertunity I send Cap<sup>t</sup> Preble to Frenchmans Bay & Mount Desert to watch the Motions of the Enemy & Endeavour to prevent the Britains Intercourse with their Friends at Union River, Whome I have Just now rec<sup>d</sup> Intelligence, Intends Joyning them—this is done at the Desire of the Committees that way—if necessary Shall have them Dis Armd & the principles Secured—I have Orderd Cap<sup>t</sup> Preble to raise Volunteers for the purpose, which the Inhabitants will forward

I have Disposited there some provisions, as also, at Naraquaque for public Use which much Encourages the people thro the Country I have But few Men with me at present. Expect some Volunteers to the Amount of Forty have Demanded a Number of Militia which are Backward in Coming, it being Harvest—all in the service, I keep at Work at a Small Fort I am building round a Block house for the Immediate Defence & Security of the Stores—till such time as it is finish'd I shall be very Unhappy & Uneasy, as I can Gete Strength Shall Secure every part as fast as I can—

I am very sorry the Resolves of Court Came here so Late Respects the Bounty, for Soldiers—as it is a time that none Can be got—I am sending out recruiting & propose Calculating the Thirty pounds bounty, so as to give agreeable to the Number of Mounths, as some Inclines Longer & Some Less time—

I Inclose returns of Provisions, Magazeen, Artiliary — and Ammunition, the Latter is very short we must have more if possible to Gete it along, The several Excursions this Season, & what is Left is Damaged — with the Greate Expenditure of the Indians, who must have it, Ocations this —

Notwithstanding the Order of Court Several persons in the Traiding way since the Enemy has Gote the Better, seem Dairing in their Traiding Eastward — Curruption has taken such deep root in those matters that one screens the other. However I have Intercepted some & have now Some Princeple persons in Custody, which Method I shall pursue till further orders —

The Hono<sup>ble</sup> Court may now know our Situation & what is to be Expected from it, I shall not repine or Complain as an Individual. they will be sencible what is right to be done. I have only to add, That my Weak Endeavors shall not be wanting to the Uttmost of my power —

I have the Honour to be with all possible respect Sir,

I, James Flinn (of Machias in the County of Lincoln & State of Massachusetts Bay) Testifie & Say, That some time in the Month of May A : D : 1777 John Long Arrived in this place and Landed a Quantity of Goods, Stored them in Cap-

tain Smiths store & soon apply'd to the Committee for a Pass to Carry said Goods to St John's River, the Committee soon Examin'd into the affair and finding by certain Letters said John Long had with him from one John Anderson to one Martin at St John's River, that the said Goods were Design'd for the Indian Trade & upon a very Enemical plan to the welfare of the States, it was thought Proper by the Committee of Machias (myself being one of the members thereof), to order that the said Goods be Detain'd in said Store for the present, and be not Ship'd for St Johns as afore-said; for at that time the Enemy had taken Possession of the River St Johns, and this Committee was Determin'd to use their Endeavours to stop all Communication and Correspondence with that Quarter; and Demanded of the said John Long the Orriginal Invoice of the said Goods, and the Keys of the Trunks &c, upon which the said John Long Deliver'd the Invoice and Shipping Paper, but did not Deliver the Keys for some time after, went to said Goods as, & when he pleased, saying he had a property of his own amongst them, soon after the said Long Deliver'd the Keys.—Col<sup>o</sup> John Allan the Super Intendent of Indian Affairs being then at Machias & useing every Art & Means to Court the Friendship of the Indians and Advised the Committee that the Permitting the said Andersons Goods to proceed to St Johns would be very Detrimental as he was then about setting out to Treat with the Indians on St John's River & accordingly it was agreed on that they should not go, & it was further agreed on, that there should be a Just Acc<sup>t</sup> taken of the said Goods, & M<sup>r</sup> Lewis F: D<sup>e</sup>Lesdernier, Col<sup>o</sup> Allan's Clark & M<sup>r</sup> Tupper the Clerk of the Truck House together with my self were appointed to overhawl the said Goods & take the Acc<sup>t</sup> of what there would be Difficient according to the Orriginal Invoice of M<sup>r</sup> Anderson About one Hundred & Twenty five Bushels

of Salt the said Long Declared to be his own Property & Kept himself, also the Molasses, the Indigo, a Quantity of Shoes &c &c; According to an Acc<sup>t</sup> hereunto Annexed all of which the said Long Claim'd as his own property and had to his own use, Likewise by overhawling we found Two Tierces of Rice much Dammag'd, being wett as we Supposed on Board said Long's Vessel, and the one half of each Cask of Rice was wholly spoiled as will appear by an acc<sup>t</sup> of the same that then was taken,—

It was Recommended by the said Committee the said Goods be Stored in the Truck House &c. Soon after this place was Blocked up by the Enemy the Indians was Daily coming in from St Johns for Supplys Agreeable to Certain promises that had been made them, the Truck House being very Bare of Cloathing it was recommended that the said Goods be taken for the use of the Indians, to be Disposed of agreeable to Col<sup>o</sup> Allans orders, also that the Hon<sup>ble</sup> Council Board be Notified of the matter that the State may have an Opertunity of agreeing with Mr Anderson about the same— & further sayth not also Wm Tupper agrees to the same Virbatum—

Brothers

We rejoice at the Great Spirit w<sup>ch</sup> has bro't us together at this place—We now come together to confer & hope we shall understand at each others say—Brothers, You see my Situation as to Cloath<sup>s</sup> I am destitute of Cloaths—I hope you will give me something by w<sup>ch</sup> I may appear more decent When I meet you again—

Brothers—It is now 4 years since We have been in America as Bretheren—The King of France is our father—We have the same Affection for the Americans which We have for him—Gen<sup>l</sup> Washington when I was in New York w<sup>th</sup> him said you shall be supported—Gen<sup>l</sup> Gates & the Marquis de la Fayette sent for us to come to Albany in February 1778 told us we must go there let it cost w<sup>t</sup> it might—When we came to Albany, there was no body to speak to us there but Gen Schuyler—20 of us went to Albany & while we were there they hung a number of Americans—We told them not to hang Americans for it was like hanging one of them—Last Fall just before the Winter Col<sup>o</sup> Allan ordered 18 of us to Nova Scotia—You must consider that our Hearts are united with yours or we shou'd not go wherever We are ordered & do as much as we have done—You know w<sup>t</sup> the situation of our Families is We hope you will grant us some Assistance for them—We hope you will consider w<sup>t</sup> we said above about Cloathing for ourselves—We hope you will give a Commission to French Mission that it may be known that he is a Friend & belongs to America—If we have Commissions We expect to draw pay as others who are in Service—We not only want Cloath<sup>s</sup> for ourselves & Families but we want provision & Ammunition for which We will pay our Money—It is now 2 years since We have had any Supplies from this State—We have been obliged to

buy what we wanted at the dearest rate of private persons yet We have saved a little Money—We are glad to see you all Well—We are glad that God Almighty has preserved you—We give you thanks for this Conference—

*Answer.*

Brothers—We rejoice that an opportunity is given us of seeing two of our Brothers of the Penobscot Tribe with such Friendly disposition & giving such assurance of the Continuance of that Friendship to us & our good Friends & Allies the French & the Great King of France—We are very sorry that you have suffered many wants & been subject to inconvenience & dangers to yourselves & Families—You will Consider that We are only a few of a Great Body the Gen<sup>l</sup> Court, appointed to hear you & report to them what you shall say. We have heard you with pleasure & we shall report your Talk to the General Assembly & don't doubt they will give you Satisfactory Evidence of their regard & Friendship. We wish you & your Families the Blessings of the Great Spirit—

The Committee of both Houses appointed to confer with two Indians of the Penobscot Tribe, have attended that service, and beg leave to Report the following Talk, for the consideration of the whole Court.

As I am happy in being known to your Honor, I beg leave to recommend to your early attention and patronage the inclosed petition, which I hope will meet your approbation. The Detachments from the several Regiments in B. Cushing's Brigade I believe are nearly compleated, and imagine the Men will be soon ready to march to their respective Destinations. Brigad<sup>r</sup> Cushing has thought proper to order 60 men to occupy Cox's heights near the entrance of this River, where he intends planting some pieces of Cannon; upon a critical examination of this Eminence it appears to be a very commanding situation & extremely defencible; our works here, which are partly finished will consist of one small Battery on the southern side of the hill, about 15 feet above the surface of the Water one ditto on the Eastern side much more elevated, and a small Fort on the summit of the rock to be composed of timber & earth; 30 Men are to form a guard at Townsend, and the remainder of the detachment to be posted at Cambden, from whence it is proposed to har-

rass the Enemy by frequent excursions up the Bay & prevent as much as possible the depredations of their scouting parties, for this purpose I beg leave to suggest to your Honor that in my Opinion it will be necessary to have a number of Whale Boats properly equipped, which will very much facilitate our approaches towards the Enemy, & as their motions are much more rapid than any Barge, they will secure us an easy retreat in case of a pursuit, and should it be necessary to reinforce any distant Post the Boats will form a quick & easy conveyance for the Troops, and prevent the delay & fatigue inseperable from a long and tedious March thro' the woods. As this service from the nature of the Country must necessarily be attended with great fatigue I apprehend it would have a happy influence on the conduct of the Detachment & materially promote the end of their appointment should they be allowed a moderate quantity of Rum, with out which no Exertions will be found sufficient to keep the men up to a chearful & spirited performance of their Duty.

Accounts from Penobscot agree that certain Persons commissioned to act as Officers under the celebrated Major Rogers, (some of whom are inhabitants of that place) are using every artifice to induce the people thereabouts to inlist into the King's service with a view to establish a Body of Rangers, in which they have met with some success.

We have been for some days past under very painful apprehensions about the Fate of our Ordnance &c from which however we are much relieved by intelligence just received that it has got safe into Falm<sup>e</sup> under Convoy, from whence we expect it every hour.

A Report at this moment prevails here that the Enemy are plundering Belfast and Cambden & that General Wads-

worth, finding himself unable to oppose their ravages has written to Gen<sup>l</sup> Lovell for a Reinforcement.

I have the Honor to be,

with great Respect Sir,

*Committee of Safety to Council.*

Falmouth Sept<sup>r</sup> 13, 1779

To the

Hon<sup>ble</sup> Council of State Massachusetts Bay.

The Select Men & Committee of Safety at Falmouth beg leave to inform the Hon<sup>l</sup> Board of the rec<sup>t</sup> of their Letter of y<sup>e</sup> 3 Ins<sup>t</sup>—the inclos<sup>d</sup> directed to Brigadier Thompson was immediately forwarded, it is now seven days since, but we have not heard of his taking any measures towards raising the three hund<sup>d</sup> Men to be Station<sup>d</sup> at Falmouth.—

The Letter from the Hon<sup>l</sup> Council to Colo<sup>l</sup> Jackson, in his absence we took the Liberty to open, in answer to which we would inform your Honors that the Reg<sup>t</sup> under the command of Colo<sup>l</sup> Mitchel, which retreated from Penobscott, was Order<sup>d</sup> by Gen<sup>l</sup> Lovell to Falmouth, to Guard from this place to Harpswell & to be under the direction of the Committee of Safety at Falmouth. As a great part of those men were destitute of Arms & Accoutrements, the Committee thought proper to discharge five of the Companies, except 20 of the Company Commanded by Cap<sup>t</sup> Curtis of Harpswell, who are to keep Guard at that Post; the remaining three Companies which were best Arm<sup>d</sup> & Accoutred are now Station<sup>d</sup> at this Place & Cape Elizabeth.

We esteem it a Duty incumbent on us, to inform your Honors that the Melitia in this County are, at present, in a Situation incapable of Defending in Case of an Attack, principally owing to the Ignorance & Neglect of some of the principal Officers in the Brigade.—A Convention of this County is to be held next Fryday when a proper representation of the State of the Melitia will be made to the Hon<sup>l</sup> Court.——

We are with sentiments of Respect

About the middle of March last Anderson Commenced an Action against Col<sup>o</sup> Allan for the said goods, on which he petitioned the Hon<sup>ble</sup> Court, on the Matter, but never received any answer, on the 13<sup>th</sup> Inst the Tryal Come on at the Inferior Court at Salem, when they Brought in that Col<sup>o</sup> Allan should pay said Anderson three Thousand pounds for the Goods & Costs of Court, from which Judgment Col<sup>o</sup> Allan has appealed to the Superior Court in November Next —

*Report of Committee of Safety to the General Court.*

Falmouth 17<sup>th</sup> Septem<sup>r</sup> 1779

To the Honourable The Gen<sup>l</sup> Court of y<sup>e</sup> State of Massachusetts Bay

The Committee of Safety &c for the County of Cumberland alarmed at the State of the Melitia in this County, This

Day assembled at Falmouth in Convention.—they took into Consideration the condition of the Melitia, & found it as disagreeable as their greatest fears had suggested! & agreeable to a resolve of the Gen<sup>l</sup> Court passed the 13<sup>th</sup> of Feby 1776 they think themselves bound in Duty to make the following representation to the Honourable Court.

The Convention find the Melitia not Officer'd in all respects as the times require. The Men are undisciplined; unarm'd; unaccounted. Your Honors will give us leave to observe as our Opinion, that were our Melitia differently Officer'd, we should then be capable of rendering other service to the Publick than largely furnishing a number of unarm'd Men, which is in a manner all that we can now do. Indeed we are at present in as defenceless a State, as can easily be conceiv'd of, by reason of a number of Persons now in Commission—The local Situation of the Brigadier, down at Brunswick, is exceedingly inconvenient & his accomplishments & capacity are such, as to forbid his Brigade's being in that condition, which the times require. The Person, who commands the first Regiment in the County, viz, Peter Noyes Esq<sup>r</sup> we think altogether unequal to the Command he holds. He is entirely ignorant of his Duty, or altogether inattentive to it: for he does no part of it. he has been urged to see his Reg<sup>t</sup> put into some posture of defence not only by the Committee of Safety for the Town of Falm<sup>o</sup> in particular; but also by a Condition of the County in general; yet he has taken no steps toward it. Their present State is such that they are little more than unarm'd Men. The first Major in s<sup>d</sup> Reg<sup>t</sup> viz, James Merrill, we think to be unequal to the Command he holds. It is needless for us to assign to your Honors all the defects in the several Officers whose removal we think the Publick safety requires; & it would also take up too much of your Honors time to receive the Account.

We shall therefore only point out the Persons, we are clearly of Opinion, might be exchanged to the advantage of the Public.— We think the second Reg<sup>t</sup> in this County can never be in a posture of Defence so long as Commanded by Jonathan Mitchel Esq<sup>r</sup> Majors Gerrish, & Larrabee we think cannot command without injury to the Publick. We think none of the field Officers of the third Reg<sup>t</sup> capable of rendering service to the Publick in their present Command.— The fourth Reg<sup>t</sup> we think has a valuable Man for a Lieut Colo<sup>l</sup> the two Majors also we know of no cause for their removal, but we think it necessary that another Person than Colo<sup>l</sup> Pike should command the Reg<sup>t</sup>—

Your Honors will excuse us in giving the above information, which we think ourselves in Duty bound to do. Should we now be asked “have you men more suitable to Command in their stead?” we should answer without hesitation, we have: And might we be permitted we would nominate; (Major Daniel Ilsley of Falmouth as a suitable Person to command the Brigade. Mr. Stephen Hall of Falm<sup>o</sup> to command the first Cap<sup>t</sup> William Cobb of Falm<sup>o</sup> to be second Major.— John Lewis Esq<sup>r</sup> of North Yarmouth to command the second Reg<sup>t</sup>, Mess<sup>rs</sup> Ozias Blanchard of N Yarmouth & William Stanwood of Brunswick for Majors.— M<sup>r</sup> Daniel Moulton of Scarborough to command the third Reg<sup>t</sup> Cap<sup>t</sup> Alex. McLellan of Gorham to be Lieutt Colo<sup>l</sup> & Mess<sup>rs</sup> Benjamin Larrabee of Scarborough & John Deane of Pearson Town to be Majors.— Lieutt Colo<sup>l</sup> Merrill of New Gloucester to command the fourth Reg<sup>t</sup> Cap<sup>t</sup> Richard Mayberry of Windham to be Lieut<sup>tt</sup> Colo<sup>l</sup>) —

The peculiar & critical situation of this part of the Country, & the continual expectation we have of an Invasion. We hope will apologize for the trouble We have given your Honors.—

We are with the greatest deference & Respect

Your Honors most Obedient & most humble Servants

The Convention of Committees for the County of Cumberland.

The Examination of John Larrance and four Negroes deserters from the Fleet in the Vineyard Sound taken at Falmouth the 18<sup>th</sup> Day of Sept<sup>r</sup> – 1779 by the Committee of s<sup>d</sup> Town—

The Fleet consists of Ten sail of Vessels in all and 259 Men design<sup>d</sup> to y<sup>e</sup> Vineyard for wood, with written orders to distress the inhabitants on s<sup>d</sup> main by burning or making depredations in any other way they see fit.—That part of s<sup>d</sup> Fleet are Bound to Rhodeisland with wood—the ship with some of the armed Vessels to continue in the Sound or near it untill they return, when 20 Sail more may be expected—that it is probable they will made depredations at Falmouth if they think their strength sufficient to do it.

The account of each Vessel they give as follows viz:—

Ship Restoration	20 guns	120 men	
Sloop Preston	12	25	
D° Garth	8	12	from which they deserted
D° Greens	10	12

That there are thirty Volunteers in a fleet not in the above acco<sup>t</sup> which is near the truth—the Vessels which are expected are Wood Vessels—the deserters say they do not expect any more armed Vessels.—

Men belonging to the Fleet — 229

Volunteers — 30 259 Total

The white man (Larrance) from whom we have the account principally belong to Norwalk and taken as he saith at Horse-neck last march and entered on board y<sup>r</sup> Garth Sloop about six weeks since as gunner, and now deserted the first opportunity—The Negroes belonged to Col. Greens Regt. and was taken from the Narragansett Shore about four months past as they say.

They had agreed before hand to make this charge & provided accordingly—at Night agreed with the Guard for them to do their Duty and they would go ashore on y<sup>r</sup> Vineyard & Steel some Sheep and they would all Share in the

Plunder—and so came off to Falmouth—bringing with them in the pinnace they came off in 5 or 6 King's Arms—3 p<sup>rs</sup> Pistols—Several pair of Silver Buckles and sundry other Articles.

They said a Boat with two men came along side s<sup>d</sup> Garth The Night before they came away and after hailing the Boat Roemen told them they wanted to speak with the Cap<sup>t</sup> of s<sup>d</sup> Garth—they came aboard went into y<sup>e</sup> Cabin & Convoy—with s<sup>d</sup> Captain—pretended they came from Dartmouth—said they were upon a private expedition—afterwards went aboard the ship & every Vessel in the Fleet.—Said that Boats came down Sound frequently & came aboard of them.

That Some of their Fleet were gone to Nantucket they did not know for what. One of s<sup>d</sup> Black Fellows said when they came into s<sup>d</sup> Sound they took a spin along Falmouth shore with a design to see whether it w<sup>d</sup> be safe to Land. heard them say they would take an opportunity to destroy Falmouth.—

*The Court Martial in re Capt. Saltonstall.*

To the Hon'ble the Supream Legislative Body of the States  
of Massachusetts in General Assembly Convened.—

The representation of this President and Members of a  
Court Martial for the trial of Dudley Saltonstall Esq<sup>r</sup> Cap-  
tain in the American Navy, begs leave to shew

That whereas the Honble the Commissioners of the Navy  
Board Eastern Department by their warrant bearing date  
the 7<sup>t</sup> of this instant September did Constitute a Court  
Martial for the trial of Dudley Saltonstall Esq<sup>r</sup> which Court  
was to be held on board the Deane Frigate Tuesday the 14<sup>th</sup>  
instant; In Consequence of which a Number of Citations  
were Issued for evidence to appear as well in behalf of Dud-  
ly Saltonstall Esq<sup>r</sup> as on the part of the United States; which  
Evidences duly summoned gave their attendance according-  
ly—expecting that the Trial would have gone through regu-  
lar process—but the Court having recieved a requisition  
from the Navy Board, together with a resolve of this Honble  
Court requesting an adjournment to the 28 inst and taken  
the same into their Consideration thought proper to adjourn  
accordingly—

Upon which Adjournment to the 28<sup>th</sup> instant. Capt Saltonstall has made representation, that by this means he should be deprived of all evidence in support of himself, unless that some method could be pointed out to Order the further attendance of the Evidences already summoned which he conceived could not take place without an application to this Honble Court whose extensive jurisdiction might retain them in port. the greater part of them being ready for the Seas and resolved to embrace the first wind—Wherefore this Court Martial willing to shew every indulgence to Captain Saltonstall, and wishing the whole of their proceedings might evince a spirit of impartiality, beg leave to solicit the interference of this Honble Court & earnestly to request that some means may be made use of to retain those evidences within the limits of the Court. not in the least doubting but that Love of Justice & attention to Candour which has Always been Characteristick of your proceedings will strongly plead to grant this indulgence—and that no difficulty may Arise the Names of the Captains are herewith rendered in—

To the Honourable the  
Council and the Honourable  
the house of Representatives in  
General Court Assembled.

The Petition of Josiah Noyes of Falmouth in the County of Cumberland & State aforesaid, Gent<sup>n</sup> — That your Petitioner was Collector for the Province Taxes in said Falmouth for the year 1765 and that William Tyng late of said Falmouth, now an absentee with the Enemy at New York, was then Sheriff of said County: That your Petitioner, by Reason of many Obstructions and Difficulties, did not compleat his Collection, till the said Tyng receiv'd a Warrant from the then Treasurer for the money whose Severity on your Petitioner was very great & threatned to commit Your Petitioner: unless Your Petitioner wou'd give him an absolute Deed of Eighty acres of Land, refusing other Security, but promised to reconvey the said Land to your Petitioner upon his Paying the said Money, which your Petitioner has (since the Departure of said Tyng) paid the Treasurer Gardner in full for said Taxes: — The Deed of said Eighty Acres of Land given by your Petitioner to said Tyng, and said Tyng's memorandum in his own hand writing, respecting his reconveying the same, together with the Treasurer's Receipt for the money, are ready to be produced. — Wherefore, as the said Tyng is a declared Enemy to the Country & an absentee as aforesaid, your Petitioner humbly prays that this Honourable Court wou'd please to take the Premises into Consideration & pass an Act or Resolve that the Deed aforesaid shall forever hereafter be null & void & that your

Petitioner may Improve & Dispose of the Same, as his own proper Estate in Fee as if the said Deed had never been given, or otherwise relieve Your Petitioner, as your Honours may think proper, and your Petitioner as in Duty bound Shall ever pray &c.

Sir

The Failure of the Expedition planned by this State to dislodge the Enemy from Penobscot, hath involved this Government in extreme Difficulty, We not only have lost three State Vessels of Force, but have insured all the others, excepting the Continental, that were employed on that unfortunate Service. The Calls upon Us to make good our Contracts with the Owners of the private ships are pressing, & must be fulfilled or the public Faith and Credit be irreparably injured: In addition to which, the frequent Drafts from our Militia for the Purpose of Defending this & the Neighbouring states, of Guarding Continental Stores and Prisoners of war brought into this Government from time to time in great Numbers which are not made without great Expence, keeps our Treasury exhausted; And although we have taxed to the amount of 2 millions above the Sum ordered by Congress to be raised, we still find the Sums Government has raised inadequate to the continual & urgent Requisitions on the Treasury: But, great as these Difficulties are, our principal one we have yet to mention: The Expiration of the Time of Inlistment of the Soldiers who form this State's Quota of the Continental Army, being nearly arrived, We are

sensible that to reingage our Troops will require the most strenuous Efforts, & that very large Sums of Money must be employed to effect this great Purpose: We have therefore to request of Congress to pass such an Order as shall enable this State to retain the six Millions of Dollars which were ordered to be raised in this State as a Continental Tax, untill such Time as the Expenditures of the Penobscot Armament shall be liquidated, & Congress shall order a Reimbursement of that Expence to be made this State. Painfull as it is, we are constrained to say, that unless Congress should assent to this Proposal it will be utterly impossible for this State to furnish their Quota of the confederated Army for next Campaign.

In addition to the above request we beg liberty to observe that your Honours have seen fit to require of us the present year the sum of nine hundred & eighty pounds—we readily acknowledge our readiness to pay the aforesaid sum, as far as we are able but our distance from the sea, our settlements new, & our soil but poor, at y<sup>e</sup> least one half pitch-pine plain, & we scattered in the woods with not so much as one road cleared through the Town, we hope will induce the honourable Court in their great Clemency, to alleviate the sum, the principle part of which, if insisted upon, must be paid, by a very small number, & by the foregoing petition Your honour will perceive at present we have neither Selectmen nor Assessors, neither is it in our power to raise the whole or any part of the aforesaid sum without the assistance of y<sup>e</sup> honourable Court—and our request is that this may be taken into Consideration with the foregoing Petition

*To the General Court.*

State of Massachusetts Bay

Council Chamber Sept 1779

Gentlemen of the House of Representatives

When the General Assembly had determined upon sending a Naval & Land Force to Penopscot with a view of Captivating or Dislodging the Enemy there, The Council immediately adopted such Measures and Issued such orders as

they Judged necessary for carrying into Execution such Resolutions as had been passed relating to this Matter. The orders Instructions & other Papers relative to this Expedition. The Secretary will be directed to lay before you —

It would have given us great Pleasure to have Mett you at this time with Congratulations upon the success of this Enterprize, but we are under the disagreeable necessity of acquainting you that it has proved abortive; This Failure has Occasioned Universal Uneasiness. and the Public in general will Expect that a Thorough Enquiry will be made into the Causes of it —

By General Lovell's Letters of the 28<sup>th</sup> & 29<sup>th</sup> of August last you will be Informed of the General State of Affairs at the Eastward, and of the Engagement he has made with the Indians there for the Establishment of a Truck House on Kennebeck River a measure which they Insisted upon as absolutely necessary for their subsistance

We therefore recommend it to you to take effectual measures that an immediate Enquiry be made into the Conduct as well of those who have been ordered to furnish men for this Expedition as of the officers engaged in the Service

We also earnestly recommend that speedy and Effectual Provision be made for the payment of those Persons who have cheerfully engaged their Vessells in this Service or have furnished the Government with such supplies of Provisions and other articles as were necessary for carrying on this Expedition, as many of them have advanced to Government, upon this Important occasion the most of their stock in Trade, it will go near to work their ruin if they are not reimbursed immediately, moreover the Public Credit will be greatly affected and Public Spirited Exertions in future It is to be feared will be greatly discouraged, if there should be any Delay in this Matter; We have directed the Board of

War to furnish you with an Estimate of what may be due to the several creditors of Government upon this Account—

General Lovell by his Letter to the Council of the 30 of July last having signified the necessity of his being supplied with some Regular Troops, no Time was lost in applying to Gen'l Gates for a Detachment of Men from the Continental Army for this purpose & ordered Col Jackson's Regiment consisting of four hundred men to march to Gen'l Lovell's assistance, Transports being prepared for them, they soon sailed from Boston to Townsend, but on their Passage meeting with Intelligence that our Army had been obliged to retreat from Penobscot, they put into Portsmouth from whence we ordered them to Falmouth & as Col<sup>e</sup> Jackson by his letter dated at the last mentioned Place of the 28 of August has Informed us that it was probable the Enemy intended to pay that Town a visit we approved of his making a stand there untill further orders; Since which General Gates, apprehending the Army immediately under his Command, might soon be attacked has thought fit to recall Col Jackson's regiment; to supply their Places we have judged it necessary to order the Brigadier of the County of Cumberland to detach from his Brigade Three hundred Men officers included & cause them to March to Falmouth & Cape Elizabeth & follow such orders as they may receive from the Selectmen & Committee of Correspondence, to Continue in the Service for the term of two months if not sooner discharged & to be upon such Establishment as the General Court shall order, This we Judge absolutely necessary for the defence of that Part of y<sup>e</sup> Eastern Country at such a Critical time.

Governor Trumbull having by his Letter of the 31<sup>st</sup> of August expressed his apprehensions of an immediate Invasion of the State of Connecticut & desired our Aid & assistance in case of such an Event, we immediately ordered

the Brigadiers of the Counties of Hampshire & Berkshire to detach one Third of their Militia and hold them in Readiness to March to the Defence of Connecticut whenever Gov<sup>r</sup> Trumbull should signify to them that that State was Invaded, He also requested that we would Call upon the County of Worcester & that she would supply the places of one sixth part of y<sup>e</sup> Militia from the Counties of Hampshire & Berkshire, which we had sent to the assistance of that State on Occasion of their being Invaded by y<sup>e</sup> Enemy from New York in July last, but as the General Assembly were near sitting, we thought it Proper to refer these several matters to you accordingly now recommend them to your immediate attention.

We have also received a Letter from the Hon<sup>ble</sup> Jabez Bowen Esq<sup>r</sup> Leiu<sup>t</sup> Governor of Rhode Island dated y<sup>e</sup> 4<sup>th</sup> of July last & also Three Letters from General Gates dated the 4. 12 & 28 of July last requesting that effectual Measures may be taken to forward the Troops this State have Engaged to supply for the Defence of Rhode Island — You will find by these several Letters that Col<sup>o</sup> Tylers Regiment does not amount to more than Three hundred and twenty nine officers Included, and it appears by a Letter from Col<sup>o</sup> Jacobs to Gen<sup>l</sup> Gates that he has Enlisted into his Regiment short of one hundred men & that it is not in his power to raise a Regiment on the terms fixed by this State & desires he may be discharged from the service unless some further Encouragement can be given This is a matter that requires your immediate attention & we doubt not you will adopt some effectual measures to Compleat the Complement of men to be Employed for the defence of that State —

During the Recess we have likewise receive two Letters from the President of the Congress dated in July & August last the former covering two Resolutions of that Honourable

Body Informing that our Enemies have exerted themselves to send a very considerable reinforcement to their Army now in America and that Seven Thousand men were destined for New York from Europe & Three Thousand from the West Indies & Earnestly calling upon us to Prepare for the Most immediate & vigorous operations,

By Governor Trumbull's Letter of the 31 of August & the Inclosures we have Intelligence that Admiral Arbuthnot is Arrived at New York with a large Fleet & Seven Thousand Men — We earnestly recommend the subject Matter of these Letters to your immediate Consideration. The Enemy with this reinforcement we may rest assured will not remain Idle, They will be speedy & vigorous in their operations & there is the greatest reason to expect that this State & it's Capital in particular will be the object of their Revenge, The Port of Boston is justly Considered as a Port of great Importance to the United States as well as to their Allies, our Enemies doubtless view it in that light & we may depend upon their utmost exertions to destroy it & render it as useless to both as possible. Upon this & other Important Considerations no time should be lost to procure men to supply the places of those new Commission Officers & Privates in our quarter of y<sup>e</sup> Earth the Army whose time of Service will Expire the first of January next. The Militia thro' the State should be in readiness to march at the shortest warning, our Fortresses should immediately be Garrison'd with a sufficient number of men & put in the best posture of Defence and Measures should be taken without the least Delay to have proper Magazeens of Provisions & Ammunition Formed, that we may be in a Situation to give the Enemy a Warm Reception & Repulse if they should make the Attempt.—The Papers & Letters the Secretary will be directed to lay before you

We shall Cheerfully Concur with you, Gentlemen, in these and all other Measures that May tend to promote the Security & Welfare of this & the other United States of America —

Upon our engaging to supply their places with Militia, which has been done by repeated Drafts, the General readily complied with this Requisition?

Insert A & also to order the Brigadier of y<sup>e</sup> County of Lincoln to detach from his Brigade three hundred men in consequence of an Application from Brigadier Gen'l Wadsworth to be Stationed in such places as y<sup>e</sup> Brigadier of y<sup>e</sup> County of Lincoln should direct, for the defence of that part of the State & doubt not they will meet with your approbation & that you will make such Establishments for the Several Detachments we have ordered to be made from the Militia during the recess of the Court as you may think adequate to their Services

*Petition of Paul Reed.*

To the Honorable the Council & Honorable the House of Representatives of the State of Massachusetts Bay

The Memorial of Paul Reed of Boothbay in the County of Lincoln Humbly Sheweth

That on the eighth day of September instant a sloop commanded by Cap<sup>t</sup> Sampson lately employed as a transport in the Penobscut expedition, & said to be still in the service of the State, sailed from Townsend bound for Boston:

That some hours afterwards she was seen from the shore, chased by one of the Enemy's cruizers, until she made a

harbour in a small cove on cape na waggan where she was run aground, deserted by the crew, & taken off by the enemy.

That your Memorialist, perceiving that the party of the Penobscut troops stationed at Townsend, & which had been out in boats in order to relieve her, had given over the pursuit & returned, applied to the officer of the day for one boat & a party to dog the vessels until they should leave the land; but failing of obtaining his request, he, with three others, took a boat of his own & proceeded after them as far as the mouth of Kennebec river, where the enemy immediately set fire to the said sloop, & staid by her till the flames had prevailed so far that it was impossible to board her.

That as soon as the enemy had quitted her, your Memorialist took her in tow & got her to the shore; but it being low water the utmost endeavours of your Mem<sup>list</sup> with ten men whom he hired for his assistance could not drag her far enough out of the tides way till her mast, bowsplit &c fell in, & all the iron in & about her stern fell off & was lost;

That your Mem<sup>list</sup>, with a number of men, continued their exertions for three days to save all they could, and so far succeeded as to bring off a quantity of rigging burnt off to the middle, and a few hundreds weight of iron; all which your Mem<sup>list</sup> has stored in safe custody=

That as considerable expence has accrued to your Mem<sup>list</sup> in this business, and he stands in need of the money, he would have proceeded to make sale of the effects to defrey the same but when he considered the said sloop as the property of the State, he thought it his duty to leave it untouched until first he had laid the whole matter before your Hon<sup>ble</sup> Court

Your Memorialist therefore prays your honors to take the matter into consideration and give directions respecting the disposal of the articles above mentioned, & the defreying

the expences of your Mem<sup>list</sup> about them as to your Honors  
in your wisdom shall appear meet and Mem<sup>list</sup> as in  
duty bound Shall ever pray

*Allan to Pownal.*Mechias, Sept<sup>r</sup> 24<sup>th</sup> 1779

Sir I had the Honour of Writing you the 10<sup>th</sup> Instant by Cap<sup>n</sup> John Somes of Cape Ann Inclosing a Number of Papers —

I inform'd the Hono<sup>ble</sup> Board, at the same time of my Demanding of the Commanding Officer of Militia, thirty Seven of the Train Bands for Garrison Duty, Intending to Errect a Small Fortification, Round the Block House, for the protection of the Public Property, & Security of this post & of the District, Having Rec<sup>d</sup> Inteligence that the Enemy Intended Surprizing the Settlements on this River by Scouting Partys —

I cannot but in Justice to Col<sup>o</sup> Foster, Acquaint the Hono<sup>ble</sup> Board, That he Exerted himself as a Good Soldier & as a person Actuated from a Real Principle of Defending the Libertys of his Country — But the Unhappy Feuds & Broils so predominant in these Eastern parts — & the Spirit of Envey & Malice so prevalent — that He has not had it in his power to Accomplish the request —

From what Certain principle or Motive, Occation'd an Opposition to this Affair, I Cannot, nor woud it be prudent for me to Give my Oppinion to Assertain, But a Difficulty arrises that I was an Utter Stranger to, Some persons of public Charrector Asserted that there was No Authority for Calling in the Militia for Such Business. & Propagated it was an Infringment Upon the peoples rights this took Effect & the Greatest part Orderd, woud not Give their Attendance & most of them that did thought themselves Under No Command & woud Come & Go as they pleased, Tho at the Same time Received provisions from the Stores —

I saw a Storm arising & that Division & Confusion Among the people would be the Consequence—Being by the Success of the Enemy at Penobscut Lost of from the other parts of the State Surrounded by Foreign Enemys Outward & Internal ones within, not Strength Sufficient for Common duty. No Chance to Gete Immediate Inteligence westward, & spies from the Enemy Continually thro the Country, Made it Necessary to Conduct Affairs with more Delicasy and Prudence than was Consistant with my Abilitys, as the people in Generall View'd themselves in a Desperate Situation, By the Late Expedition & the necessity of Attending to their Domestic Affairs for the Support of their Famelys—

I waited upon the Committee & Wrote several times, also the Officers of Militia & Majestraits, perticularly Those whome I supposed the most zealous in Opposition, Earnestly Entreated to Act with Moderation & that all these disputes & punctilios of Law Might be Laid Aside for the present & Disputed Hereafter, Promising that on My part would Arrest Any Officer or Soldier who should presume to Infring upon the Least Constitutional right—

The Committee & some others Exerted Themselves, and Generaly promised their Endeavours to Assist in Fortifying, as every One Allowd the necessity of having it done—But the Flame had taken such root, that it appeared almost Impossible to smoothen it—Agrevated Circumstances took place to Irritate, I injoynd on those under my Command to Keep at a Distance & not Give Cause of Offence By Interfering in the Dispute—

A Simple Credelious Man Appeard by his Conduct, to be a Tool to push on the difficulty, after he had Received his Rations, Came in An Insulting Manner to the Works in the Evening, & Acquainted the officer, He would do no more &

Dispersed the Authority who Commanded him there, His delivering it in a Menacing Manner & in presence of Those in the Continental Service, as well as Others, The Officer Immediately Confined him—Early the next Morning a Gentleman of the District Came to my Quarters, Acquainted me that the Inhabitants were Insulted by the Military & their Rights & Liberties attacked in a most Violent Manner—After Some Conversation, Mutual Promises—was given, that every step should be taken to prevent Confusion.—

What was done in the Whole Affair from the first Application for Militia to the Decision of the Tryall, I have taken the Liberty to Inclose for their Honours Satisfaction, Only it may be Observed that I was diffident About Ordering this—Man to Trial, till it appeared at the Court of Inquiry he was hired By Another that was drafted—

However I am at a Loss About the propriety or Impropriety of this Matter from the Arguments Used by some Men whome I presume is Acquainted as I have Not Before heard of the Like, Nor did it ever Enter my Mind, But that the Militia might be Call'd, in on such an Occation to make preparation the same as if Actually Attacked—

If I have done Wrong in the Affair, I shall freely submit to what may Be laid on Me, Being Clear in my Conscience That I Acted from a principle that I thought Lawfull, & the Necessity there was for the Security of the public Property & the Country—

I have Taken the More Liberty in Mentioning This, Thinking it my Duty, in Order that Some Instructions or Orders may be Given, How such matters should be Conducted to prevent Worse Consequences for the future, That if not Intended to Call in the Militia, that no Dependence be put Upon it, for This very Affair, Has Extended the Clamour every where to the Eastward of Penobscut, & am

Convienced worth to the Enemy as much as a reinforcement of 500 men —

Since the Above, I have Been Among people & Wrote find they are willing to Lend a Hand & Upon the whole those who are in opposition Seems | By the peoples Conduct now | to be Ashamed of what they have done —

I have had About Sixteen in General of the Militia, which with the Whole in the Service Including Officers, I have Kept Constantly at Work, & Expect by the 1<sup>st</sup> of Octob<sup>r</sup> to Compleat a Verry Usefull & Good Fort for the Bigness, which I have to Man it, A plan of Which I Herewith Transmitt — It Commands the Whole of the Stores & Settlement & about 272 miles down the River, & flatter myself much, That it will be An Advantage Strong, Consise & Cheap as any in America for the Intent —

I Rec<sup>d</sup> Intelligence a few days ago from Cap<sup>n</sup> Preble at Frenchmans Bay That the Terror of the Indians & the proclamation I Issued, had deterd the Inhabitants of Union River & some other places from Joyning with the Britons and that there was No Appearance of Danger, Was Going to see the Commanding Officer at Camden — I Ordered him to Inform the Honob<sup>le</sup> Board of the State of Matters that way —

I still Continue Under Great Trouble & Apprehensions, of the Toleration Given to Come & Go, to Passamaquody — the Libertys Taken is Great & Appears more dangerous than if Permitted to go into the Heart of Nova Scotia — the Civil Authority Looks Upon it Here, That as there Has Been Cleareness from the Westward to that Place, No Body Ought to be stoped, By Which an Open Intercourse is Kept up with the Enemy, & the Indolent part of the Inhabitants, who pleads Poverty for the Liberty Does as they Please, & Manny in Good Circumstances Keeps it Up and Imports

Goods that way in A Secrete Manner, & Lumber is Gote Boath Here and There By this Toleration, which Always Goes to the Enemy—Several Famelys & others By this Has Gote into Nova Scotia—And Upon the Whole by the Profits arising to a Number of Persons, There is Verry few who will assist in Detecting, & Keeps it so Secrete that I Seldom Here, & No time Authintic to Bring them to Justice—I have often Mentioned the Advantage, the Fishery of that place woud be to the States, But Absolutly Necessary it should be Under Suitable Restrictions—

The Indians precieving this, are ditermind to Improve thier Time & Declare, that Either they will Trade with the Britons who has things Cheaper or Sieze The property of such who does it, they have taken Several Things from People, Amoung them a Sloop of One Cap<sup>t</sup> Littlefield, whoes property I Understand is Owned partly in the States, He Professes Great Attachment to the States, & that He Only wants to Gete his Effects from Nova Scotia, But this is the Case he Always Carrys a Load of Lumber away which he allways<sup>n</sup> Protests is taken, However he Gets a good price, at the English Ports for his Lumber & Returns safe with his Vessell & Cargo, Greatest part of Which he land in Nova Scotia, But he Generally so Manages it, That no Evidence Can be Gote Tho I am as Clear in it as any Matter whatever—

I now permit him as his own request & By this Oppertunity | Under Bonds | to go to Boston to pursue some persons, who Lately Came to Passamaquody & took a Great Quantity of Goods Belonging to several persons The Impropry of Such Conduct & his Earnest Solicitations for Justice Induced me to Give him this Priviledge, No doubt he will sue for Licence to pursue his Intentions of Geting his property from Nova Scotia, But I trust Suteable Care will

be taken of All Such, who Cares for nothing But Self & not the Public Honour & safety—the Reason of my Apprehending him, was that the Master of his Vessell was sent here by him Being suspicious of his Intentions, I Detaind him But in the Night went of, with the Nesh'quowoit Boat taking Along with him, the Boatswain of the Howe Sloop, A Spy, one deserter & 2 hands, to Nova Scotia, in Consiquence Sent a party of Indians & Seized Mr Littlefield, Consigning him to the Committee of Boston—

Inclosed You will find a Return of the Indians, those in Actual Service in which Are not Included the Penobscuts or those on the River St Johns Nor that Are More than one days Travel in the Lakes, I am some what More Happy with them at present than for some time past, Expect a General Conference, in a few days, from St Johns River & Mickmack Country—

I forgote in my Last to Mention to the Hono<sup>ble</sup> Board, that 2 Indians supposed the most Zealous for the British Cause, Whome Mr Burk the Priest dilivered a Packett to, for Gen<sup>l</sup> McLean from the Governor of Nova Scotia & the Commanding Officer at St Johns Fort, Giving each Forty Mill Dollars,

but Instead of taking them to Majabigawaduce, Brought them to me It Being Not of Much Consiquence & the State of the Expedition there taken place, I thot it not worth While to Trouble the Hono<sup>ble</sup> Board With—

Within these Ten days I have Received two Messages from the Penobskuts Indians signifying their attachment to the States, But find them very much Divided Among themselves, I have supplyd them with upwards of Two Thousand Dollars since last spring, But They are become so degenerate that Goes for Rum, which still takes place thro the Country, as usual notwithstanding the Exertions to prevent—

I have to acquaint the Hono<sup>ble</sup> Board, that I Received Intelligence from Canada by two Trusty Indians that there was Nothing of Consiquence Sturing for some time till the Arrival of Two ships of Force & a Number of Transports with Provisions, a Bustel & Stur was Made, But were Intended no One Know'd, Nor was Never in General permitted to be Probagated, all the Indians Verry Zealous for the United States as well as Most of the Canadians —

In my Last I wrote perticularly about the prize Brig. Alice, But On Examining the Copy, it is probable the Hon<sup>ble</sup> Board may not Compreh<sup>d</sup> the Whole, the Extra Butter Mentioned is only Deposited here for the owners as a place of Safety, the Other provisions was secured for the Use of the States on presumption that it might be wanted against the Enemy at Penobscut Not Meaning it was all Wanted, solely for this perticular Department —

I send here Inclosed A General State of the Troops, Wherein it now Appears, there is a Superfluous Number of Officers, according to the Number of Men, I have ever Been Cautious of this, But the present Exegencys require it, I have verry often Volunteers & people that comes into the Worcks which Requires Some to Command, Also find it of Great Utility in sending often Among the Inhabitants thro the Country with Inteligence & Encouragement Which Being done by a person of Some Ranque has a Much Greater Effect Upon the people — & tho there is Not Men Constantly with Us in Garrison, the Officers has as Much as they Can do, In pursuing this Business, which Occations Life & a Stur, thro the Country & Keeps the Enemy from Realy Knowing our situation — the Surgeon, Quarter Master & other Staff Officers — I cannot do without, tho there is No provision Made for that purpose by the Court — have Promised the Surgeon as Last Year, If I have done Wrong, Necessity has Compell'd

me to preserve the public Interest, for I Never Can particularly Hear what I am to do — or How Matters are Going or what is Intended, tho I pursue every possible Method in My power to Keep Inteligence — the Hon<sup>ble</sup> Board will see how I have Stated Matters — & Refere it to their approbation Or Order to the Contrary —

Sept<sup>r</sup> 28<sup>th</sup> Having Inteligence of Our Troops Eastward being Disbanded And a Reinforcement to the Enemy at Penobscut, prevents my Letters Going by the Oppertunity first Intended — A Schooner Arrived this day in the River from Georges, having Orderd her to be Inspected, find no papers & from the Beheavour & Conduct of those On Board, Suppose they have ran away with her Intending for Nova Scotia have delivered her to the Navel Officer — Two diserters Came from S<sup>t</sup> Johns, Bring no Inteligence, only the Strength of the Garrison 97 Including Officers & all in the Service —

The Fort goes on Smartly, But no Further Assistance from the Inhabitants Inclosed in the Last Letter I sent the Committee. Majestraits and Militia Officers —

I Expect every Hour to hear of the Enemys Being in the River & partys By Land, Our Situation is Alarming & dangerous & no prospect of succeeding in Defending the Country without a Reinforcement from the Westward which I Earnestly Recommend & Solicite without Loss of time —

Every Possible Measure Shall be followd to Defend to the Last & I Rely that a Kind Providence will so far smile & Influence all in the Service, That if we are Compell'd to Give up the Country, it will not be to the Dishonour of America —

This Goes by A French Gentleman Who I send Express to Mons<sup>r</sup> Valnais, Upon Some Business of Importance, Which Respects Boath Nations & What (if it had succeeded) would

have Been the Means of Overthrowing All that has Ben done this way—As I trust it as Gote to A Conclusion & No Evils taken place & may be Better prevented by Mons<sup>r</sup> Valnais for the future I shall not Trouble the Hon<sup>ble</sup> Board with the perticulars—

there Must be a Quantity of Powder sent, as three days Firing with the Cannon woud Exhaust the Whole

September 28<sup>th</sup> This Minute rec<sup>d</sup> Intelligence by two Indians, the perticulars of Which is in Hand Bills sent Westward, a Ccopy I here Inclose—

Three Oclock P- M- Just reciev<sup>d</sup> a string of Wampum from the Indians Assembl<sup>d</sup> at S<sup>t</sup> Johns, By a French Gentleman whome I sent a few day, ago to the Indians at Passamaquody; The Intelligence Corroborates with The former, with the Addition they are Assembled there with one Heart & One hand—Their Hearts is Sick for Loss of Blood at Penobscut & nothing done, Also for the Indians Kill'd By the English,—Are anxious for War & only wait to be orderd—

When I Can Gete Forty Men for the Forte here shall sett out to see Them—

I am with all Possible Respect Your Honours

*Gen<sup>t</sup> Lovell's Defence.*

Sep<sup>r</sup> 22<sup>d</sup>

A Copy of the orders of General Lovell being read to him he acknowledged he had rec<sup>d</sup> such from the Council—

Gen<sup>l</sup> Lovell's defence—

Upon my arrival at Townsend on the 21<sup>st</sup> July I found the number of the Troops then deficient—there being but 873 effective rank & file as by returns No 1.——Notwithstanding I concluded to go on to Penobscot, first giving the Brigadiers intelligence of the deficiency & requesting them to compleat the numbers order'd by the Gen<sup>l</sup> Court, & send them forward in Transports—or in any other way more expeditious—

The 24<sup>th</sup> sailed from Townsend & arrived at Penobscot on the 25<sup>th</sup> on the 26<sup>th</sup> took possession of Banks's Island—On the 28<sup>th</sup> we effected Our landing on the heights in the Morning, about two hours after, to wit about Seven O'Clock we reconoitred & found the Enemy had erected their main Fort from which y<sup>e</sup>y fir'd in Barbette & had mounted two Cannon the one a 12 and the other a six pounder, we could only discover the heads of the Men with Musketr'y in the Battery—And it appear'd that the enemy had closed their Lines & began their Frize work upon the Rampart—The Number of Men return'd to me on my arrival at Bagadoose is contain'd in the return N<sup>o</sup> 2— The Marines that assisted in landing upon the Peninsula I suppose consisted of 150 Men—If I had judged it prudent to attack the enemy's Works, then supposed the Marines then on shore would have assisted in the attack—I collected the account of the enemies force from the Prisoners we took at our landing—they generally agreed they were about 1000 some more, none less. Upon this, I order'd lines to be thrown for our defence in case of an attack I think there was a rational probability of success if the navy had co-operated with me after I had taken possession of the Heights at M. Bagadoose—by the Navy's co-operating I mean their attacking the Ship<sup>s</sup>

there was nothing to prevent this, but a Battery of 3.6 pounders, near the Water's Edge unless they could be annoy'd from the main fort which was at  $\frac{1}{2}$  a Miles distance, from the Shore & mounted 4.12 pounders, & some 6' pounders

Q Did you request the Naval Command<sup>r</sup> to co-operate with you at the time you effected your landing, or during that Day or any time after — Ans<sup>r</sup> I did not at the time of my landing or during that day — except to furnish the Marines —

Sam<sup>l</sup> Osgood Esq<sup>r</sup> —

On the 30 Cap<sup>t</sup> Saltonstall said it was a proposal of his Captain's to go in & attack the enemy's Ships on that day Cap<sup>t</sup> Saltonstall said in y<sup>t</sup> Case he must take all the Marines from on shore for that purpose, to w<sup>h</sup> I objected because I had not got my Cannon mounted in my advanced Battery which was incompl<sup>e</sup>at — that y<sup>e</sup> enemy might land from yr Ships if they were attacked & attack me with their whole force in which case I would be in Danger of loosing my Cannon, or being totally defeated

On the 31<sup>st</sup> I inform'd Cap<sup>t</sup> Saltonstall that I was ready for his Ship<sup>s</sup> to operate, Cap<sup>t</sup> Saltons<sup>n</sup> then pointed out the 3 Gun Battery as an obstacle, Upon which I gave directions to have the battery stormed which was effected about 2 o'Clock the next Morn<sup>g</sup> viz, Aug<sup>st</sup> 1<sup>st</sup> which remov'd the obstacle — This Battery mounted 3 6 pounders only at y<sup>t</sup> time

On the same day a severe Storm prevented further operations —

The Examination of Gen<sup>l</sup> Lovell was waved to examine the follow<sup>g</sup> Witnesses — — —

The Examination of Cap<sup>t</sup> Nath<sup>n</sup> West on Oath late Command<sup>r</sup> of the Ship B Prince

On the 30<sup>th</sup> A Council was held on board the Ships, I am uncertain whether the Land Officers attended — At which Council it was determined the Ships should attack, provided the land Army would take possession of the Ground east of the Enemy's Main fort towards their Ship<sup>s</sup> — Capt West declines giving a further account, saying he can give no other account yn is contain'd in the several Councils of War — Cap<sup>t</sup> Nathan Brown Commander of the Hunter's examination on Oath

On or about 10,<sup>th</sup> or 15,<sup>th</sup> day, after landing a Council of War was call'd on board the Ship Warren at which it was determined to attack the enemy's Ship<sup>s</sup> provided the Gen<sup>l</sup> would take a post East of the enemy's Main work & towards the enemys Ship<sup>s</sup> to cut off the communication between the enemy's Ship<sup>s</sup> & fort, to prevent the Sailors landing & joining the fort — before the Ships had began to move, I understood the Gen<sup>l</sup> had sent word y<sup>t</sup> he could not take possession of y<sup>t</sup> Ground — which prevented our movem<sup>t</sup>

Q What obstacles had your Ship<sup>s</sup> to encounter provided you made the attack; except<sup>s</sup> the fire of the Ship<sup>s</sup>?

Ans<sup>r</sup> The Guns from their Main Fort, which I suppose was  $\frac{1}{2}$  a Miles distance from the Shore, the w<sup>t</sup> of yr Mettle we supposed .12 pounders, The Hulks of Our Ship<sup>s</sup> would not have been exposed to the fire of y<sup>e</sup> Fort at the time we should be actually engaged with y<sup>e</sup> Ship<sup>s</sup>

Q.—Whether the enemys Ship<sup>s</sup> could not have been destroy'd, provided the Gen<sup>l</sup> had not taken post as afore-said? —

Ans<sup>r</sup> In my opinion they could —

Ques<sup>n</sup> Why was the attack not made?

Ans<sup>r</sup> My Opinion was y<sup>t</sup> our Ship<sup>s</sup> would receive more damage in the attack, than we could reap benefit by the destruction of y<sup>e</sup> enemies Ship<sup>s</sup> — The damage we should have receiv'd would have been mostly from the Fort, as it is probable the enemies Ship<sup>s</sup> would not have fired more yn once or twice —

Q Were any measures preconcerted by a Council of war in case of the arrival of a reinforcement to the enemy?

Ans<sup>r</sup> None, that I know of —

Upon the appearance of the reinforcem<sup>t</sup> of the enemy — a Council of War was call'd at which it was determin'd that the whole fleet should move up Penobscot River, — Accordingly the signal was given on the next Morn<sup>e</sup>

The Examination of Cap<sup>t</sup> John Carnes Command<sup>r</sup> of the Ship Hector

From the time we arrived 'till the enemy's reinforcem<sup>t</sup> appear'd in sight our Ships lay almost inactive — It is my opinion that our Navy might have destroy'd the Enemy's fleet at any time before the arrival of yr reinforcem<sup>t</sup> — but this would have been at a great risk from the fire of the Main fort, for we should have been exposed to it in going up; in lying there; & on our return — about 4 or 5 days before the enemys reinforcem<sup>t</sup> arriv'd we discover'd there was a depth of water above, where we might lay without danger of the fire from the enemy's fort — after y<sup>r</sup> discovery it was determin'd in Council to attack the Enemy's Ship<sup>s</sup> provided Gen<sup>l</sup> Lovell would take post so as to cut off the Communication between the enemies Ship<sup>s</sup> & Fort —

It being afterward determin'd that that post could not be taken, the attack was laid aside—it was afterwards determin'd in a Council of the Navel Officers not to make the attack unless the land army would take the said Post =I do not think it was advisable for the Ship<sup>s</sup> to make the attack unless the Gen<sup>l</sup> would take the Post aforesaid, —but in my Opinion we could have gone up, carried the Ship<sup>s</sup>, & lay secure from the fire of the enemy's fort, but out station would have been more dangerous than the old one, provided a reinforcem<sup>t</sup> had arrived—

Upon the appearance of the Enemy's reinforcem<sup>t</sup> a signal was given by y<sup>e</sup> Com<sup>r</sup> for the Cap<sup>ts</sup> to come on board of his Ship=I went with my boat under his Stern & rec<sup>d</sup> orders to beat down towards the enemy—which I did,—the Wind dying away, the tide carried the fleet up the river, where we came to Anchor & lay 'till the next morn<sup>s</sup> The next forenoon we weighed Anchor & went up the River having rec<sup>d</sup> intelligence that the enemy were superior in force—Had orders been given on the first appearance of the enemy's reinforcem<sup>t</sup> the whole fleet might have gone up the river unmolested by the enemy in yr passage—I don't know that any orders were given for Burning our Fleet—I burnt my own Ship without— There were no measures preconcerted by the Navy, in Case the enemy's reinforcement should arrive

#### Friday Morn<sup>s</sup>

Present Gen<sup>l</sup> Ward Gen<sup>l</sup> Titcomb J. Prescott Esq<sup>r</sup>  
T Danielson Esq<sup>r</sup> G. Farley Col<sup>o</sup> Little

The Comittee desir'd the Officers who were summon'd to appear, to make their Depositions————

The Comittee now return to the Examination of Gen<sup>l</sup> Lovell—

Aug<sup>st</sup> 2<sup>d</sup> When we had reduced the Battery we could not secure our Men from y<sup>e</sup> Enemy's Main Fort & Ship<sup>s</sup> I requested Com<sup>o</sup> Saltonstall to destroy the Ship<sup>s</sup> he asked me if he destroy'd the enemy's Ships whether I could storm the Enemy's Main Fort. I told him I could not with my land forces only,—But it would put me in a situation to take post in yr rear & sweep all their stock of Cattle from ym. He then replied, his Ships might suffer, & as that was no place for refitting, he might fall a sacrifice in case a reenforcem<sup>t</sup> should arrive to the enemy Upon which Brig<sup>r</sup> Wadsworth went upon the Main land to Recon<sup>tre</sup> for a proper place to annoy y<sup>e</sup> Ship<sup>s</sup>. He return'd & inform'd me he had found a place near Wescott's Point from w<sup>h</sup> the Enemy's Ship<sup>s</sup> might be annoyed. & their Foraging parties prevented from Scouting out upon y<sup>t</sup> quarter—On the 3<sup>d</sup> a party on Fatigue were order'd for the purpose of geting up the Cannon & errecting works——

On the 4<sup>th</sup> The Battery was open'd ag<sup>st</sup> the enemy's Ship<sup>s</sup> but it did not fully answer the intended purpose—finding by this days experience it did not do them any great damage On the 5<sup>th</sup> I wrote the Com<sup>o</sup> a Letter—Letter A—in the Case—We continued our fire from both Batteries both day Night with Shot & Shells—On the 6<sup>th</sup> The Com<sup>o</sup> call'd a Council of War on board the Warran a result of which & his answer to my Letter of y<sup>e</sup> 5<sup>th</sup> are in the Case N<sup>o</sup> 1—In Consequence of which I call'd a Council of War a result of which is in the Case—N<sup>o</sup> 2. & at the same time sent a Letter to the Com<sup>o</sup>. a Copy of which is in the Case N<sup>o</sup> 3. A Committee viz Gen<sup>l</sup> Wadsworth, Col<sup>o</sup> Mitchel & L<sup>t</sup> Col<sup>o</sup> Revere at the same time being sent to confer with the Com<sup>o</sup> carrying the aforesaid Letter N<sup>o</sup> 3 as aforesaid—sign'd by me, the result of which conference

is in the case N° 4— On the 7<sup>th</sup> By the returns of this day there appear'd to be fit for duty rank and file 715 — the return is in the Case N° 4— I am daily expect<sup>e</sup> Col° Allen with his Indians, & a detachm<sup>t</sup> from Col° Forter which I order'd before I left Townsend, this day a Council of War was held on board the Hazard — a result of which is in the Case N° 5 — This day I made an attempt to draw the enemy out which succeeded, but we gained little advantage, as my Officers were unable to Command their Men — Aug<sup>st</sup> 8<sup>th</sup> This day being very stormy damaged Our Amunition very much — We came to a determination to throw up a Battery on the Main Land, on the S. East side of M. Bagadoose — that being the only means left of destroying the Ship<sup>s</sup> by the land force in my opinion — 9<sup>th</sup> We continued our fire upon their Main Fortress & Ship<sup>s</sup> — 10<sup>th</sup> Rec<sup>d</sup> a Letter from Cap<sup>t</sup> Hacker a Copy of which is in the case N° 6. Upon receipt of which letter I call'd a council of war a result of which is in the Case N° 7 — 11<sup>th</sup> In Consequence of a Council of War held yesterday the determination of which was to take possession of the ground —

*Deposition Col. Paul Revere.*

July 21 The 21 of July We arived at Townsend,  
 22<sup>d</sup> I was desired by Gen<sup>l</sup> Lovel to attend at his Quarters at 7 °clock that evening; I found Gen<sup>l</sup> Lovel, Briga<sup>r</sup> Wadsworth, Commod<sup>r</sup> Saltonstall, most of the Field Officers of the Army, and the Captains of the Navy. There was some debates, about the future opperations, of the Fleet, and Army; nothing material was determined; it was left to the General, and Commodore, to settle. The afternoon of this day, the General Review'd his Troops.

- 24<sup>th</sup> We sailed from Townsend, arrived in Penobscot Bay, that Evening; came to anchor, under one of the Fox Islands.
- 25<sup>th</sup> We came to Anchor close under Magabigwaduce about 3 °Clock in the afternoon; As we came up the Bay, I could plainly see with my Glass, the enemy had begun a Fort, on one of the Heights; in which was a long Barrack. A number of men attempt to land, under Briga<sup>r</sup> Wadsworth, they approach the shore, orders are given for them to return, the Enemy fired upon them, and kill one Indian.
- 26<sup>th</sup> I attend at a Council of War on board the Warren; it was agreed that a detachment of Marines under Cap<sup>t</sup> Welsh, should attack Banks's Island; and that they be supported, by a party of Militia under Briga<sup>r</sup> Wadsworth, I am Ordered to send one Field piece with the Marines; they git possession of the Island. The General directs me to send two eighteen-pounders, one twelve, and one howitz; with a proper number of Officers and men to the Island; which went that evening.
- 27<sup>th</sup> In the morning, I went with Gen<sup>l</sup> Lovel to the Island, I returned with him about 12 °Clock; he desires me to attend him after dinner, on board the Warren; I attend him accordingly, there is a Council War held; it is determined, to make a landing on Magabigwaduce. In the evening, I received Orders, to land with the men under my Command as a Corps de Reserve to the General, to leave my Cannon, and take my musketts.
- 28<sup>th</sup> I landed agreeable to Orders, after forming on the Beach, I see the General, who orders me to follow him with my men; we assend the Steep; then formed and marched near the edge of the Wood next the Enemy: The General commanded a halt; we had not halted a great wile, wen he received accounts, they had got possession of the

Heights; He then Ordered me to git a Field-piece on shore immediately which was done assoon as possible. He afterwards Ordered me to send to Banks's Island for the Howitz, and Field-piece; to make preparation to git them, with two 18 pounders, and the Brass twelve pounder, on Shore, to Call on Col Davis for Boats, and men, to fetch them. I afterwards reconnoitred the shore, and found a place much handier to land the Cannon; I informed the General, of it: he desired me to Call on Captains, Williams, Halet, Holmes and Catchcart, for what men I should want, which I did.

29<sup>th</sup> Early in the morning, a sufficent number of Officers, Carpenters, and Seamen, came on shore; I set the Carpenters to clearing a passage and Cutting a Rode, up to the Battery; the Officers and seamen, were imployed in gitting the Cannon on Shore. I waited on the General and informed him, how far I had proceeded. He desired me to be as expeditious as possible; for he did not think it possible with what men he had, to Storm the Enemy's fort. That fore noon, I had a fair view of the Enemy's Fort with a good Glass; I could see, that it was as high as a Mans shin; that it was built of Squared loggs; was Abbitee'd; that they had begun to Fraise it, round the rampart; that they had two guns mounted, which they fired in Barbet. That forenoon the Brass 12 pounder, Howitz and heavy field piece was landed; in the Afternoon one 18 pounder; they were all hawled up near to the lines.

30<sup>th</sup> By the help of the Seamen, we got another 18 pounder on shore and dragged it up to the Battery; in the afternoon we opened the Battery, and fired on the Enemy, with two 18 pounders, one twelve, and a Howitz.

31<sup>st</sup> Deserter came out from the Enemy, who said, they were upwards of 900 strong; that they had 650 Soldiers,

and near 300 Sailors; that they had sunk most of their Transports, and taken Guns on shore, from their armed Vessels.

Aug<sup>t</sup> 1 Last night the Marines, and Militia, stormed one of the Enemys Battery, of three Six-pounders; which they carried.

2<sup>d</sup> I went with Brigadier Wadsworth, to reconnoitre some Islands, to the east of Banks's Island, for a place to annoy the Enemy Shipping.

3<sup>d</sup> The General Order one 18 pounder, one 9 pounder and a Field piece, with a proper number of Officers and men, to a point on the main, where Brigadier Wadsworth was building a Battery to annoy the Enemies Ships.

4<sup>th</sup> In the afternoon, the Battery was opened; after firing a number of Shot, we found the distance, too great, for a sure Shot.

5<sup>th</sup> The General informed me he had sent a letter to Commodore Saltonstall, to know his determination, wether he would go in and attack the Ships, or not.

6 I am summoned to a Council of all Land Officers; the General lays before us, a letter he had received from the Commo<sup>r</sup> in answer to his of Yesterday; inclosed was a Copy of the determination of a Council of Navy Officers; to this purpose, If the General will Storm, the Enemys main Fort; they will attack the Shipping. The General desired the oppinion of the Council, wether it is praetible to storm, they are unanimous—it is not. A Committee of three is chose to confer with the Commodore: Brig<sup>r</sup> Wadsworth, Col: Mitchel, and my self are sent; We wait on the Commodore, He says, he is not willing to confer, but will meet Gen<sup>l</sup> Lovel, in a general Council; we agree to meet on board the Hazard.

7<sup>th</sup> The Council meet, after many debates, the question is put, wether the Siege shall be-raised: There were Thirteen against it, & eight for it.

8<sup>th</sup> & 9<sup>th</sup> The Firing is kept up against the Enemy, as has been, ever since the Batteries were opened.

10<sup>th</sup> A Council of war is called on board the Warren; when it is agreed to attack the Enemys ships: The General is to send a party of men, to take possession of the ground, between the Enemys Fort, and Ships, to prevent their Sailors giting in to the Fort

11<sup>th</sup> I am directed to send two Field pieces to the South of the wood, in the Afternoon, the General takes out a party of the Militia, on the plain ground, to Manovre them; they march in sight of the enemy, the Enemy fire upon them, they retreat in the utmost disorder. At 10 °Clock in the evening I am sent for to a Council; after many debates, and for the Reasons set forth in the minutes of said Council, it is agreed, that they cannot take possession of the ground as was determined; and that the General, inform Commodore Saltonstall, in the morning.

12<sup>th</sup> I went on board the Warren, with Gen<sup>l</sup> Lovell, to inform the Comm<sup>dr</sup> of the proceedings of last evening: The Commo<sup>r</sup> appeared supprised, he said he was ready to go in. They propose another Council, to determine what next shall be done. The General Orders me, to make preparation, to take off the heavy Cannon. We git the Brass twelve pounder and Howitz, on board the Transports, and one 18 pounder to the Beach that night; The Council meet at the Generals Markee; at about Sundown, their is an Alarm, which breaks up the Council.

13<sup>th</sup> I git the other 18 pounder to the Beach, earley in the morning: I attend the Council; after many debates, it

was put to Vote, wether the Siege should be raised, or not, there was Ten for it, and Fourteen against it.

The General proposes in the afternoon, to take out a party of men on the south side of the Peninsula, to draw out the Enemy. He directs me to send the Brass twelve pound and a Field piece there, with a proper number of Officers and men: The General marches a party of men to y<sup>e</sup> S. East part of the peninsula, the Enemy fire grape at him, but do not come out; Our Ships git under sail, we supposing they were coming in; when to our great mortification, (the fog clearing away) we see five sail of ships, in the Bay; it being near sun down, & a Showre coming on, the General led off his men. About 12 °Clock the General sent for me, and directed me, to take off my Cannon, and men; which was done before daylight.

14<sup>th</sup> About 7 °Clock, Cap<sup>t</sup> Brown is Ordered to git his Vesel under way, and stand for Belfast; it being calm, and the Tide not for us, he was Ordered to proceed up Penobscot River; About 12 °Clock we came to an Anchor, off Fort-Point, expecting every minute, to hear our ships attack the Enemy; about one oClock, we percieved that our ships were under sail, Standing up the River; I went on Board, the Generals Sloop, to acquaint Brigadier Wadsworth with it (their Vessel lay out of sight of the Ships) He desired me to go on shore with him to the Hospital, to git off the sick and wounded, which I did; but before we could git them off; Our armed Ships, had got abrest of the Point; they soon over took the Transports, who had got under way; (the Enemy pursuing); when the Transports found, that the Armed Vessels all went a head of them, they ran on shore, and landed their men, in the utmost confusion. The Ordinance Brig in which was most of my men, was the

last who came on shore I got most of my men together, in the Edge of the Wood, but while my Boat was gitting some men from a Schooner, who had lost their Boat; I was seperated from them (all but two Officers and Eight men;) They taking in to the Woods: I supposing, they were gone up the River; followed in my Boat, (It being Sun down) expecting to overtake them, after searching till 12 °Clock for them, I went on board a Transport, which had got up the River, and Staid till Day light;

15<sup>th</sup> then sent an Officer in the Boat, down the River, to seek after my men; and if he found them, to Order them up to me. As I was going up the River, I saw General Lovel comeing down, he told me, he was a going to bring up his men, to make a Stand. I went up as far as Grants Mills, where I found a considerable body of men, there I landed, to wait for my Boat; she returned about 12 °Clock, and could finde nothing of them; I staid there all that day; towards night, I went on board the Vengeance, Cap<sup>t</sup> Thomas, to enquire what news; he told me, he should burn his Vessel in the morning; he had landed some of his men, and was delivering out provision to Some Soldiers who had none. I went on shore, and went about a Mile into the woods with my men two officers and eight men &

16<sup>th</sup> there encamped. next morning I sett off with a party, and came thro the woods to Kenebeck River.

19<sup>th</sup> I got to Fort Western, were I found most of my Officers, and men; after supplying them, with what money I could spare, I Ordered them to Boston by the nearest rout.

On the 28<sup>t</sup> July I went a shore at Majorbagaduce about 9 O'clock A. M. with some Sailors in my way up to the Heights I found Cap<sup>t</sup> Carnes marine officer of the Putman a setting on a log, after the ussall Comp<sup>ts</sup> I asked him how many men he had lost in Landing he told me he could not tell—Cap<sup>t</sup> Williams of the Hazzard then came by & ask'd if we would lend a hand to gett some Guns up I told him Yes I Called on the Sky Rockett & went with them & Cap<sup>t</sup> Carnes in Company to the Beach.—I Remain'd on the Beach I Suppose an Hour & then went on bourd.— I inquired if our marine had Gott on bourd was told no. I sayed I suppose they were Discharged as I saw Cap<sup>t</sup> Carnes a walking about a shore some way in the Rear of our Army.— I was on shore Severall times—& saw Col<sup>o</sup> Revere who always apprea'd, as he all way's did while I was in the Regiment as an Active & Deligent officer on the Retreat up Prenobscot River Col<sup>o</sup> Revere pass'd the Ship Sky Rockett a little after Sun down Cap<sup>t</sup> Burk Ask'd him to Come on bourd & Drink some Grog he told him he could not stop for he was trying to Colect his men. I told him he had better stop & I would hand him some in the Boat he told me he could not—

*Deposition Capt. Cushing.*

On the 24<sup>th</sup> of July I embarked on board the Brig Samuel to proceed on an Expedition to Penobscot where we arrived on the 25<sup>th</sup> on the 26<sup>th</sup> I was order'd by

Col° Revere with my Company & two 18 p<sup>s</sup>, One 12 & a howit to proceed to Bank's Island, on the 27 we assisted by the Militia got in to a Battery one 18 and one 12 & one How it, & the other 18 on the shore Col° Revere came & visited us to see our proceedings at 9 O Clock I rec'd orders from Gen Wadsworth to immediately repair to my Transport, where I received directions from Col° Revere to prepare to Land the next morning by Day Light, the 28<sup>th</sup> by a little after sunrise we were on Shore, where I paraded the Men, (Col° Revere went to the right where I saw the General,) I advanced with the Men till within half a mile of the Enemy's Fort, when Col° Revere came up, & order'd a halt the rest of the Army having halted at the same time, I was then order'd by him to go on board the Ordinance Brig & bring on Shore one Field piece, after we got on board, he order'd me to go to Bank's Island & fetch off the Howit & field piece at that place, which I effected by 2 OClock P. M. he then again directed me again to take a Field Piece and proceed on Shore, & convey it to the Lines, which was done before Sun down the 29<sup>th</sup> I was employed in getting Cannon on Shore, the 30<sup>th</sup> in the Afternoon open'd our Battery of 2.18's 1-12 & a ½ 5 in how'it, a little more than ¼ of a mile from the Enemy's Fort.

A few Days after I was order'd to a Battery on the main with Gen Wadsworth

On the 13<sup>th</sup> I was order'd to take off the heavy Cannon in the above Battery which was done —

On the 14<sup>th</sup> at 2 OClock A. M. I received orders, to repair immediately on board the Transport with the Field piece then remaining, we were pursued by 200 of the Enemy, which obliged us to leave the Carriage behind, as the Boat was not large enough to carry both, one of the Militia was taken prisoner,

When aboard the Transport by towing, &c we got up to Fort point, but tide making against us obliged us to come too, about 2 OClock the Men of War receiving a Breeze from the South<sup>d</sup> were coming up with all Sail, The Transports soon after took the Breeze & pushed up the River by sailing, towing, & rowing, but the Ships of War passing them obliged us to run a Shore, the Enemy's Ships being within shot,

I went on Shore with Col<sup>o</sup> Revere & collected about 40 of our Men, the Col<sup>o</sup> left me but informed me he wou'd be back in a few minutes, I tarry'd upon the Beach & Bank nigh where he left me some time but Night coming on & my party having no Arms I thot it advisable to take post a  $\frac{1}{4}$  of a mile from the Shore, where I saw some of the Gen's family, Major Brown thot it prudent to push for Kennebeck River, I went about  $\frac{1}{2}$  a mile & encamped in the Woods, the next morning I sent two Men out of the Woods to gain intelligence, but brought none, when I sett off for Kennebeck

Perez Cushing Cap<sup>t</sup> Arty

I went on shore before with Col<sup>o</sup> Revere by Gen<sup>l</sup> Wadsworth's desire & in Company with him at Fort Point, then we viz. Col<sup>o</sup> Revere & myself proceeded up the River in a Boat four or five Miles, and then landed — Our Men landed afterwards below us, Col<sup>o</sup> Revere then left me & went towards the place where the Men were landing & say'd he would be back in a few minutes, but I saw no more of him 'till I got to Kennebeck River. I tarried at the place where he left me from 5 o'Clock 'till near Dark, waiting for Col<sup>o</sup> Revere, & orders, then I proceeded towards the place where our Men landed, met some of them coming up & in the whole collected about forty — I had no orders from any one what to do with the Men when I had collected

them — I saw the Adjutant Gen<sup>l</sup> after I had collected the Men, asked him if he had any orders to give me respecting the Men — he said no — Col<sup>o</sup> Revere had an Opportunity to have given orders to me, or to the Men, before we left the River, & I expected to have receiv'd orders from him, but did not, & then took the course I have mentioned above — When we got to Kennebeck River the Col<sup>o</sup> said you have the Command of the Men now & march the Men to Boston, & give certificates for their Subsistance — While at Baga-doose I receiv'd orders from Gen<sup>l</sup> Wadsworth, / being at the Gen<sup>l</sup> Marque/ to go to a new Fort on the Main with an 18 Pounder 9 D<sup>r</sup> & a 4 P<sup>r</sup> I went with 15 Men from the Train, before I marched the Men I saw Col<sup>o</sup> Revere & told him of my orders, he said he thought he ought to have been consulted by the Gen<sup>l</sup> before a detachment was made from his Corps, — but said get your Men

Quest<sup>n</sup> Did you hear Gen<sup>l</sup> Lovell or B Gen<sup>l</sup> Wadsworth say that they would not give any orders to Col<sup>o</sup> Revere if the seige continued ever so long —

Ans<sup>r</sup> I heard such conversation, but cannot now recollect whether it came from either of them — I lodged on Board the Transport with Col<sup>o</sup> Revere on the Night of the 28<sup>th</sup> & 29<sup>th</sup> of July

The time when the orders abovementioned were given for attacking the enemy's fleet was on Wednesday the 11<sup>th</sup>

It is my opinion it was always in the power of Our Fleet to have destroy'd the Enemy's Shipping without any assistance from the land Army untill the arrival of their Reinforcement —

*Defence of Col. Paul Revere.*

Gentlemen

You being appointed by the Authority of this State, to investigate the Causes of the failure of the Penobscot Expedition; and of the Behaviour of the Officers, concerned therein: It lays with You in a great measure, from the evidence for and against me, to determine what is more dearer to me than life; my character. I hope and expect, that you will make proper allowance, for the prejudices, which have taken place, in consequence of stories, propagated by designing men to my disadvantage.

I beg leave to mention to your Honors a matter; tho at first, it may appear foreign to the present case, yet in the end, it will give some light; Why Stories have been propagated against me.

Your Honors must remember the difficulties which arose in our Regiment the last Feburary when it was reduced to three Companys. Because I accepted the command, (which was by desire of the Council) and did all in my power, to hinder the men from deserting: And because I would not give up my Commission, in the same way the other Officers did, some of them propogated, every falshood, Malice could invent in a underhanded way.

I shall trouble your Honors but with one Fact, which I appeal to the Hon<sup>ble</sup> General Ward for the truth of.

Not long after the Regiment was reduced, Captains Todd and Gray, waited on General Ward, to complain against me; after saying many things to my disadvantage, (as the General told me the same day,) Capt Todd asked the General, to go with him in another room. He then told him, He could prove or he believed he could prove, that I had drawn Rations at the Castle, for thirty men, more than I had there. The General said he told them, if they had any thing against me, to enter a Complaint against me to Council, and I should be called upon. A few days after I received an Order of Council to attend them, and was served with a Coppy of a petition, signed by Cap<sup>ts</sup> Gray, Todd and others; wherein they desire to be heard personally on matters set forth in the Petition; and other Matters. I appeared at the appointed time and they never produced a single article against me. I well remember, that three of your Honors, were in Council at the time. Ever since they have done every thing in their power to hurt me, by insinuations: Tho' none of them ever Charged me to my face.

After I received Orders to go to Penobscot, I heard Cap<sup>t</sup> Todd was going one of Gen<sup>l</sup> Lovels Brigade Majors. Some of my Officers, told me they were agoing to wait on Gen<sup>l</sup> Lovel to inform him, with what they heard, and to desire He might not go; for he was so very Enemical to the Corps of Artillery, He would do every thing in his power to hurt them, They came to Boston to see the Gen<sup>l</sup> but Doc<sup>r</sup> Whipple asured them Cap<sup>t</sup> Todd was not going, they omitted waiting on Gen<sup>l</sup> Lovel.

After that Gen<sup>l</sup> Lovel engaged him. When I found he was going in the Generals family; I represented to the Gen<sup>l</sup> how disagreeable he was to me, and my Officers, and that I

should never speak to him but in the line of my duty. For which reason I did not go to the Generals Markee, so often as other Officers; but I allways made it a Duty, to see the General, at least twice a day; morning and Evening. Which Gen<sup>l</sup> Lovel has done me the Justice to say on Oath, He saw me often. (I would mention here, that during the whole Campaign, I never was so much alone, with any man, as with General Lovel: He frequently asked me to walk with him. Yet he never gave me, the most distant hint, that he thought I omitted, or neglected, any part of my duty; Which I am perswaded he would have done, if he thought I had omitted it; as there has been an acquaintance for more than twenty years.)

If what I have mentioned is true, Your Honors must be sensible, what a Situation I was in, with such an enveterate Enemy in the Generals Family—I have not the least doubt but Cap<sup>t</sup> Todd procured the Order, of the 30<sup>th</sup> of August, and then sent it to Boston. For my Friends, tells me, that they heard of the Order, before I got home, and they have no doubt it came from him.—He swears that I did not land in time, and insinuates, it was done with design.—That he heard Brigadier Wadsworth Say that if the Expedition continued seven years, He would never order me.—That I was frequently on board the Transport, by which he would insinuate that I went there to keep out of the way—And that I did not go up the River when Ordered by the General, the day after the Retreat.

The first of these to his confusion; was proved to be false. by Cap<sup>ts</sup> Cushing, Lincoln, and Col. Davis, The Second by Brigadier Wadsworth, who swears that he never said any such thing, that it never once came in to his mind. He says he is sure, if he had said so, some traces of it would be left behind. The third by Cap<sup>t</sup> Brown, who says I never came

on board, but to do something for the Service, or to Shift me; and that but seldom; and when I was on board, I was anxious to git on Shore, for fear I should be wanted. That Several times, he desired me to stop, to drink Coffee, & to dine, that I refused him, for the above reasons.— And fourthly that I did not go up the River when Ordered by the General. This is likewise proved false by Cap<sup>t</sup> Lieu<sup>s</sup> Newcomb, and Lieu<sup>t</sup> Philips, who tells you, I went twenty miles up the River, to Grants Mills; that I staid there, the whole of that day; and did not leave the River till I was asured they would burn the Ships next morning.—I am sure that nothing turned up in evidence, to shew that the General ever carried up my men, to Fortify as Reproposed.

As to the charges brought against me by Cap<sup>t</sup> Carnes, for which I was Arrested by the Council; I expected, he would have endeavored, to have proved, one by one; But when he found his witness failed He was suffered to appear as an evidence Himself; I say suffered; for it was the first instance, I ever heard off, in Matters of this sort; (in Millitary affairs,) that a man should be accuser, and evidence. After all, what does he swear to; First that I staid on the Beach with my men, and did not go up the Steep till the Marines and Militia had got possession of the Heights. 2<sup>d</sup> That I carried all my men on board the Transport and that they lodged there. And that the Sailors got my Cannon on Shore.

The first is proved false, by Gen<sup>l</sup> Lovel, and all my Officers; for I do not suppose any one will say, Gen<sup>l</sup> Lovel did not leave the Beach, till they had possession of the Heights, Yet Gen<sup>l</sup> Lovel swears, I was close in his rear.

Second that I carried all my men on board the Transport, and that they lodged there, till order'd on Shore by the Gen<sup>l</sup>

This is likewise proved false, by several evidences, Cap<sup>t</sup> Lincoln told you, that he kept on shore with his men, and encamp'd in the woods.—That the Sailors got my Cannon on Shore is true in part, the two 18 pounders were got on shore by them Chiefly; but the 12 poun<sup>r</sup> Howitz, and heavy field piece, were got on shore by my people. You find all my Officers swear they and the men were assisting, the whole time. (No person in their senses would suppose, that Forty men could, git such Cannon, as 18 poun<sup>r</sup> up that bank). Cap<sup>ts</sup> Williams and Cathcart say, that they had not the assistance from the Artillery, they expected; which is accounted for this way, there was all the utensels, belonging to the Cannon, to git up to the Fort, The Rammers, Spunges, Ladles, worms, beds, Quines, powder Horns, Linstocks, besides the Amunition, wads &c You may depend the Artillery officers, took care of those, & imployed their own men. The two first charges in Carnes's complaint; are proved to be groundless: The Order I produced, proves his malice in the first instance, that he aserted a thing he knew nothing about; and then attempted to prove it. Happy for me I did not loose this Order. . The second charge; that I did not go, to take off the Cannon &c The Adjutant Gen<sup>l</sup> tels you, the General counter Ordered it, and the men that was Ordered, never came to me.

Third Charge, Disobedience of Order's in several instances, Gen<sup>l</sup> Lovel Swears, he did not know of my ever disobeying any Order, either Verbal or written, except that of the 15<sup>th</sup> of August, to go up the River: I think it is amply proved, that I did go up the River, 20 miles, with what men I had; that I staid there till Sun down, when it was determined to burn the Ships; If the Gen<sup>l</sup> did not see me there. it was not my fault; for it is evident thro the whole enquirey:

that General Lovel, did not come up the River till Night: Or one Single Field Officer, except my self.\*

The Fourth. For unsoldier like behaviour &c If to obey Orders, and to keep close to my duty, is unsoldierlike; I was Guilty. As to Cowardice, During the whole expedition, I never was in any Sharp Action, nor was any of the Artillery; but in what little I was, no one has dared to say I flinched. My Officers all swear, that when ever there was an alarm, I was one of the first in the Battery: I think thats no mark of Cowardice.

The fifth, that I denied the Boat to Brig<sup>r</sup> Wadsworth &c I left Cap<sup>t</sup> Cushing as he relates: I had not gone far; before I met most of my men, and some of my Officers. I asked them if they had any provisions, they told me no, there was some sheep, that swam on Shore, which they threw out of a Sloop; I sett the men to catch some of them. I was then on the Edge of the Bank. I saw my Boat a long-side one of the Transports gitting some Bread, (That day was our drawing day, but by Reason of the Confusion, we had not a mouthful of provisions.) I went down to the River, and called them to me; intending to have put all our Baggage on Board, and sent it up the River, and followed with my men; I called to Lieu<sup>t</sup> Philips to take two men, and bring my chest, It was a small one which contained my Linen, some Instruments, and things of great Value to me; besides what little Money I had with me, just as the boat came; Brig<sup>r</sup> Wadsworth came along He insisted they should go on board the Schooner, I refused at first, but afterwards Ordered her to go, and she did go, He and I staid there till she came back, when she came back, he proposed their going, to tow her on shore, I told him, if He would git another Boat she

\* Cap<sup>t</sup> Willlams in his Deposition, says he saw me on board the Vengeance the 15 Aug<sup>t</sup>

should go; He went to try, we parted good friends, As I thought: I waited half an hour he did not come, I then went to look for my men, they were gone from where I left them; I supposing they were gone up the River, (for it was then Sun down. If your Honors will Compare the Evidence respecting y<sup>e</sup> Situation of Cap<sup>t</sup> Burks Vessel, with Cap<sup>t</sup> Marets Deposition, You will find it agrees) I followed. and kept close to the edge of the River, expecting every moment to over take them. Lieu<sup>t</sup> Philips and Cap<sup>t</sup> Newcomb swears to the rest. I never saw Brig<sup>r</sup> Wadsworth after, till I saw him in Boston if I had, I should have made him some acknowledgement. The last charge is Malicious and false. as has been proved by all my Officers.

As to the General matters; you are the judges, how far they ought to affect my Character; You must have seen, what pains were taken to git evidence and after all they have not proved, a single Crime against me.

Gen<sup>l</sup> Wadsworth says, he did not see me so often as he expected, when they were building the first Battery. Yet acknowledges I was there next day, and layed out the Embrasures. one Circumstance I forgot to mention, to him, on the examination, that he asked me about the platforms; I told him, as I was busey about the Cannon, I would send Cap<sup>t</sup> Lincoln, who was a Carpenter by trade, and He should see that they were properly laid; he attended there constantly. I was twice in the Battery after that the same day. He says I always was opposite to him, in Sentiments on Councils of War. (I never before now; ever heard, that an Officer was called to account for Actions, at a Council of War. I beleive for the future, that Officers will be carefull, how they attend Councils.) Your Honors will see, that he is at least mistaken, if you will peruse, the Minutes of the Councils. you will find the first was held on board the War-

ren July 26, the second on Board the same Ship, the 27<sup>th</sup>. There was not another held, at which I was present till the 6th of August. the 10<sup>th</sup> was another held on board the Commodore. the 11<sup>th</sup> another was held at the Generals Markee: These five, all was unanimous. I was at but two Councils where there was a division; the first was the 7<sup>th</sup> August, when we had been there 12 days. (It always was my sentiments, that if we could not Dislodge the Enemy in seven days, we ought to Quit the ground; for where the Enemy has the command of the Sea, and the fate of the Expedition, depends on the movements, on that Element, we ought not to have risqued so much as we did. I know Gen<sup>l</sup> Lovel was of the same sentiments, before we left Boston.) The other Council was on the 13<sup>th</sup>; the day we retreated at Night. It appears to me a little extraordinary, that I should be called upon, for my sentiments, when there was so many agree'd with me; the first Council eight; the second ten. Cap Todd, Mr Marston, and one more, swears that the Billet sent me by the General, was after the 31<sup>th</sup>. wherein he Ordered me to wait on Him, which I did, and he says I gave him full satisfaction, of what I had been doing. Major Bromville swears that He delivered it to me on board the Transport, late in the evening, and that I was in bed; all the evidences agree, that I lodged on shore the 30<sup>th</sup> and did not lodge on board till the siege was raised. He Major Bromville told you, he believed it was the 29<sup>th</sup> But Cap<sup>-</sup> Cushing, who was not there with the Committee, when this matter was agetated, says He will swear it was the 29<sup>th</sup> Cap<sup>-</sup> Lincoln swears, it was the second day after we landed; Mr Speakman told him of the Billet; and it is plain he was asked to carry it. surely he could not have told of it, if it was not wrote till several days after. The Reason why I kept on board the Transport the first two days, was merely for convenancy. (Those who

Judge it was from fear, Judge from their own feelings not from mine.) The Gen<sup>l</sup> tells you, he directed me to git the Cannon on shore with all expedition. I took Cap<sup>—</sup> Cushings Company, as he and one of his Officers were Sailors, and several of his men; & the Vesel was handy to the shore and all our Baggage on board, and a boat to fetch and carry us, we could have been to our duty much sooner than if we had lodged in the woods, Besides we had but one field piece on shore, and their was a whole company to take care of that One of the Hon<sup>ble</sup> Committee mentioned; there was danger of a Sortie, from the Enemy. If they had sallied, my men could have been but of little service, as their Arms were short, and the Bayonets, not eight inches long. And there was full as many men as was need full, for what cannon there was on shore. My particular business was to be where my cannon was, My Order from the State was to Command the whole Artillery. As you may see, by my instructions, in the Reccords of the Hon<sup>ble</sup> Council of July 28<sup>th</sup>

You will find by the Evidence of Lieut McIntire that I gave Orders on the 30<sup>th</sup> in the Morning, for Cap<sup>—</sup> Cushings company to Encamp on shore that Night.

There was something mentioned about a letter, wrote to the Hon<sup>ble</sup> Council by the General, which reflected on me: The General tells you it was because he thought I did not go up the River on the 15<sup>th</sup> when he Ordered me, and that I should not have gone home to Boston, with my men, without his Order. That I did go up the River, has been fully proved. That I came home without his Orders is true; where could I have found either the General, or Brigadier, if it had been necessary to have got Orders. the first went 100 Miles up Penobscot River, and the other down, and I crossed the woods to Kennebeck River. My Instructions from the Hon<sup>ble</sup> Council to which I refered above, directs,

that I shall "obey General Lovel, or other my Superior Officers during the Continuance of the Expedition." Surely no man will say, that the Expedition was not discontinued, when all the shipping was either taken, or Burnt, the Artillery and Ordinance Stores, all destroyed. I then looked up on it that I was to do, what I thought right, Accordingly, I Ordered them (my men) to Boston by the shortest route. and that Cap<sup>t</sup> Cushing should march them, and give Certificates for their subsistence on the Road. Why such instructions were given me, some of your Honors are the best Judges.

As I did not take any minutes on the examination, I have wrote my Defence as my memory served me; If I have made any material mistakes, I hope your Honors, will attribute it to my memory. I was in hopes to have deliver'd it before the last adjournment of the Committee; as I had the substance of it wrote, but there was not time.

[Paul Revere's signature cut out—]

Read and accepted, & thereupon Resolved that the Hon<sup>ble</sup> the Major part of the Council, be, and they hereby are requested immediately to order a strict enquiry into the disobedience of the orders of this Court; for detaching 1,500 Men for the service of the Penobscot expedition and to cause such punishment as the Militia law provides to be inflicted on any of the Brigadiers or other Militia Officers who may be found delinquent on such enquiry; and It is further Resolved that a copy of this Report, and the Papers accompanying the same, be transmitted by the Hon<sup>l</sup> Council without delay to the Hon<sup>ble</sup> The Congress, that they may take such order thereon, as to them may seem most conducive to public Justice.—

And the Secretary is hereby directed to cause the Report of this Committee to be published in one of the Boston News-

papers, as soon as the Court Martial now setting in Boston upon the Commodore shall be over.—

*Statement of Capt. Williams.*

Satt<sup>rd</sup>y 24<sup>th</sup> July

Sailed from Townsend In Company with our Grand Fleet bound to Ponobscut, about 7 P. M I Received Orders to go ahead of the fleet about 2 Miles, In Company with the Tyanaside, about 10 P.. M Being Calm We Came two Ankor, I Sent my boat on Shore With M<sup>r</sup> Cunningham my Second Leint, with orders If he found any men he would bring them on board, Some time after he Returned and brought 3 Men with him, one by the name of Watterman, after Examine them I sent them on board the Comodore—Satt<sup>y</sup> 25<sup>th</sup> In the Morning the fleet got under way Run up the River, About 2 P.. M the Comodore Came aLong Side of me In a Small Schooner, Ordere'd me to speak with the Generall and take his Orders, which I Did, his Orders were to Run in & Come too Ank<sup>r</sup> Close In Shore On the West Side of Bragaduce, In Order to Cover there Landing, Soon after the Active and Ship Sally Came two Ankor for the Same Purpose the Enemy Appeared In Sight on the hight we keep a Constant fire on the Shore which Obleidge them to Retire Soon After the Troops Made and Attempt to Land, but were Called back Again—

July 30<sup>th</sup> A Counsell on board the Warren, the Comodore Aquainted the Members, that the Generall did not think that It would be of any Service for the ships to go In, In his Present Suitiation, If we Could Not take the ships

without driveing the Men on shore, but at the same time would not by any means Discourage It, the Next Counsell that was Called was In Consequence of a Desire from the Gener<sup>n</sup> to know If he would go In with the Ships or, not—It was agree'd that the Ships Should go for If the Generall should Storm the Enem<sup>'</sup>s Grand Fort which was well known—I beleive=by Every Member that he was not able to do It, I herd Cap<sup>t</sup> Kittchart Speak to the Comodore begging that he may not be Called again, the Comodore give for Ans<sup>r</sup> that It was a Matter of Indulgence that he had give him or any other Gentlemen, for after he had Got there Opinion he should abide by his own————Some time afterwards Cap<sup>t</sup> Hacker offere'd a plan the most part of It was agreed on but not Put In Execution

Commander of the Brig Hazard

The Deponent further adds — that it is his opinion that it was in the power of Our Fleet to have taken or destroyed the enemy's Shipping at any time before the arrival of their reinforcement, without the assistance of the land Army & without any considerable hazard to our Vessels — And it was his opinion, that had we taken them, the Fort must have surrendered — this I expressed to the Comodore several times — Bateman Esq<sup>r</sup> the day after we went into the Harbour came on board the Comodore & inform'd him of the enemy's force by Sea & Land; advised him to

go in immediately & attack them, He believ'd they would surrender directly—I think M<sup>r</sup> Reed the Pilot gave much the same account—There was no Council call'd that I know of to Consult respecting the mode, or place of retreat in Case of a Superior reinforcement arriving, or any orders to that purpose given by the Comodore untill the reinforcement actually appear'd—Whenever any proposition was made for attacking the enemy's Ship<sup>s</sup> the Comodore open'd his Council by Preaching Terror, I would comonly say, what should we atcheive by it, in case we should destroy the enemys Shipping—The danger of delays, from reinforcements, was frequently urged in Councils—

*Capt. Hallet's Statement.*

Saturday July 10<sup>th</sup> 1779

I weigh'd Anchor and made Sail from Nantasket Road, in Company with the Sloop Providence, Brig Pallas & Ten Sail of Transports bound to Falmouth —

15<sup>th</sup> Arrived at Falmouth and came to anchor —

16<sup>th</sup> Sail'd in Company with the Sloop Providence on Discovery agreeable to my orders from the Hon<sup>l</sup> Board of War, until such time as the Grand Fleet should arrive at the Eastward —

22<sup>nd</sup> Join'd the whole Fleet at Townsend, in Company with the Sloop Providence, & Brig Pallas waited on the Commodore and gave him an Account of my proceedings —

23<sup>d</sup> Made Sail in Company with the whole Fleet for Penobscott —

25<sup>th</sup> Arrived at, and came to anchor of Bagaduce at 3 P M. rec<sup>d</sup> orders to cover the Landing of the Troops in Company with the Brigs Hazard & Tyrannicide & Ship Sally, The Troops made an Attempt to Land, but left the Shore in a very Short time the reason unknown to me —

26<sup>th</sup> A Party of Marines and Militia landed on & possessed themselves of Bank's Island which occasioned the Enemy's Ships to move farther up the River, but no Landing Effected, or Attempted again on Bagaduce

28<sup>th</sup> The Troops made a Landing on Bagaduce and possessed themselves of the Heights, the Enemy's Force by Land at the same time retired to their Fort, after this I was employ'd most, or a Considerable part of my time with my Officers and Men Assisting in hauling up the heavy Cannon on the heights of Bagaduce, untill the 30<sup>th</sup> Ins<sup>t</sup> when I rec<sup>d</sup> orders from the Commodore to Cruise in Company with the Brig Diligence of the Mouth of the Bay in order to make the earliest Discoveries of an Enemy's Approach which orders, I executed, and on the 13<sup>th</sup> Ins<sup>t</sup> 2 P M. Discovered five Sail Standing into the Bay — immediately ask'd Cap<sup>t</sup> Brown's opinion thereon, who gave it they were Large Ships, I then desired Cap<sup>t</sup> Brown to bare away and inform the Commodore of the Fleet, then in Sight, at the same time inform'd Cap<sup>t</sup> Brown I would keep my wind towards them, for a farther Discovery which I did untill the Fleet appeared Seven in Number, and the headmost Ships within Four Mile of me, being now Convinced by their Motion they were Enemy I made all the Sail I Could for our own Fleet — The 14<sup>th</sup> Ins<sup>t</sup> I came up with and Join'd our Fleet and inform'd the Commodore to the best of my Judgment the force of the Fleet then in Sight, (supposed to be an Enemy) It was the opinion of the Commodore and a number of the Commanders that our Fleet was vastly inferior to that of the Enemy's of Consequence the Risk too much to engage them — a Motion was made to move up Penobscott River where we might with the help of the Militia, make a Stand and Protect our Shipping, or at last Burn them and save our Crews from being Captives

I continued my way up the River untill I found Cap<sup>t</sup> Williams, Hacker, Brown & Cathcart in their several Vessels at Anchor, I went on board Cap Williams and ask'd him what his opinion was of the Matter wether the Ships were to be protected or Burnt. he inform'd he did not know — but agreed to act in Conjunction in what ever might be thought expedient On the 16<sup>th</sup> Ins<sup>t</sup> Nine A. M. rec<sup>d</sup> Intelligence that the Warren, Vengeance, Putnum & Sky Rocket were Consumed, the Militia Scattered the Private arm'd Ships around us on Fire, I Landed my men in Company with Cap<sup>ts</sup> Hacker William's, Cathcart, Brown & Holmes and with them Committed my Vessell to the Flames

During the four days that I continued in the Harbour of Bagadoose, It is my opinion we might have attacked & destroyed the enemy's fleet without any assistance from the land Army, & I was suprised that they did not go in during that time. About five days before the arrival of the enemy's reinforcement I was on board the Comodore's Ship where a Council of War was then sitting to consider Cap<sup>t</sup> Hackers plan, & it was there proposed to send a body of Marines to assist Gen<sup>l</sup> Lovel in cutting off the retreat of the enemy's Sailors The Comodore then turn'd to Cap<sup>ts</sup> West & Carnes, & I know not but Cap<sup>t</sup> Brown also, & asked them how many Marines they could furnish, they answer'd none—I then made on offer of fifty, of which he took no notice—Capt Williams I think said he could furnish about thirty or thirty-five & Cap<sup>t</sup> Cathcart said he could furnish about twenty-five—The Comodore took no notice

of this. I cant say he heard it—but it was spoken loud & in Council—After this I asked the Comodore twice If he did not execute this plan, what he expected to do, He made me no answer, but turn'd from me. I am sure he must have heard me—I heard the Comodore ask what advantage it would be to take enemy's Ships which we found there, to which I answered if they are not taken they will be ready to join the enemy's reinforcement if any should arrive

I George Little of Lawful Age do testify and Say the fleet under the Command of Comodore Saltulstul Arived at Ponobscut the 25<sup>th</sup> of July—1779—

July 28<sup>th</sup> We Landed our land force under the Command of Gen<sup>rl</sup> Lovell on Bragaduce after a Warm Reception, one or two days after Landing I herd Gen<sup>l</sup> Lovell Say that he was then Ready for the Comodore to go in and Attack the Enemy's Ships—

29 & 30<sup>th</sup> The Hazzard and Tryanaside, Active, and Sally, with Officers and Men, Imploy'd Landing the Artillery and Geeting them up to the fort with the Assistance of the Officers and men Belonging to the Same—On or about the 5<sup>th</sup> of Augs<sup>t</sup> The Comodore Sup'd on Board the Hazzard I herd him Ask'd the Gentlemens at table what advantage it would be to go and take the Enemy's Shipping

After the Ridouts being taken I went In and Sounded the Harbour with 19 men In a flatt Bottom boat there found no Less then 4 fathom watter — upon which I went on a boy of the Enemys Ankor which theay Slip the Second or third day of our Arrivell within Muskett Shott of there Ships and Weighed the Ankor, Send It on Board one of the Transports, the Morning following went and weighed Another at Some distance from there Shipping one Consisting of 20<sup>c</sup>w<sup>t</sup> the Other of 14<sup>c</sup>w<sup>t</sup> with 120 fathom of 17 Inch Cable and 60 fathom of 11 Inch D<sup>o</sup>

About the 9<sup>th</sup> or 10<sup>th</sup> of August, By order of Cap<sup>t</sup> Williams I went with 50 Men on Board the Hamden to man her as I suppose'd to grand Attack the Enem'y About the Same time the Comodore Boats being Imploy'd In Bringing off Loggs to Build a Brest Work on his fore Castle— Before I left the Handam I Perceived It was firnished— After being two days on Board Received Orders to Repair on board of our Own Vessels again—I have Offten Herd Cap<sup>t</sup> Williams Cap<sup>t</sup> Kithchart say that from the first Counsell of war that the Comodore being always preaching Terro Against going In the Harbour to Attack the Enemeys Shipping L

Aug<sup>st</sup> 13<sup>th</sup> At 6 P. ately—I asked him were he was bound with the Brig<sup>n</sup> he answer'd me the fleet was bound up the head of the River—I advised him to beat Round Long Island head and go down the West Side of the Island he told me It was the Orders from the Comodore to proceed Immediately up the River which he must Obey At 3 P.. Aug<sup>s</sup>t 14<sup>th</sup> At 4 P.— M—Generell Lovell Came on board the Hazzard Just below the narrows—when About 2 miles above the narrows Gen<sup>n</sup> Lovell Desired me to take The Boat and go with Major Tod to the Narrows to Enquire after his family that he Supposed to be in one of the Transports, I Immediately Obeye'd with Cap<sup>t</sup> Williams Consent but Could not here of any of them—Returning back I Saw Cap<sup>t</sup> Burk ship to Ankor Above the Narrows After Sun Seet—I asked him the Reason of his Lyeing there when the Remainder of the fleet were Makeing the best of there way up the River—he Ansr<sup>d</sup> me his men had Gone a Shore and he was going to burn his Ship—I Desire'd him not to burn his Ship But that I would go up the River and Send down Boats to assist his Ship up If possable—before I had Got half way to the Shipping up the River.— I perceived he had Sot his Ship on fire, being about 8 in the Evening, then I Proceeded on board

It would be worth wile to Geet Guns Sails Rigger a Cross to Kenebeck, If Could not Save the Ships—=Replied Cap<sup>t</sup> Thomas Cap<sup>t</sup> Carns Cap<sup>t</sup> West the Enemys Ships would be up the River In the Morning about, one In the Morning Arived on Board the Hazzard Gen<sup>l</sup> Lovell Requested Cap<sup>t</sup> Williams to Send his Boat on Board the Comodore=Immediately Sent a Crew and a Officer to Assist him—Cap<sup>t</sup> Williams being Verely Desirous to fortyfy to Protect the Ships But the Private property Ships had Sot the Divell In his People but he pasefyed them again Soon after Cap<sup>t</sup> Kitchart Came on Board and Said his people was In the Same Condition & took the Boat from Long Side without Leave to go ashore but he Ordere'd the Centurys to fire at them and fetch them a board which Accordingly did and put them In Irons

*Statement of John Cathcart.*

Monday July 19<sup>th</sup> got under way from Nantaskett in Company with the fleet, at 9 A M the Commodore sent me orders to make sail & proceed to Portsmouth to inquire for the Ship Hamden At 9 P M came to Anchor of Rye beach, I went in my Pinnace & found that the Ship Hamden had saild the Morning before, I then came on board and got under way, Tuesday 20 About 6 A M. Joind the Fleet, & on Wednesday 21 came to Anchor in Townsend harbour were we found the Ship Hamden & a Number of Troops. On Saturday we hove up & made sail for Ponobscutt, the Fleet in Company, about 7 P M Recev'd orders to go a head of the Fleet in Company with the Hazard to make what Discoveries we could of the Enemy. About 10

p m being Calm we come to Anchor & sent our Boats a shore & brought off 3 Inhabitants & sent them on board the Commodore On Saturday 25 in the Morning the Fleet got under way & run up the River, about 3 p m the fleet came in sight of the Enemy's Forts of Shipping, the Commodore gave me orders to keep upon his Starboard Quarter to carry orders to ships when to come to Anchor, About 4 p m the Commodore went on board a small Schooner & I beleive gave Orders to some of the Ships to run in within gun shott of the Enemy, & fire their Broad sides & run out again wich some of them did & recev'd the Enemy's fire, at the same time the Transports run up about half a Mile from Bagaduce Point & came to Anchor & three Armed Vessels with them—About 7 P M I came to Anchor, the Troops made an Attempt to land but were obliged to come back. Monday 26 About 4 A M the Commodore came alongside & ordered me to run close in shore to cover the Landing of the Troops, At 5 p m the Marines under cover of the Sloop Providence Brigs Pallas & Defence Landed & took possession of Banks Island, were a Battery was Immediately Erected, wich oblig'd the Enemy's Ships to go farther up the River—Wednesday 28 Begun the fire on the a Number days & Indeed most part of the time, after this shore to cover the Landing of Troops, wich was Effectuated for my Sailors were imploy'd in Dragging Cannon up the Hills to the Intrenchments & the Marines on shore with the Troops, till Fryday—August 13<sup>t</sup> when I was on shore at Banks Island to see our Troops march round the Enemys works, at 6 p m I was told that the Signal was out for all Captains to come on board the Commodore, I went down to my boat with Capt Williams & Rowing off I discovered 3 Sail. I went on board the Commodore he mentiond that their was a Reinforcement of the Enemy coming, I asked

him what were his orders, he told me to shift for myself, I then went on board & with the rest of the Fleet got under way when it was growing Calm and being Ebb Tide we were oblig'd to come to Anchor. Next Morning, I went on board the Commodore again were some of the Captains were for going round the west side of Long Island & others for going up the River & make a Stand about 3 p m the Commodore told Capt Williams that all the fleet were to go up the River & make a stand on wich the whole fleet got under way, the Enemy Pursuing us, At about 12 p m came to Anchor, on sunday morning we got under way & run up the River & came to Anchor a few Miles below the falls in Company with the Hazard Sloop Providence & Brig Diligence, I then went on Shore in Company with Cap<sup>t</sup> Williams Hacker & Brown to see if their was any Proper places to fortify & we found Severall that would do—I thinking it most proper to go down to the Commodore, we went in our Boats & went on board the Vengeance were they told us they was going to sett fire to their Ship, we then went down about 3 Miles & met Cap<sup>t</sup> Waters & Cap<sup>t</sup> Holmes who inform'd us that the Commodore was landing his men & was going to sett fire to his Ship, we Returned to our Vessels & found that the Hector Black Prince Monmouth & Sally & Active were—come up & that the three first were landing their men I went alongside Cap<sup>t</sup> Williams, on going on board, all his men came aft & told him that they heard that the Hazard Tyrannicide Providence & Diligece, were to stay & that the Rest were going to leave them to be made Prisoners & they were verry uneasy—but he told them to make themselves easy. I then went on board of my Vessell, were I found my People in the same Situation, as the Hazards & they said they should be kept till they were starv'd or made Prisoners. I desir'd them to be contented

& stay by me that if I should be obliged to go away, I would take care of them so as they should be provided with provisions & every other necessary till they could come to some place where they could shift for themselves this most of them seemed to be easy & contented to stay, very soon after I went into my Cabin & hearing a Noise upon Deck, I came up & found that some of my People had stole the Yawl & were going on shore upon which I ordered the Marines to fire upon them & bring them alongside which they did, I immediately ordered them in Irons. Monday Morning on seeing most of the Ships preparing to set fire, thought it most prudent to order 7 days Provisions for each man for fear we should be obliged to leave our Vessel, I went on board Cap<sup>t</sup> Williams as we had Detachment before to protect our Vessels till we could hear from Boston & Receive orders but the Commodore's Ship & the Ships below being Destroy'd, 3 Ships & a Sloop being on fire at a very Little Distance from us & my men quit uneasy, that I was Compelled to share the fate of the other Vessels.

Townsend—

Embarked. the Troops on Board the Transports—

- 24 At 3 O'Clock in the morning a Signal for Sailing—  
Fleet all got under way—At 9 or 10 O'Clock P M a  
Signal for the fleet to Anchor—Came to Anchor in Pro-  
nobscot Bay upon the North side of an Island—
- 25 At 6 O'Clock in the morning a Signal for weighing  
at About eleven or twelve Clock Cap Brown in the Brig  
Diligence was head of all the Fleet—Sent his Boat on  
Shore Brought a man on board the Commodore which gave  
an Acc<sup>o</sup> of the Enemies works not being Compleated. that  
he did not know wether there was any Cannon Mounted

in them or not and they had about 700 or 800 of Troops and gave Acc<sup>o</sup> of 3 Ships of war and not one of them their Compliment of men —

26 About M: R we Came up to the River Bagaduse, so as to Discover the Ships and their works we saw the 3 Ships in A Line—After our Stretching off and on for some-time the Commodore went on board a Small Schooner Commanded by Cap<sup>t</sup> Parker gave orders for some 1 of our Ships to Stretch into the mouth of the River and fire upon the enemy, which they return'd upon us—At 6 O'Clock

July 26 The Ships came to Anchor of Bagaduse the Small Vessells came to Anchor to the Northwd—

27 In the morning a Number of Captains went on Board the Commodore Seeing the enemy at work erecting a fort on an Island Call'd Banks's Island at the South side of the River Bagaduse which Captain Hacker with 2 other small Vessells took the Marines on Board and the Boats & towe'd near the Island & kept a warm fire upon the Island untill they were Landed which they effected the landing without the loss of a man—

Advancing the works we found 2 or 3 small Cannon unmounted—the Militia took possession of the Island and went to fortifying as fast as Possible—we soon got 2 Eighteen pounders and one 12 p<sup>der</sup> that we soon open'd upon them, which caus'd the enemy Shiping to remove up the River—

28 The Marines of the Fleet Join'd the Troops in landing at an Island on the West Side of the River where the enemy had their Main Fort—At 5 O'Clock in the Morn-ing we landed and gain'd the Ground in Eminence of About 3 or 400 foot, at a thickett of woods—the Enemy

retreated to their main Fort and left a small Battery with 3 Guns at the South Westward of the woods——

29 Our Marines Continud on Shore with the Troops in Building of Forts—There was Three Ships Ordered to the mouth of the River the Putnam Hamden & one more to form a line—I went in with my Ship and took my Station on got Springs on my Cables on which the enemy began to fire— I return'd them the Compliment the mean while no Ship came to my assistance

30 The Warren and some other of the Fleet and got under way and mov'd their birth in at the Entrance of the River then enemys main Fort began to fire upon our Ships but did no great Damage—

31 Firing from each Side but no Damage done The Bow Galley Arrived from Boston Ingraham Master

Aug<sup>t</sup> 2 Rec<sup>d</sup> from the enemy one Shot in our Starboard side—A number of Marines under Comman<sup>d</sup> of General Wadsworth Attack'd one of the enemies Forts which they effected it had 3 Six pounders in it—At day light they were ordered to leave the Fort which the enemy soon took possession off again and play'd upon our Ships—

Aug<sup>t</sup> 2 A Considerable firing from the enemys Fort In the afternoon the Marines were all ordered to Embark—

3<sup>d</sup> Our Troops took possession of a piece of Ground on the left about 2 miles from our main Fort where they was erected to play on the enemies Ships in the River—

4 The Putnam people Assisting in geting the Cannon in the new Fort at the East River to play upon their Ships—

5 Open'd a Fort upon the enemies Shipping

6 Fort still firing upon the Shipping—

7 The Forts still playing upon each Other

2 Brigs belonging to the fleet appear in Sight—

## 8 Burnt a Number of houses &amp; Barns

A Number of officers went on Shore to reconnoitre they where Obliged to quit the boat & leave her

## 9 Our officers and men All returned on Board again without any loss But the Boat—

Some of Our officers went over the River with General Wadsworth to Reconnoitre a piece of ground to lay out a fort we took a Master of a Transport & 4 men who had left there Vessell at Bagaduce— Had a Counsell on Board the Warren Nothing agreed upon Adjourned to y<sup>e</sup> next morning

## 10 At 6 O'Clock Agreed that the Warren the Putnam Hamden &amp; Vengeance should go up the River to Attack the enemies Ships all the Marines in the Ships was to Assist the Troops to Storm one of the Batterys that coverd the enemy from their Forts to the Ships——

## 11 Nothing remarkable——

## 12 The Army all Paraded on Shore—at 12 O'Clock a council was held on Shore and determin'd to Remove the heavy Artillery from the Island and put them on Board the Transports—Afternoon our General reconnoitroing—his people set fire to a Barn—About 5 O'Clock afternoon about 80 of the enemy appeard in Sight our people retreated to the Fort—

## 13 The General in the afternoon went a reconnoitering himself—It was determin'd on Shore by the officers that the Fleet should Attack the enemy—the Signal being made on Board the Commodore, for all the Captains to come on board—then Appear'd the enemies Fleet in Sight a boat was sent on Shore to Accquaint the General of it—All the fleet got under way &amp; came too again

Aug 14 Early in the morning went on Board the Commodore Captains, Thomas, Holmes & myself went down

in the Commodore barge to make discovery of the Ships, we went on Board the Brig: Active and the first Lieut—Accquainted us that he had been down in the morning with their boat & went so near their Ships that he could hear them talk he View'd the Ships and found one of them to be 32 Guns one 24 do & one 20. they hoisted out their boats and sent after him—After Receiving this Intelligence we returnd on Board the Commodore and gave him Acc° of the 3 Ships—as the other so far aStern we could not tell what they was the 3 Ships being then under way & light winds The greatest part of the Commanders on board the Commodore waiting for orders—our orders was to go on Board and get our Ships under way and go round the west Side of Long Island—Soon after I was on Board and heaving up the Commodore haild me and told me to follow the Fleet up the River—the enemy then being about 2 leagues to the Southward of us Comeing in with a gentle Breeze—All the fleet got under way and proceeded up the River——

About 12 O'Clock a Signal was made for the whole Fleet to Shift for themselves——

At 6 O'Clock afternoon a number of Transports was set on fire—At 7 O'Clock we entered the narrows—at 10 O'Clock came to Anchor above the narrows & light winds at 11 Clock weigh'd & towe'd up the River all the Transports & the Sky Rockett then on fire down the river About 4 O'Clock came to Anchor again all the Arm'd Vessells then a head except the Commodore & Vengeance——

Aug 15 About 8 O'Clock got under way & tow'd up the River the Vengeance a Stern weigh'd soon after—At one of Clock we came to Anchor again the Commodore a Stern. Afternoon Capt. Holmes came on board of me we went down to the Commodore soon after. we was on

Board there was Intelligence that there was 4 Sail on the enemy in Chace of the Ordinance Brig which was aboot one mile below the Commodore he being then to Anchor we Ask'd him If he could not get his Ship under way he answered the Pilot would not take charge of her till the Tide made by Reason of her Steering so Bad then he began to land his People in order for to destroy his Ships If the enemy Should Attack him—Cap<sup>t</sup> Holmes and myself then left him—soon after we left him we saw the Ordinance Brig fire we went on to go on Board our Ships—

Aug 16 Four Clock in the Morning I went on Board the Vengeance Saw 2 officers upon Deck all the People was landed the night before they was just going to set the Ship on fire—I got into my boat & went up the River on board the Hazard & found all the Vessels had landed their people and they was landing theirs in order to set her on fire—I left her and came down the River to my Vessell in Order to do the same when I came there I found the Vengeance on fire driving down the River on Board of mine I found my people was landed and I went on Shore to them—

Daniel Waters

The deponent further add that in his opinion it was in the power of Our fleet to have destroy'd the enemy's Shipping without the Assistance of Gen<sup>l</sup> Lovell—I always voted for going in, at all Councils except one when the Commodore Inform'd us the Gen<sup>l</sup> thought it would be of no service, to him but a disadvantage. I never heard the Com<sup>o</sup> at any Counscels say any thing to encourage an attack upon the enemy's Shipping, but always the contrary—

That some time After when he was Removed to the Quarter Gaurd on Shore He was Informed of every vessel there commanders Names that was coming down in the expedition.— That this Last information he Received from some of the Brittish officers—. That while he was Prisoner in the fort In the time of the Last of the Seige— He saw A Brigg come in with crowed sails fier two guns to the Windard which was known by the Brittish to be a Sign of a Reinforcement coming to them—. That either the same or the Next day; the which of the two he is Not certain A Deserter come Into the fort and told General McClane that the Amaricon Troops would Come Round under Majabigwaduce River shore and would Indeavour to draw out the Troops from the fort—. And that when that was affected they would Storm the fort with a party of men who would be kept as a reserve In the wood—. that In concequence of that Inteligence the Brittish did not go out as Usual but mand the Part of the fort which they were Informed would be Attackd—.

He also Affirms that the fort to the Best of his Judgement did not contain more than one Acre and a Quarter and that with their Land forces they could not at most man three sides Alowing there men to be one Yard distant from the Other— (which was their Orders to stand) That thier

walls was not at most more than five foot high — That they had not but two Cannon Mount'd when the Amaricons Land'd — the one to the Water the Other to the Wood —. That it was the General exspectation so far as he could Learn that they should be taken When the Amaricans Landed Both by officers and soldiers

*Statement of Ajdt. Genl Hill Sworn to Sept. 29, 1779.*

July the 2<sup>nd</sup> I receiv'd General Lovell's Orders, to proceed to Falmouth in the County of Cumberland, to receive the Troops rais'd in that County, for the intended Expedition to Penobscott, and to forward them to Townsend the Place of General Rendezvous: the 8<sup>th</sup> I arrived at Falmouth, having previously sent a Letter to Gen<sup>l</sup> Thompson, acquainting him with my Orders, and requesting his Aid and Assistance in forwarding his Troops to that Town, upon my Arrival I found him there with Col<sup>o</sup> Mitchell, who he had appointed

to take the Command, The Troops were collected with the greatest reluctance, so that I recommended martial Power, representing that they were regularly and legally detached as Soldiers, and consequently were subject to martial Law. He agreed with my Proposal, and immediately sent out several Parties to different Towns, that were deficient of their Quota (having first got a Return of the Names & Places of abode of those who refused or neglected to join agreeable to Orders) which in some measure had the desired Effect, some were taken, & brought by Force, some were frightened and join'd voluntarily, and some skulk'd and kept themselves conceal'd, so that that upon the whole I collected as by Return, 433, Rank and File, which were embark'd for Townsend the 16<sup>th</sup>, I then proceeded to Gen<sup>l</sup> Thompson and acquainted him with the Deficiency, he told me he had sent his Orders to his Colonels for the whole, that he would do every thing in his Power to compleat his Quota, and said "if they would not go he would make the County too hot to hold them" one Reason of the Deficiency was this, some officers whose Duty it was to detach the men, constru'd the Orders to include Officers as part of the Detail, some included the men who had enter'd on board the Fleet out of their Towns, for the Expedition and perhaps a short cruise, and some sent Boys, old Men and Invalids; if they belong'd to the Train Band or Alarm List they were Soldiers, whether they could carry a Gun, walk a mile without Crutches, or only Compos Mentis sufficient to keep themselves out of Fire and Water; I then proceeded to Townsend, the York and Lincoln Troops soon arrived there: Their Numbers may be seen by the General Return now on File; much like the Cumberland Troops aforementioned, I represented the matter to General Lovell as soon as he arrived, he wrote to the Brigadiers of the Several Counties

immediately to fill up their Quota's. about the 22<sup>nd</sup> the Troops were paraded, and their Arms, accoutrements &c were examined, I assisted in examining of them as far as came to my Knowledge they were very poorly equipt, the chief of them had Arms but many were out of Repair, and very little or no Ammunition, most of the Officers as well as men quite unacquainted with any military Manoeuvre, and even the manual Exercise: the 24<sup>th</sup> we sail'd for Penobscott, the Fleet having previously arrived: at Evening of the same day we came to Anchor off the Fox-Islands, a Boat was sent immediately to Cambden for Cap<sup>t</sup> Mitchell an Inhabitant of Belfast, who was said to be well acquainted with Majabigwaduce neek, and an intelligent man, he had been previously procured and brought to Cambden by the Generals order, the morning of the 25<sup>th</sup> we made sail and proceeded to Majabigwaduce, I think it was afternoon before we arrived there, 3 Arm'd Vessells and all the Transports pass'd to the westward of the Neek, some of the remaining Shipping made a Circle towards the Enemys Battery (afterwards call'd the 3 Gun Battery) some of which went nigh and saluted the Battery well, with 2 or 3 broadsides, but some I believe were so far off that their Shot never reach'd the Shore. the 26<sup>th</sup> and 27<sup>th</sup> we took Possession of Bank's Island, and secured it, the next Night the Marines and Land forces were reimbarcked, and the Works on the Island left to the Care of Cap<sup>t</sup> Hacker, with Captains Johnston & Edmonds, who covered the landing of the Troops there. about 12 O. C. at Night the General Order'd me to Embark the Troops on Board the Flat bottom'd Boats &c and told me they were to land on the westerly Part of the Peninsula, 3 or 4 arm'd Vessells were hall'd near the Shore to cover their Landing, it being late before the Troops got on board the Transports, and having had no sleep the night before, it was with very

great Difficulty they were embark'd for Landing, how ever about day light the Shipping Order'd to cover our landing began a heavy Cannonade into the Woods, to rout or confuse the Enemy, who were ambush'd there to obstruct our landing, a little before Sunrise the Troops were ready, what were not in Boats were in a large flat bottom'd Sloop which was to land on the left, the Marines and part of Col<sup>o</sup> McCobbs Reg<sup>t</sup> were on the right, & the rest in the Centre, the Right at their Landing receiv'd a very heavy Fire, which lasted about 20 minutes. I landed in the Centre with the General the Troops behaved with Spirit as far as came to my Knowledge, but without any Order or Regularity and it was with great Difficulty, we got them into any Order or Forms of Defence after we had got the Heights. 3 Captains Guards were immediately orderd out about 60 Rods in front of the Place when we meant to make our chief Works, and the Marines at the same Time kept a guard on the right of the whole: Our Fatigue Parties were kept to work day and Night in puting the Heights in a Position of Defence; throwing up a Battery about 60 Rods advanced in which we placed 2, 18 and 1, 12 Pounder, a cover'd way was also made leading to the Isthmus, and a Road cleard, I suppose in case of Necessity to Retreat on to the main, nothing material happen'd, that I can recollect, except a few Alarms, and Gen<sup>l</sup> Wadsworth's throwing up a Battery on Wescotts Point, till about the 10<sup>th</sup> of August, when the General order'd me to parade 600 good men by Detachment or otherwise, to get Volunteers if Possible, at the same Time order'd the Commanding Officers of Reg<sup>t</sup> and Corps, to make Choice of the best Officers to command them, I proceeded to put his Orders in Execution with all possible Dispatch, call'd on Col<sup>o</sup> Mitchell for 200 Col<sup>o</sup> McCobb for 200, Major Cousins for 75 and the new Levies for the remainder, Col<sup>o</sup> Mitchell

got his 200 with great Difficulty including Boys, old men and Invalids Col<sup>o</sup> McCobb got 146 to the best of my Remembrance, upwards of 20 of Major Cousens' Men had that Night deserted and 30 or upwards were sent after them so that it was out of his Power to get his Quota. However he turn'd out what he could, together with the new Levies, amounted in the whole to upwards of 400 instead of 600, which the Officers declared were all they could find, any ways fit for duty, our Guards at that Time consisted of 100 Rank and file exclusive of the Generals, and Quarter Guards, The Notion held up by the Officers and Soldiers at that Time was that they were going to Storm the Enemy's main Works, which I suppose prevented the Officers from completing their full Quotas Numbers of men skulking in the Woods to prevent the supposed impending Danger, Col<sup>o</sup> Mitchells Officers were so terrify'd at the Idea of Storming, that they found fault with the Colonels nomination, and absolutely drew Lots on the Parade, who should go to take the Command of their men, and included those then on Guard, and reliev'd them if it fell to any of their Turns. I have made no mention of taking the 2 Batteries on our Right as that Matter has been fully explain'd by some more immediately concern'd: but more confusion than there was in taking the latter I never saw, I was not active in that Affair, but only stood some Distance in the rear with Gen<sup>l</sup> Lovell to wait his Orders. The extraordinary Manoeuvre of the 400 above mentioned has been fully explain'd by the General. In the morning of the 12<sup>th</sup> the General harangued the Troops in Orders which Harangue may be seen in the orderly Book, the 13<sup>th</sup> a Detachment of Volunteers were order'd to parade and march down on the plain Ground where the Batteries above mentioned were, about 200 of which were march'd round by the shore quite to the back of the Enemy, the rest

were kept in the Edge of the Woods as a Corps de reserve, the General then acquainted the Commodore that he was on the Ground he wished him to take Possession of, and requested him to come in with his Shipping, and some of the Ships got under sail; a Report then prevail'd that there was a Fleet in the mouth of the Harbour; supposed to be the Enemy, as it was very foggy at that Time at Sea; some said it was only the Trees on the Island, that loom'd like a Fleet, However our Fleet did not come in, and a little after Sun down we retired to Camp, about 12 O. C. at Night, I was order'd to turn out a Party of 100 fatigue men, I then understood there was an Enemy's Fleet coming in, consisting of 1 Ship of the Line, 3 Frigates and some other armed Vessells, the Fatigue Party were employ'd in carrying every thing of from the Peninsula, the Troops were also turn'd out to pack up all their Baggage and a compleat Retreat was made on board the Transports, by sunrise or a little after without the least loss or being harased in the least by the Enemy, the Commodore then requested some Troops to go Board the Arm'd Vessells to fight them if possible, Cap<sup>t</sup> White of the Continental Army, a Lieu<sup>t</sup> of the Train of Artillery and myself went on board the charming Sally commanded by Cap<sup>t</sup> Holmes and carry'd with us 29 Men, when we got on Board the Cap<sup>t</sup> was not there, the 1<sup>st</sup> Lt prepared the Ship for Action, the Cap<sup>t</sup> Soon came on Board, order'd the Sailing Master to make all sail possible up the River, said he had been on board the Commodore and must obey Orders. we saild up the River 5 or 6 Miles above fort Point, and had pass'd the Transports as soon as the Enemy's Vessell came near abreast the Transports, the Troops began to land and to Appearance in great Confusion, and by this Time some of the Transports were set on fire, I then told Captain Holmes there would be no fighting on board the Ships that I was

useless there; that the Troops were in great Confusion, that It would require the utmost Exertion of every Officer to keep them in any order, that I supposed the Gen<sup>l</sup> would make a Stand there, and requested to go on Shore to join the Troops, as soon as a convenient Opportunity presented I went, the first person I met was Col<sup>o</sup> Mitchell, I asked him where he was going, he said up the River, I told him to collect his men and keep them together if possible, that I would go down to the Transports, and find out what was to be done & return immediately when I got there, I found Cap<sup>t</sup> Carver Master of the Generals Transport, with his men, some of the Servants of the General's Family with a few scattered men, I enquired where the Gen<sup>l</sup> and other Officers were, they told me they were gone to a House nearby, I join'd Cap<sup>t</sup> Carver with what others I could get any Command of, which were very few, to get up some Provision & Gen<sup>l</sup> Wadsworth soon came along we got up what Provision & we could but Night coming on I went up to the House afore mentioned, enquired still for the Officers, they told me, they were gone into the Woods to Camp, and shew'd me the Way they went, I pursued and found them paraded round the Roots of the Trees & I try'd to get some of them to get up and go out to the House, told them General Wadsworth was there, but all in vain, I ask'd them what they meant to do, they answer'd they meant to go through the Woods to morrow, for Kennebeck, Col<sup>o</sup> Tyler said it was the Generals Orders for every one to take Care of himself and that seem'd to be the prevailing Cry of all, Officers and Men, about this Time Captains Hall and Plummer came out with Candles and wanted to get some of their men to mount a Guard near the Shore I return'd with them to the House and with a great deal of Difficulty I obtain'd a small guard of 6 or 7 men by giving them 3 Quarts of wine which was sav'd from the Transports

the next morning the Officers and men who lay in the Woods came out to the House, after we got some Breakfast &c a Consultation of the Officers was held what to do next, The Men seem'd determin'd at all Hazard to go home, the Provision that was saved would not last more than 3 or 4 Days at most, the Arms, Artillery &c on Board the Vessells all destroy'd, and a considerable Number of men already set off, Captain Burke in the mean Time came along, said he had set his Ship on Fire, that some others were preparing to set theirs on Fire, that the Fleet would be all destroy'd and that the General was gone up the River with the Indians, who were to pilot him thro' the Woods; Under these Considerations it was concluded on to quit the Ground. accordingly about 10 O. C. A. M. we took our departure, General Wadsworth with a Party went for Cambden, I went with the Party for Kennebeck, waited then 3 or 4 days for General Lovell hearing that he was certainly coming that way, he not coming in that Term of Time I set out and join'd Genl Wadsworth at S<sup>t</sup> Georges, thence to Cambden where I found Cap<sup>t</sup> Ulmer, of Col<sup>o</sup> McCobbs Reg<sup>t</sup> who had kept his Company from entirely dispersing and was guarding the Coasts there &c—before the reinforcement of the Enemy came, I often heard the General say in his Marque, that if the Enemy sent a Reinforcement he would retreat up the River, but when they appear'd or at any Time, after I never receiv'd any Orders verbal or written to communicate to the Troops as I remember in particular respecting a Retreat, but always understood they were to retreat up the River, I went on board the charming Sally about 8 O. C. A. M. by the Gen<sup>l</sup> permission after the Troops were all on Board.

Quest<sup>n</sup> Do you know whether the order of the 30<sup>th</sup> of July respecting Col<sup>o</sup> Revere & his Corps's encamping on shore in future was deliver'd him?

Ans<sup>r</sup> I do not know, but the orders usually were deliver'd out by me at about 10, or 11 o,'Clock — since we came to Boston Col<sup>o</sup> Revere asked me whether there were any Orders given for him to encamp on shore I then shew him the orders of the 30<sup>th</sup> of July, he said he had never seen them — I asked him how he got the orders, he said he got them by his Sarjeant, He then said that he sent for the orders that day, that the Sajeant return'd said there was no orders respecting the Train, only that they were order'd to encamp on shore — he told me that he told the Sarjeant he was beforchand of them & said further that he never knew the orders were couched in those terms —

*Statement of Gen<sup>l</sup> Wadsworth.*

The Failure of the Expedition under Enquiry seems to me to be owing principally to the Lateness of our Arival before the Enemy, the Smallness of our Land Forces, & the uniform Backwardness of the Commander of the Fleet.

As to the Lateness of our Arival, I would only observe, that, after being necessarily detain'd in Nantaskett Road, one Day whilst the Commodore was arranging his Fleet & giving out his Signals & the two following, by a Storm &

contrary Winds, the Fleet Saild on the morning of the 19<sup>th</sup> July, for Townsend, that we had not left sight of the Road before the whole Fleet was oblig'd to heave to for several hours to wait for the Ordnance Brigg which was then Standing back & Forth at the Mouth of the Harbour, & that at 8 O'clock the following Evening the Fleet hove to, off Portsmouth to wait for the Hambden which Ship had been sent in for, to join there. The Fleet lay by till morning. The Wind was Southerly & a fine Breeze. These two Delays, tho Short, probably caus'd a Delay of two Days as the Wind & weather afterwards prov'd.

With Respect to what took place at Townsend, I subscribe to Gen<sup>l</sup> Lovells Representation, with this Addition, that at least; one fourth part of the Troops then appear'd to me to be Small Boys & old men, & unfit for the Service.

I also subscribe to Gen<sup>l</sup> Lovells Representation of our Arival & during our Continuance on the Heights of Magawaduce untill the Evacuation; with this Addition that we had, between the 2<sup>d</sup> and 7<sup>th</sup> of August cast up a Redoubt on the Northeasterly Part of the Peninsula near the Marsh; thrown up a cover'd way across the Beach & mostly finish'd a Battery on the high Ground oposite the Neck on the Main, in order to preserve a Communication with the Main, in Case of any Accident to our Shipping—That, twas said there was 234 of y<sup>e</sup> Marines that join'd the Militia at their first Landing & that both they and the Sailors whilst on Shore were under the direction of the general.

After our troops were reimbark'd on board the Transports on the Morning of 14<sup>th</sup> August, it being quite calm, the General gave orders for the Transports to tough up the River with the Tide of Flood, & pretty soon after we were under way, set off with Cap<sup>t</sup> Salter in order to see the Commodore, to know what measures he intended to pursue. A Small

Breeze of Wind a head & the Tide of Ebb, taking us just after the Transports had Pass'd Fort Point oblig'd them to come to Anchor when the Wind dy'd away & left us quite calm.

After issuing Orders for the Companies that had been broken in the Retreat & had gotten on board different Transports, to be collected, also to find out their Baggage & Camp Utencils, & the whole to look to their Arms & Amunition & to be in Readiness for landing at the Shortest Notice; I set out to go on Shore at Fort Point, to put the Hospital in a readiness to be mov'd in Case it should be necessary: but before we had half reach'd the Shore, our Fleet below appear'd to be Standing up the River after us with a Sea Breeze which soon reach'd us. I then gave Orders to the Agent of the Transports (being then within Hail of him) to dispatch a Transport with two Flat bottom'd Boats, immediately to Fort Point to take off the Hospital & to proceed up the River with the rest of the Transports, which was comply'd with. I proceeded on Shore, order'd all the Cattle to be drove off the point up the River & the Buildings to be fir'd; & as we were some what hurried, took Some of the last of the Hospital with the Surgeons into the Boat in which I proceeded up the River.

Our Ships of War were now a little past Fort Point, & the Enemys fore most Ships not far behind. The Hambden, Hunter & a Brigg were cut off below.

We made the best of our way with the Boat & came up with the Transports just below the Narrows where they were very much in a Cluster in the Eddy on the westerly Side y<sup>e</sup> River. One Sloop had run on Shore & more seem'd to be inclining that way. I still proceeded thro' the Transports up the River & gave them Orders as I went by no means to run on Shore so long as they could keep afloat

without drifting down on the Enemy; & as I pass'd the Ordnance Brigg gave orders for a Brass twelve pounder to be in Readiness in a Flat Boat whilst I sought a Place up the Narrows convenient for hawling it up, in order to check the Enemys Pursuit.

At this time the Foremost of our Vessels of war were passing the Transports, & there appear'd to me to be a Fair Opportunity of Saving our whole Fleet, had some of our heaviest Ships been order'd to form a Line a little below our Transports to have Stop'd the Enemys foremost ships in their pursuit. The Wind was then dying away for the Evening & the Tide of Ebb very strong, so that their heavier Ships could not have got up to their Assistance till the next tide.

When I had discover'd a convenient landing for the Cannon up the Narrows, I immediately return'd (meeting by the way Major Couzens the Commanding Officer of the York Troops who had the chief of his men with him, & one of Col<sup>l</sup> Mitchells Field Officers, whom I directed to march up the River with their men & to keep abreast with the Shipping) on coming in Sight of the Transports, found them chiefly on Shore in a Cluster & on fire. The Enemy at Anchor almost abreast with them.

A Small Schooner in which was the greatest part of our Provisions was then in the Strength of the Tide drifting down on the Enemy; it was in vain that a Number of Boats were order'd to tough her across the Stream & with much difficulty that a Boat was got off to take out her Crew. In this I was directly oppos'd by Lieu<sup>t</sup> Col<sup>l</sup> Revere who said that I had no right to command either him or the Boat & gave orders to the contrary. The Boat went off to the Schooner. He was promis'd An Arrest as soon as the Army should be collected. The Reason L<sup>t</sup> Col<sup>l</sup> Revere gave for

the Boat's not going off to the Schooner, was that he had all his private baggage at Stake & askd who would thank him for loosing that, in attempting to Save the Schooner to the State. I ask'd him whether he came there to take Care of his private Baggage, or to Serve the State.

I then endeavoured with the Assistance of some Officers I meet at the Shore to collect the Troops in order to get what Stores could be sav'd from the Transports before they burnt & to defend those that should not take fire from being carried off by the Enemys Boats; but this was not practicable. The Troops were cheefly dispers'd or gone back into the Woods & the rest not to be commanded. By the help of a few Individuals, chiefly Officers, a small Quantity of Provisions & Amunition was got on Shore

This bro't it towards ten oClock in the Evening & there being no prospect of doing any thing to purpose at the Shore, We retir'd to a House on the high Ground about a Quarter of a Mile from the River, where we meet about 20 Officers & soldiers & continued till Morning.

In the fore part of the Night one of the Ships of War was fir'd in the Narrows. The Ordnance Brigg drifted up the River with the Tide of Flood.

Early in the Morning I gave orders to collect the Troops: but few could be found, & the greater part of those when they found there was Orders for Halting, suddenly took themselves away Some with and some without their Officers.

About eight oClock in the Morning there was a Collection of a Number of Officers amongst which was Col<sup>ls</sup> McCobb & Tyler, Lieu<sup>t</sup> Col<sup>l</sup> Howard, Majors Brown & Hill with several Captains & other Officers. It was the Opinion of those Gentlemen that nothing could be done to any purpose, with the men remaining on the Ground. (there being only about 40 of Col<sup>l</sup> McCobs Regiment which I think were all

the Land Forces then left) And it was said, I think by Col<sup>l</sup> Tyler that the General had given orders for every man to Shift for himself. Yet they said they would not march off if I gave Orders to the contrary; tho' the men they believ'd could not be retain'd in any Case.

I was then sending an Officer up the River to Gen<sup>l</sup> Lovell to take his orders upon the matter when I was inform'd that the remaining part of our Fleet, by that time was nearly at the head of the Tide & were blowing up. Concluded that the detaining the Officers without men could answer no valuable purpose, on which we parted.

After this I set off in Company with Cap<sup>t</sup> Burke & part of his Seamen, with a number of others for Cambden. As to what pass'd after I arriv'd there I suppose it does not respect the Failure of the Expedition.

Peleg Wadsworth B Gen<sup>l</sup>

The Uniform Backwardness of the Commander of the Fleet appear'd in the several Councils of War at which I was present; Where he always held up the Idea that the Damage that his Ships would receive in attempting the Enemys Shiping would more than counterbalance the Advantage of Destroying them. Since the destruction of those Ships would not give us the Possession of the Enemy immediately. It was urged by the Gen<sup>l</sup> that this was a necessary Step towards their Reduction. His Answer was in General, what would be atchiev'd by his Going in to the Enemys Shiping, & towards the latter part of the siege the Storming of their principal fortress by Land was made the Condition of his Attacking them by sea. I believe that the Enemys Ships might have been destroy'd at any time during the Siege (wind & tide permitting) especially after the reduction on the Battery on y<sup>e</sup> first of August.

Ans<sup>r</sup> I am not positive that I asked for him, but had thoughts in my Mind why I had not seen him there at the fixing the Batteries—I believe I asked Cap<sup>t</sup> Cushing's advice about Making the Ambrasures—I well remember that the next day Col<sup>o</sup> Revere Chaulked them out———

Quest<sup>n</sup> Whether Col<sup>o</sup> Revere was missing on Shore?

Ans<sup>r</sup> I saw him but seldom on shore during the first week after our landing—

—— Questions asked by Col<sup>o</sup> Revere ——

Ques<sup>t</sup> Do you recollect my carrying you to a place & showing it as a proper one for getting up the Cannon & cutting a Road—

Ans<sup>r</sup> I remember being on a Bank with Col<sup>o</sup> Revere and pitching on a place to get up the Cannon, where we afterward got them up

Ques<sup>t</sup> Do You remember sending for me to go to an Island to the Eastward of Hackers Island to find a post to annoy the enemy's Shipping?

Q Did you say or hear Gen<sup>l</sup> Lovell say that if the seige Continued seven years, if it was possible to avoid it he would not order Col<sup>o</sup> Revere to take any Command—

Ans<sup>r</sup> I have no recollection of the sort, or even that it ever was in my Mind,—if I had said it, 'tis probable it would have left some traces in my mind—

## Questions asked by the Committee—

Q. Did you during the seige discover any inattention or backwardness to duty in Col<sup>o</sup> Revere?

Ans<sup>r</sup> I did not see him so frequently in Camp as I expected—This was in my mind in the time of it—His sentiments & opinions “where there was a division of Voices,” were always different from mine—I remember that he was against taking post to the East of the enemy's Main fort—

Ques<sup>t</sup> Did you ever propose to the Gen<sup>l</sup> before the arrival of the enemy's reinforcement, that it was proper to determine upon the Mode & place of retreat in case of the arrival of a reinforcement

Ans<sup>r</sup> I did—

Ques<sup>t</sup> Was any such measure ever determin'd upon previous to the arrival of the reinforcement—

Ans<sup>r</sup> Nothing except securing our retreat off the peninsula I asked the General whether I should go up the River & see where the Ground was convenient for covering the Ship<sup>s</sup> from the enemy in case they should be reinforced He said we had no forces to spare in case we view'd the Ground that could do anything that way

Being at Fort Pownal, on board the Brig<sup>t</sup> Samuel, — — —

We had a Breeze from the Southward, and made sail up Penobscot River — — the Armed Ships, followed astern — and pass'd me in the Narrows; after which, finding no assistance, I asked Coll. Davis, What I should do? — he answered me, that He did not know what to do! — — I told him that I would keep a Boat in reserve for myself and five men which I had on board; (for all the rest of the Artillery being about fifty, were determined to go on shore) — and that I would use my Endeavours to get up after the fleet. — But finding the Wind fail me — and a strong Current under foot, — the Enemy's Ships, at the same time drawing nigh, — I thought it best to run ashore upon the West point of the

Narrows— And as I went on shore, finding two Vessels in flames along Side, and no assistance, I concluded of Course, that the Samuel must certainly have catchd on fire.— For which Reason, I thought it best to go on shore myself, leaving all Sails standing to keep her pressing on shore, with the Anchor down; but not having sufficient Scope when the tide rose—and she not catching on fire floated and draw up the River in the night—

*Statement of Lieut. Downe.*

Monday July 19<sup>th</sup> the fleet saild from Nantaskett, & after putting in at Townsend to Collect the land forces, we arrivd on Saturday 24<sup>th</sup> in Penobscut Bay, at about 7 P M: the Commodore sent Cap<sup>t</sup> Williams & Cap<sup>t</sup> Cathcart with their Vessells, a head of y<sup>e</sup> fleet to make discoveries, about 10 ° P M being Calm we came to Anchor Cap<sup>t</sup> Williams sent his boat alongside of us with a Lieut & 15 Men Arm,d & Cap<sup>t</sup> Cathcart sent our boat with our 2<sup>d</sup> Lieut and myself with 12 Men Arm,d we went ashore at Fox Island, & pretended to be British Sailors, & that we belonged to the Brig Hope——we went to several Houses & after some Conversation with the People we thought proper to bring three of them off to our Captains, who after examining them, sent them

on board the Commodore—next Morn<sup>g</sup> 25<sup>th</sup> made sail & run up the river, about 3 ° P M came in sight of the Enemys Fort & Shipping, when we got of the mouth of Bagaduce River, the Commodore haild Cap<sup>t</sup> Cathcart & orderd him to keep on his Starboard Quarter, to carry orders to the Ships when to Anchor, as there was no signal to come to Anchor by Day; soon after the Commodore hove too with his Main top sail to the Mast, & the other Ships follow,d the Example, while the Transports with three Armd Vessells, run up, off against the Bluff head of Bagaduce, & anchord, about this time several of the Ships run in & fired their Broadsides at the Enemy & they returned it without any Damage on either side of any consequence—except, encouraging the Enemy was a damage to us, & this Maneuvre was the most encouraging to the Enemy of any thing we could of done at that time, at least if I had been amongst them I should have thought so—— about 7 ° P M came to Anchor.. the Troops attempted to land but were obligd to return on board the Transports, next day 26<sup>th</sup> at 12 °Clock Cap<sup>t</sup> Cathcart orderd me to get my Marines ready to land, which I did & about 5. P M landed on banks Island, which the Enemy left Precipitately—next morning 27<sup>th</sup> the Marines were orderd on board the Different Vessells, and a Councill of War held on board the Commodore, about 3 P M. Cap<sup>t</sup> Cathcart orderd me to get ready to land at Midnight 28<sup>th</sup> about 1 ° in the Morning I went in the Boats with my Men & about 3 Landed on the Bluff head of Bagaduce and after receiving several very severe & heavy fires of Musquetry, we drove the Enemy, from ground which I think they might have kept for ever, if they had chose to defend it—as soon as I got up the Hill I pushed on with my Men, after the Enemy; till I had got to the Edge of the woods in plain sight of the main Fort of the Enemy and which at that time was scarce-

ly 3 feet High on the N<sup>o</sup> West: & North part of it & considering the confusion they must have been in & the ardor, which our troops were animated with, If the Ships had Attacked the Enemy at that time, so as to have prevented the land forces from receiving any succor from the fleet, we could have very easily have carried the place that Morning, &c I have the greatest reason to think our loss would have been Inconsiderable—but as the Ships did not go in, the land forces were obligd to Encamp in the woods, where we lay several days before any thing material happend till one Night the General orderd a Body of Militia to parade at a little Battery we had taken from the Enemy, the Marines were also orderd down & a body of seamen from the Different Ships—the Object was to storm a Battery of the Enemy—in the following form the Marines under Cap<sup>t</sup> Carnes on the Left—the Seamen on the Right, & the Militia under Col. McCobb in the Center the whole commanded by Gen<sup>l</sup> Wadsworth we attackd the Battery & Carried it, but by reason of Irregular proceedings of the right wing we lost more men than we might or ought to have done—a few days after this the Marines were orderd on board—and nothing very material happen,d untill, I think about the 9<sup>th</sup> or 10<sup>th</sup> of August when In consequence of the Result of a Council of War, Cap<sup>t</sup> Cathcart orderd me to get my Marines ready to go on Shore again—at the same time our first Lieu<sup>t</sup> & 24 went on board the Ship Hampden, our 2<sup>d</sup> Lieu<sup>t</sup> & 15 Men on board the Ship Putnam & I went on Shore with 25 as good Marines as ever walkd a Vessells deck. every Officer & Man on board of our Vessell seem,d animated with a fresh flow of spirits, on thinking that we were to make a general attack.—on my arrival on Shore I found about 120 Marines In all; commanded by Cap<sup>t</sup> Davis & going up a little farther, I saw General Lovell, with his aids Adj<sup>t</sup> General

& about 500 Men—after manœuvring a little, the General sent Major Brown & 2 other Majors with about 200 Men to endeavour to draw the Enemy out from their Works after parading some time in full view of their Fort, the General threw out a Signal for them to retire back to the main Body, which they accordingly began to do and just as they began the Retreat a Number of the Enemy who had been conceald from our troops, rush'd out & gave a fire upon our Men who Broke immediately & it was not in the power of the Best Officer in the World to have rallied them—nothing more was done that day, or the next—till the 13<sup>th</sup> when the Marines & some of the land troops went round & took possession of every advantageous peice of Ground between the Enemys fort & shipping, this Post the General was determind to reinforce & hold, & he Immediately sent word to the Commodore that he had got the Ground He wanted & would desire him to begin the Attack on the Enemys ships directly had this been done Immediately we should have carried the Place but instead of beginning the Attack the Signal for all Captains was Hoisted, although it had been agreed on, (if the General could secure that ground which he then had in Possession,) that the ships should attack the Enemys Shipping but it is an Old, and very true Maxim, “delays are dangerous,” & so the event prov,d for the Enemys Reinforcement hove in sight and our troops obligd to Retreat from the Shore & our fleet obligd to run up Penobscut River, and our most sanguine hopes of expectation of conquest, ended in the general Conflagration of our Fleet

*Testimony of Capt. Philip Brown.*

July 15<sup>th</sup> 1779 Rec<sup>d</sup> my Orders from the Hon<sup>ble</sup> Navy Board, to Join the fleet bound to Penobscot Under the Command of Dudley Saltonstal Esq<sup>r</sup>, & there to put myself under his Command.—

the 17<sup>th</sup> Dropt down to Nantaskett Road —

19<sup>th</sup> Sailed from Nantaskett.—

22<sup>nd</sup> Arriv'd at Townsend.—

Sunday 25<sup>th</sup> Arriv'd at Penobscot Bay, at 6 A: M: the fleet got under way bound up the Bay, at 9 A: M: I Receiv'd orders from the Commodore to make sail, & run up a Head of the fleet to see what Discoveries I could make; & to get what Inteligence I could. I directly made all the sail I could set, & in going up Clear'd Ship, all Hands to Quarter, & Ready for Action; as I Imagin'd (by what I heard the men said which Cap<sup>ts</sup> William's & Cethcart had taken from the Island) that we should push in Imediately without Loss of Time:—I Run up open to the Enemies ships, & Bateries, Imediately at my Geting up Three men came down to y<sup>e</sup> shore, Waving their Hatts as Signals for us to take them on Board, I mann'd my Boat & order'd Each man a Musquet for fear that they Might Meet with some Difficulty in bringing off the above men; as the Enemy were a short Distance from the Place where we were to land I Examin'd the men that my Boat swain had before Inform'd me that one of them had been in the Enemys Lines a day or Two before; I think to the best of my remembrance they told me that the Enemy ware Four Hundred & fifty, or Five Hundred men Strong on shore. Their fort was not half finish'd; & by the Accounts which they gave me I thought it would be a very easy Conquest.—I then Went to the Commodore, and when alongside of him,

I Sent the men (I had taken from the shore) on Board, (y<sup>e</sup> Commodore) after some time the Commodore ask'd me what I thought about going in; I Replied there never was a better Opportunity & that they would soon be our Own—to which the Commodore answered, that none but madmen would go in before they had Reconoitred, & it would be the Hight of madness to attempt it.—I Receiv'd orders from the Commodore to speak the Transports & order them to an anchor under Cover of some Arm'd Vessells.—The next morning at 9 °Clock received orders from the Commodore to put to sea to Reconoiter the Coast. The 28<sup>th</sup> at 6 A. M. saw a sail, gave Chace; at sun down came Up with the above sail & found her to be a Schooner from Halifax with Dispatches for Gen<sup>l</sup> McCleane,—which Dispatches had been Destroy'd by the Commanding Officer on Board, who was a Midshipman belonging to the Blonde Frigate,—who inform'd me that the Blonde Frigate, & Hope Brigg, had both sailed for New York (a fortnight before) & that they were look'd for every Moment, with money to pay off the men and that transports were all ready at Halifax to take his friends on Board for Penobscot, writing him that there ware some ships that ware Expected there from England. I made all the Dispatch I could Back to Penobscot it being thick weather, & but small winds I did not get up till y<sup>e</sup> 30<sup>th</sup>—went on Board the Comm<sup>o</sup>dore then with my Proceedings.

I took a man with me / Between 9 & 10 °Clock in ye Evening found him on his bed in his Cabbin told him what the Midshipman told me—he said he was fatigued & would examine him at another time.—The Commodore told me that I must go to sea again Imediately, I Desired him to let me have the Liberty to go after a Ten Gun Schooner that Lay in a Harbour a Little to the Eastward of us; the Commodore Said that she was not worth going after, but

it was of more Consiquence to look out for a Reinforcement, & to give him the Earlyest Notice Possible:—The 31<sup>st</sup> Got under way the State's Brig Active, & Schooner Rover, (belonging to Salem) in Company, Cruiz'd till the 6<sup>th</sup> August then Return'd to the fleet, was ordered out again Imediately did not come to an anchor; Cruiz'd till y<sup>e</sup> 10<sup>th</sup> when I Return'd; Receiv'd Orders from the Commodore to put to sea again;— Saturday 14<sup>th</sup> at half after Two P. M: Discover'd five Square Rig'd Vessels, (the weather someting Hazey) Spoke the Active, & Rover; Cap<sup>t</sup> Parker (of y<sup>e</sup> latter) told me that he had heard of them 3 Days before but it being so thick, and light wind, he could not get in before. I Imediately Bore away for our fleet, (made all the sail I could pack) when near enough to be seen made the Signals that was ordered in Case of Seeing any Ships in the Bay.—Came to an anchor that Night, the next Morning Saw the Signal for all Captains to Come on Board y<sup>e</sup> Commodore, was preparing myself to go on Board the Warren, when the Commodore's boat with One of the Lieut<sup>s</sup> came on Board, who Inform'd me it was the Commodore's orders that I should get under way, & Look down the West Side of Long Island. which I imediately Complied with; Sent my Boat & Six men to Discover if any of the Enemies Ships were Coming up y<sup>e</sup> West Channel; at 2 P. M: saw the Enemies ships Standing up the Bay in the East Channel & none in y<sup>e</sup> West with a fresh of Wind;—all our Arm'd Vessels got under way, some of them made for the North end of Long Island as If they Intended to go Down the West Passage;—When I found the Vessels (or Biggest part of them) ware Setting their Steering Sails & making off before the Wind up the River, I got under way, Determin'd to share with my Commander, & Obey such orders as might be given me by my Superiors;—I saw that every Vessel was

making the Best of a bad Bargain & indeavouring to get up the River as fast as Possible,—took Pattern by y<sup>m</sup> & for fear of being run over (being a small Vessel) run as fast as my Neighbours.—When Ariv'd to the Head of the River came to an Anchor about Two Miles below the Falls; where Cap<sup>ts</sup> Hacker, Williams Cethcart, & myself went on shore to pitch upon a Place of Ground to fortifie, & Defend our Vessels as long as Possible,—but did not determin on any Place!—Concluded to go Down the River to look for the Commodore, in Company with the aforementioned Gentlemen.—The first ship we came to was y<sup>e</sup> Vengeance & to our great Surprize found they were Landing their men in order to leave their ship, I ask'd them what they ware about, they Answer'd that they ware bound Home, as there was a Road a Breast of their ship that led Straight through the Woods;—I Ask'd y<sup>m</sup> weither they did not Intend to Stay with us & Defend our Vessels, Answ<sup>r</sup> was made that their People was Very Uneasy & Came for no longer Seage than Eighteen Days, and would Stay no longer, their Time being out;—We then Proceeded Down in Search of the Warren, after Rowing 5 or 6 Miles Saw a Vessel Blow up which we Imagin'd to be the Warren however we pusht forward & met with Cap<sup>ts</sup> Waters, & Holmes, who Inform'd us that they came from the Commodores ship; that the Vessel which we saw Blow up was the Ordenance Brig; that the Com<sup>dore</sup> had Landed One Boat load of men & was Determin'd to Blow the ship up Imediately;—therefore thought it needless to proceed any further; Got on Board soon after Dark, when I ordered my Master to give the people Cloth to make them Knapsacks to put their Provision & Cloaths in;—about 11 P: M: Cap<sup>t</sup> Hacker Call'd to me & Inform'd me that the General had come up from the Commodore & Desired that we might send our Boats Down to tow him up;

I sent my Boat with an Officer & Six men as soon as Possible;—The news of the Commodores being like to get up put new Life in my Officers, & men, & wish'd for nothing more than to fortify, & Defend our Vessels!—The Next Morning to my great Surprize Saw one of the Transports on fire, Soon after the Ship Black Prince was set on fire, without any orders I believe from any one that had Command; which set fire to the Ship Monmouth, a Number of Vessels not having any men Landed, & the Ships on fire within half Musquet Shot of them and their Guns loaded! I thought myself in as much Danger as if I had an Enemy to Engage;—I Immediately went on shore to get some Boat or flatt to get Cap<sup>t</sup> Hacker's men on shore, (he having no Boat along side) got a Lighter on Board him.—The Hazards People Crying out for god sake to Fetch them off a Boat (to get ashore) as they had none alongside & Expected every moment to be sett on fire by the Two ships that ware on Fire;—after Calling in Vain for Some time for some person to Assist me in getting a Boat in to the Water (as they all Lay a Ground) was at Last Assisted by General Lovell & my own Carpenter;—with my Own Carpenter went on board the Hazzard to relieve the People, they Inform'd me that their ship had Caught fire from the ships (thet was on fire) but they had put it out again:—

Before I landed my men the Carpenters Mate & One of the People came on Board me from the Warren (& Inform'd me that they were all Hands Ordered on shore the Night before, the Warren then laying Twelve, or Fifteen Miles below us) these Persons I suplied with Provisions & Cloaths.

Commander Continental Brig<sup>n</sup> Diligent—

The Deponent add that it is his opinion that Our fleet might have destroy'd the enemys Ship<sup>s</sup> without the assist-

ance of Gen<sup>l</sup> Lovell at any time before the arrival of their reinforcement, or compell'd them to have destroy'd themselves — also that if the Ship<sup>s</sup> had been destroy'd it is his opinion that a junction of the Land army & Navy might have forced the enemy's works —

*Statement of Major Todd.*

The following are a State of Facts Respecting the Penobscot Expedition —

On the 2<sup>nd</sup> of July last I Received Orders from Gen<sup>l</sup> Lovell to Repair to the County of York and at the Town of Wells in that County receive the Troops raised for the Expedition against Penobscot.

I arrived there the 6<sup>th</sup> delivered dispatches to Brig<sup>r</sup> Gen<sup>l</sup> Frost and likewise (from him) to several of his field Officers.—From this date to the 12<sup>th</sup> I expected hourly to Receive said Troops but finding none Rendezvous'd I dispatched Expresses to Gen<sup>l</sup> Frost & the Com<sup>dr</sup> of Regements requesting in the strongest terms that they would comply with the Orders of Council respecting the above Expedition — On the 13<sup>th</sup> I had Received from the whole County only Sixty Men, several of which were bro<sup>t</sup> by force of Arms.—On the 14<sup>th</sup> I Received orders from Gen<sup>l</sup> Lovell to March by Land to Cascobay and on the 15<sup>th</sup> I set out with One Hundred and Thirty Men and on the 17<sup>th</sup> arrived there, where I found transports for our Reception.—

As it may be of some consequence to know whether the Militia officers of the County of York did expedite and Comply with the orders of Council or other Superior Officers, I lodge a Copy of the number to be Raised by each Company in that County, & the Names and Number of Each Marched and delivered to me from the 6<sup>th</sup> to the 16<sup>th</sup> — - — As soon as the Transports were prepared we embarked our troops and Notwithstanding all this Difficulty arrived at Townsend before the Fleet from Boston. The fleet however the second day appeared of and on the 24<sup>th</sup> we sailed for Majabigwaduce off of which we arrived the 25<sup>th</sup> — and that Evening endeavored to Effect a landing but on Account of Unfavorable Weather we were obliged to desist — On the 26<sup>th</sup> We took possession of an Island in the entrance of Majabigwaduce River. the Enemy preceptitally leaving that post and the next day we had a Battery Erected containing 2 .18 p<sup>rs</sup> 1 . 12 p<sup>rs</sup> & 1 Howitzer The Enemies Shipping in the course of the Night slip'd their Cables and Run up the River.— On the 28<sup>th</sup> According to Gen<sup>l</sup> Orders —a Gen<sup>l</sup> assault was to be made on the Penunsula,— This was to be effected at Sunrise but the time elapsed on account of the Backwardness of some of the principal Officers.—

It ever has been my Opinion that the force we had to Oppose on our landing (had these Officers been dextrous) would not have been so great; they would not have had had time to time to have Reinforced their pickett.— The landing was Made & we Received a heavy discharge of Musquetry, the Repetition of which was for near 20 Minutes without Intermission' and the success of that Assault was as much owing to the Gen<sup>ls</sup> ordering of all the boats as soon as the Troops disembarked as to the Personal bravery and Resolution of the Officers and Soldiers. Yet there was some Unworthy this Sentiment and who behaved with the greatest

Fortitude.— The shipping had fired a little at the Enemy and the Morning of the landing for a few minutes furiously cannonaded the ground to dislodge them on which we were to take post, and to facilitate our landing— As soon as the Height was gained intrenching tools &c were forwarded and we began to form lines in case of being Attacked and to Erect Advanced Batteries— On the 29 Buisily employed in finishing some small works, the Gen<sup>l</sup> out all day Reconoitring. — 30<sup>th</sup> Got up almost an inaccessible hill sundry pieces of Cannon, And on the 31<sup>st</sup> — our lines then being in good order the Gen<sup>l</sup> told the Commadore he was Ready for further Movements.— but he hesitated about the Risque of entering the Harbor with his Shipping on Account of a Battery by the Water edge of three six pounders only— Orders this Evening were given for a party of Troops consisting of land & sea forces to hold themselves in Readiness and towards Morning— August 1, Gen<sup>l</sup> Wadsworth with these— Troops attacked and carried the Battery. We Remained on the Ground till daylight but it did not appear possible to hold a post at that part of the Island till the Shipping was taken or demolished, for no Retreat or Communication could be Commanded by any other post from this quarter except along the Beech where the Enemies Ships lay—from this circumstance it was tho<sup>t</sup> most Adviseable to Retire.— Nothing now to Obstruct Our Shipping except the Enemies Cittadel, the distance of which was from Channell Nealy One Mile And from the situation of the Ground it appeared evident to me that the ships could not be Annoyed in their Hulls except by a Random shot, nor could they Receive any damage in their Rigging except from the same and part of this Risque only continued while entering the River for the ground Assended from the Enemies Cittadel at one place in such a Manner that towards the Latter part of the seige

they extended their Works on the South corner of their Main fort in order to command that part of the Penunsula & chanel which was before not exposed in which work was placed one 12 p<sup>r</sup> and a field piece—

The Enemies Ships lay across the River, but had taken out Most of their Guns for the land service several of which then lay on the Beech.—The 2<sup>nd</sup> 3<sup>rd</sup> 4<sup>th</sup> & 5<sup>th</sup> some part—Rainy the Troops employed in building hutts for the security of themselves & Amunition. The Gen<sup>l</sup> exceedingly uneasy that the Shiping, do not enter the River a large Fatigue party employ'd to throw a Work up near to a Marsh, in order to suport a communication with the Main. The Captains of the Private Vessells of War very dissatisfied with being at Penobscot and I expected them to leave us however the Marsh being now well secured a Retreat to the main was at any time in our power therefore loosing them caused no violent Apprehensions. The Gen<sup>l</sup> daily impatient, Wrote to the Commodore Requesting whether he w<sup>d</sup> go in to the River and attack the Enemys ships——Am unacquainted with the Ans<sup>r</sup> Rec<sup>d</sup> Some officers Conduct in my Oppinion very unsoldierlike, Some Com<sup>drs</sup> of Corps seldom with them. Cap<sup>t</sup> Goodwin of Barwick unworthy of a Comm<sup>d</sup>

From the 6<sup>th</sup> to the defeat constant Councils—Several small scrimishes, a covert way made of the Marsh—which was a secure Retreat several diversions made to draw out the Enemy which ans<sup>d</sup> effectually but was so unhappy as not to have spireded exercions take place, the Troops not Regarding the orders of their Officers—The Gen<sup>l</sup> still expressing his surprise that the Enemies Ships were suffered to lay unmolested by the Commodore, it was not possible for the land forces to attempt anything further except to storm, without the ships were destroyed.—And in that case there

seemed to be a great prospect of success.— This prospect, an Assent exceedingly dangerous to be Reassumed again.— lines of defence made, and a Retreat to the Main secured in my Opinion.— Made it appear to me that the greatest exertions should be used and that the Army at almost every hazard should hold that post 'till the daily Expected pleasure of Council was known.—

The Gen<sup>l</sup> very Assiduous in trying his Troops and we different times experienced them to be Raw & undisciplined — By far too many Boys and Aged: However it was Resolved, by the Gen<sup>l</sup> on the 13<sup>th</sup> to make one determined trial with them And he Personally took the Command the Gen<sup>l</sup> took the Ground he wanted & despatched a Message to the Commodore, Informing him that if he would enter with his shipping he would maintain that Ground at the Risque of his army At 6 O'clock P: M: I inform'd the Gen<sup>l</sup> that I discovered Five or Six sail of Ships off Fox Islands—for some time it Remained a doubt it being foggy but towards the Close of the day intelligence arrived. The gen<sup>l</sup> ordered a Retreat to our lines and at 12 that Night had information of their being Ships of Force— The Gen directed the Army immediately paraded Ordered the Art<sup>y</sup> & Stores on Board the Transports directed that Fatigue party secure the Entrenching tools which with every other article of consequence was on Board by day light, by Sunrise the Troops were the same and Orders were given to proceed up the River.— The Tide being upon Ebb & very Calm it could not be Effected but with the next tide proceeded as fast as possible

When we had arrived Opposite Fort Pownal Gen<sup>l</sup> had information by Cap<sup>t</sup> Salter that the Commodore was very much dejected and as the Troops were then Six or Seven

Miles above the Armed Vessells and expecting the matter would in some Measure be dispirited of MajaBigwaduce there appeared to be no danger of any Misfortune..— The Gen<sup>l</sup> therefore Committed the Care of the Transports to Gen Wadsworth. & Requested him to go on shore at Fort Pownal and see if that was a proper place to fortify. giving orders at the same time to the Troops Respecting their Conduct —

The Gen<sup>l</sup> proceeded down the Bay to Encourage the Commodore in his distress and I attended the Gen<sup>l</sup> on board of the Warren — where we found him seemingly in low spirits and was told that they (the officers of the Navy) had concluded to Run up the River and was then a getting under way, the Enemy's first division of Shipping being at the distance of Two Miles with a fresh breeze from the southward and under full sail,—finding this to be the Case Informed the Gen<sup>l</sup> and he express'd his surprize at the Movements being Just Resolved on, The Warren then had but little wind—the Transports above lay Becalmed, and The Gen<sup>l</sup> Hastened to his Troops to give further directions, but before we could Reach them the Breeze increasing the Armed Vessells came up with us Cap<sup>t</sup> Williams took The Gen<sup>l</sup> on Board the Hazard — and as soon as we came abreast of the Transports I was directed to take the Boat & carry orders to the Transport Sally. ! That they should not destroy the Vessell while out of Pistol shot of the Enemy, and In case the Enemy cut them off & they Obligated to go on shore that they should Repair up the River to the Hazard where the Gen<sup>l</sup> then was from the time of my leaving the Hazard to my getting to the above Transport, where was the Gen<sup>ls</sup> Bagage, & my own & the Rest of the Gen<sup>ls</sup> Family. I Observed that the transports must inevitably go ashore or come to anchor-. — I therefore tho<sup>t</sup> it adviseable to secure

the small necessary baggage belonging to the Gen<sup>l</sup> but not by any order or attention that was paid to it by him

I Returned to the Hazard and in the Evening. was ordered by Gen<sup>l</sup> Lovell to Return to the Transports that then were left at Sandy point some at Anchor some aground Some in Flames and others near the same Ruin.—The Fleet did not offer to protect the Transports,—The Ships Hunter & Hamden & the Brig defence were cut of from the fleet before they could Reach Fort pownal.—When I arrived at the Transports along with L<sup>t</sup> Little the Troops had entered the Woods and could not be found.—therefore the orders I had Received from the Gen<sup>l</sup> Viz to order them up the River was out of my power to Execute and I Returned on Board the hazard that evening, only learning that Gen<sup>l</sup> Wadsworth was with them, On our Return as we passed the Ship Sky Rocket L<sup>t</sup> Little Asked Cap<sup>t</sup> Burke what he designed doing, Cap Burke ans<sup>d</sup> Burn my Vessell, my men have left me and she is aground —We desired him to keep her if possible with which he seemed to agree, but in less than half an Hour we discovered her in flames the Enemies Ships laying their at near one Miles distant

Sundry Boats likewise from the Enemy's Ships took away a Schooner from very near the Commodore without Molestation The Ordnance Brig on board of which was our Ordnance. Stores Artillery Corps and indeed great dependence for future defence was left among the Transports and with all sails set cleared herself the following Night & Run several miles up the River, strict attention was not paid to her by those under whose care she was nor by the Commanding Officer of our Artillery—for had the stores been secured by that corps & they kept together the defence up the River would have been facilitated much

The next morning at day light the Gen Hastened down to the Transports or Rather to find his Troops that had left them & give me directions to collect such parties as might come up the River in his absence but none Appeared —

On our Arrival at the head of the Tide Cap<sup>ts</sup> Hacker Williams, Cathcart and Brown seemed very desirous of fortifying and I with them went on Shore to look out an advantageous place to mount some Cannon, the people belonging<sup>e</sup> to these vessells seemingly were very satisfied, Advantageous eminences on each side of the River being Numerous & the weidth not more in some places than One Hundred yards, in many places less where fortifications were necessary. it is Obvious it was a place easy to be defended.— The Hector the Black prince and some other vessels coming up. the Crews of these Vessells used every art to bring on a total disembarkation it was effected and the Crews of the Vessel determinately agreed to land the next morning notwithstanding<sup>e</sup> the greatest endeavors of the above Named Officers which were for defending their Vessells. The Gen<sup>l</sup> Returned & personally desired them to fortify and informed the Commanders of Shipps &c he would soon have Troops sufficient to protect them, That it was shocking to think of destroying such a fleet when it might easily be defended —

Notwithstanding without any Consultation or order that I ever could find, the Next Morning the Hector and Black Prince were on Flames without any previous Notice and the Officers and Crew's of several Vessells thereby exceedingly exposed —

Capt Holmes did not destroy his Vessell 'till the Crew's of the whole had left them and he with the Gentlemen before mentioned that wished to fortify seeing themselves deserted set fire to their Vessells also —

The Gen<sup>l</sup> finding his tarry there would be of no use had determined to go down the River, but having information that the Indians had committed some outrages and being importuned by the inhabitants of that quarter to whom the Indians can at any time strike terror if in an Opposite interest, Knowing that Gen<sup>l</sup> Wadsworth was with the Remains of the Army and finding that Colo. Mitchel and L<sup>t</sup> Colo Revere Directed by him as he said to Repair up the River with their forces had not Regarded his commands But I never heard or saw any General orders given to that purpose—

The Gen<sup>l</sup> being sensible of Guards only being necessary at Camden, which Gen Wadsworth would not post, he Concluded to take the Indian Route—where he Negotiated a truce appeased the minds of the Tribe and settled with them on as permanent terms as their Honor will admit After a long Fatigue I Arrived with him at Kenebeck. End

I further add that it was easy (in my opinion) for Our Fleet to have attacked & destroy'd the enemys Shipping at any time before the arrival of the enemy's reinforcement—this would have facilitated the reduction of the land forces of the enemy., by giving us a more advantageous post in their Rear—& would have been of very essential benefit to the Service—

*Statement of Gilbert W. Speakman.*

Being appointed by the Hon<sup>l</sup> Council of this State, Commissary of Ordnance, on Wednesday the 14<sup>th</sup> of July, I sailed from Boston with Gen<sup>l</sup> Lovell in the State Yatch, landed at Castle Island, from thence went on board the Ordnance Brig<sup>t</sup> then laying abreast the Castle to take on board the Artillery men — The next morning came to sail & went to Nantasket Road, where we lay untill the monday following, when the fleet received Orders for Sailing — came to Sail ab<sup>t</sup> 5 °Clock A: M.; but the Brig<sup>t</sup> Stretch'd off & on for some time to wait for L<sup>t</sup> Col<sup>o</sup> Revere & others, who went the evening before to Boston in y<sup>e</sup> Barge — after they came on board, we proceeded with the rest of the fleet to Townsend, where I received from the inhabitants (by Order of y<sup>e</sup> Gen<sup>l</sup>) One Iron twelve pound cannon with some amunition & shott for the same, between Eighty & one hundred

rounds—On our arrival at Penobscot Bay came to anchor abreast the Heights of Magibigwados—The Armed Ships came to anchor near the mouth of the River, where the Ennemy lay, & a severe cannonade commenced from the Shipping, which was frequently repeated,—Not having any journal, I can't say the particular days the several attacks were made, but to the best of my memory, it was on the day of our arrival, or the next an attempt was made to land, which failed—The day after a landing was effected on an island on the opposite side of the River from the Ennemy—On the morning of the 27<sup>th</sup> July the troops with the assistance of the Marines landed, & took possession of the Heights of Magibigwaduce & so far as I am a judge, think the Officers & men deserve their Country's thanks for their activity & bravery—On the 11<sup>th</sup> or 12<sup>th</sup> of Aug<sup>t</sup> received Orders from Gen<sup>l</sup> Lovell to collect all the Ordnance Stores that were loose in the several Forts to some safe & convenient place, which was done, & in the course of the night & next day, they with the heavy Artillery were got on board the transports; except what was on Hacker's Island—On the 13<sup>th</sup> being on Shore & seeing a movement of the Army, desirous of seeing the operations, & hearing the fleet were going in to attack the Ennemy's Shipping, went to the place where Gen<sup>l</sup> Lovell was paraded with a part of his Army between the Ennemy's main Fort & their Shipping, & by his desire I had a Box of cartridges carried down to supply the Troops, & as far as I could judge they seem'd determined to stand their Ground, but a Shower of Rain coming up, & news being brought of the appearance of a reinforcement of the Ennemy, a Retreat was ordered—in the course of the night & early next morning most of the Troops embarked, & then ordered up the river; the Wind being light were obliged some time to tow—When we came abreast Fort point the transports

came to anchor—in the afternoon came to sail, & made up the River, & seeing the armed Vessells under sail, & the Ordnance Brig<sup>t</sup> near the rear of the Transports, I frequently urged to Cap<sup>t</sup> Brown the necessity of making what sail he could, that the Brig<sup>t</sup> was of more consequence than any of the transports,—he told me he was obliged to attend the Orders of the Agent for the Transports, and if he kep't up with & as near him as possible, he was in the way of his Duty or words to that Effect—I Rec<sup>d</sup> an extract from Gen<sup>l</sup> Orders where I was directed to collect all the Shott; Amunition &c scattered thro the transports, and also to pack up four Royals belonging to the Monmouth, & send them on board her as soon as possible, which order our scituation rendered impracticable to comply with—our Armed Vessells soon coming up with & passing us, Cap<sup>t</sup> Brown made what sail he could to get up the River, but the current setting very strong against us, & the Ennemy's Ships gaining very fast upon us, I went on Shore in a small boat, Cap<sup>t</sup> Brown ran his Brig<sup>t</sup> on Shore between two Vessells on fire, and the loose powder that lay about, from the hurry when the amunition was put on board, made it very hazardous for any person to stay any longer on board——

*Statement of And<sup>w</sup> McIntyer.*

I embarked on board the Samuel Transport the 14<sup>th</sup> of July, under L<sup>t</sup> Col Revere, bound to Penobscot, The day after we arived there, I was Ordered by Col Revere to command a field piece in the Attack on Banks's Island, which

I obeyed, I staid there that night, and the next day, till night. when I was orderd on board the Transport. when I got there which was late at Night. I received Orders from Col Revere, to hold my self in readiness to land, without Cannon, and with our Muskets. On the 28<sup>th</sup> I landed in the Boat, with Col. Revere, as soon as we were formed, Col Revere Ordered us to March which we did imediately; to the right, where we found Gen<sup>l</sup> Lovel, we followed him up the Steep, and kept close to his rear, We formed one line, from right to left; Col Revere was in front, Cap<sup>t</sup> Cushing on the Right, and Cap<sup>t</sup> Lincoln on the left. the woods being exceedingly thick we marched on till we were Orderd to halt by Gen<sup>l</sup> Lovel. Wile we were halting, two Marines came along, and enquired for Cap<sup>t</sup> Carnes, Col Revere asked them, what Cap<sup>t</sup> Carnes; they said Cap<sup>t</sup> Carnes of the Marines. they said they had lost him, a short time after Cap<sup>t</sup> Carnes came along, he went up to Col Revere, and shook hands with him, Col<sup>o</sup> Revere told him, some of his men were looking for him, and that they thought he was lost. Just after he was gone, Cap<sup>t</sup> Cushings company, to which I belonged, received Orders to git a field piece on shore. I went with the Comp<sup>y</sup> and we were employed till the 30<sup>th</sup> in gitting our Cannon on shore during which Time Col Revere was constantly with us giveing directions. that afternoon we Opened the Battery, Col Revere was there most of that afternoon, giving directions; he Visited the Battery, several times a day, every time I was on duty, which was almost every other day. whenever there was an alarm I always found him there. I never Knew him absent from Camp, without he left word were he was gone, I messed with him, from the time we left the Castle, till We landed, up the river, on the retreat. I saw him after we got on shore, but in the Confusion, I was seperated from him I do declare that dur-

ing, the whole expedition, in my opinion. He behaved himself like a good Officer. I remember some days before we retreated, when he came from a Council, He called some of his Officers and told them they must prepare some Field peeis, for it was determined to attack the Enemies Shipping. I observed he looked very chearful. I could not help remarking it. I said I thought some thing was going to be done the Col. looks so chearfull I came thro the woods with Cap<sup>t</sup> Cushing and did not see Col Revere till I got to Boston, When I got to fort Western I found Col Revere was just gone down the River in a Battoo, and had given Orders for us to proceed to Boston.

And<sup>w</sup> M<sup>c</sup>Intyer Lieut Artillery

I further add that On the 28<sup>th</sup> the whole of the Matrosses landed, on the same day Col<sup>o</sup> Revere order'd Cap<sup>t</sup> Cushing with the whole of his Company to go on board & bring a field peice on shore, they brought it, that Night that whole Company slept on board the transport—Col<sup>o</sup> Revere sup'd & lodg'd there Breakfasted the Next Morn<sup>g</sup>, after Breakfast went on shore, came on board again & din'd, went on shore after Dinner, & return'd at Night Sup'd & lodg'd on Board & went on shore the next Morn<sup>g</sup> betwixt 8. & 9 °Clock—we then carried Our Tents & Camp Equipage & continued on shore 'till the retreat—Cap<sup>t</sup> Lincoln's Company which remain'd constantly on shore from the time of Our landing had not their Tents & Camp equipage, till we carried theirs with ours on shore

Quest<sup>ns</sup> asked by Col<sup>o</sup> Revere

Quest<sup>n</sup> Do you know whether I gave orders on the 30<sup>th</sup> to Cap<sup>t</sup> Cushing for him with his Company to encamp on shore in future—

Ans<sup>r</sup> Such orders were given rather before 8 o'Clock in the Morning

*Testimony of Waterman Thomas.*

I Waterman Thomas, of Lawfull Age, Testify, and Say; that on the 28<sup>th</sup> July AD 1779 in the Morning of that Instant, about the Sun Riseing, I landed on Majabigaduce Neck, under the Command of the Honb<sup>le</sup> Gen<sup>l</sup> Lovell, and after Recovering the Heiths, being about One hundred Roads from the Enemies Main Fort, I Received Order to Halt, about 2 OClock P M I informed the Gen<sup>l</sup> that the Enemy, ware Collecting the Cattle, up Majabigaduce River, and Driveing them on to the Neck, the Gen<sup>l</sup> gave me Orders to march the Company of Volintears. Immediately over to the Main, in Order to Protect the Inhabitants and to Cut of all communication, of the Enemy to the Main, which Plan I that Evening effected, A few Days after a Battery, was Erected on Majabigaduce River in Order to Destroy the Enemies Ships, in which One Eighteen Pound Cannon and One Nine was Mounted, and a Brass Field Piece, a few Days after the Battery was Opened, I heard Cap<sup>t</sup> Wescot, who was afterwards Pilot tell Cap<sup>t</sup> Salteston, that he could Carry the Warren, and all the Ships up Majabigaduce River about two Miles above the Enemies Ships, and also told him their was Plenty of Warter up the South Bay, four Miles for his Ship, to Lay a float at low Warter, I

maintained my Post at the Battery, above Mentined untill the 14<sup>th</sup> of August following, When I Riceived Orders about 1 oClock in the Morning, to Avacuate Said Battery, and git the Field Peice to the Shoar, which I effected, and Saved the same from faling into the Enemies hand; at the Sallaing out about 300 of the Enimies I Retreated back into the Woods, with the Loss of One Man, I Retreated as far as Fort Pownal, when I Received Orders from Brig<sup>r</sup> Gen<sup>l</sup> Wadsworth, to take 50 Volentears and go over to Majabigaduce River, and Anoy the Enemy, and Prevent them from Plundering the Inhabitants, but before I Received Provision for the Men, I saw our Ships comeing up the Bay towards Fort Pownall, on the Sight of which, our Transports immediately made Sail, and Proceeded up Penobscut River, as fast as Possable, but the Wind being small, and the Tide Runing Strong, made but Slow way a head. the Ships takeing a fresh Breze of Wind down the Sound, came up with them very fast, and Soon Run by them, that when they Entred the Narrows, the Tide being so Strong and the Enemies Ships so Nigh. many of the Transports had no other Altarnative but to Run on Shoar in Order to Save the Troops from falling into the Enemies hands, when I came into the Narrows with Brig<sup>r</sup> Gen<sup>l</sup> Wadsworth, and Doc<sup>r</sup> Downer, from the Hols-pital, with a Number of Sick, and Wounded, many Transports ware Run on Shoar, and One in the Chanil a Starn of the Commedore Ship, on fire, Immediately after the Enemies Ships came to Ancher, and Sent of boats to tow the same away, Brig<sup>r</sup> Gen<sup>l</sup> Wadsworth as Soon as he could git any Craft, which was a birch Canue, and two Indians, went to the Transports that had run on Shoar, I proceeded up the River that Night as far as Ball Hill 16<sup>th</sup> I proceded down the River with Gen<sup>l</sup> Lovell, and Lieu<sup>t</sup> George Little, in our passing down the River, the Gen<sup>l</sup>

Ordered all the Soilders he saw on the Side of the River to march up to the Ships at the head of the Tide as fast as Possable, the Gen<sup>l</sup> Ordered Col<sup>o</sup> Revear who was on Board the Pigen, Cap<sup>t</sup> Little, to Collect his Troops, and Artillery, and git up the River as soon as Possable, Coll<sup>o</sup> Revear Replied, he had Sent his barge Down the River to see whare his Troops ware, and the Ordanance Brigg with the Artillery was Burnt, the Gen<sup>l</sup> said he would git Guns from out The Ships, we then proceeded down the River on Board the Warren, which then Lay A ground Just against Marsh Bay, when we got on board the Commodore Informed us the Ordanance Brig was Down the River about three Miles, the Gen<sup>l</sup> Requested Leiu<sup>t</sup> Little & my self to go on board and git her up the River if Possable, Coll<sup>o</sup> Mitchel Ofred to go down the River with us, but the Gen<sup>l</sup> Requested him to Collect what of his Troops he could, and March them up the River in Order to fortify, Lieut Little & my self Proceeded down the River on board the Ordanance Brig with Men, and after much Difficulty, got her of, and Proceeded up the River, Two of the Enemies Ships giveing Chase to us, we got up above Oak Point, when the Tide Began to make Strong against us, and the wind very Small, came to Anchor, in about an hoar, the Enemy Ships comeing up with a fresh Breze of Wind, hove up our Anchor, in Order if Possable to git the Brig above the Commedore, but could not Stem the Tide, again came to Anchor, and Discovering the Commedore Landing his Peopple, it would be impossible for us to Save the Brig After sinding 2 barrils of flower on Shoar, to Cap<sup>t</sup> Ross, Commander of the Monmuth, and Gitting Some Amunition and what Intrenching Tools their ware on board out Set her on Fire, then proceeded up the River on board the Warren, Where the Gen<sup>l</sup> was Preswadeing the Commedore, not for to Land his People nor

would not have him Burn his Ship by no Mens, that he meaning the Gen<sup>l</sup> would Tarry with him if he thought he could be of any Sirvis, or would, proceed up the River, and Request the Captains, of the Ships, to come down with a Boat from each Ship, in Order to git the Warren up the River as soon as the Tide should make, I heard, Cap<sup>t</sup> Salteston ask Leiu<sup>t</sup> Little what more he could have done, M<sup>r</sup> Little Replied he had done nothing at all as yit that he knew of, M<sup>r</sup> Little asked Cap<sup>t</sup> Salteston, the Reason of his not firing his Starn Chassers comeing up the River in Order that the Transports might have got up, Cap<sup>t</sup> Salteston, Replied, that it would have done no good they would have fired again, then M<sup>r</sup> Little asked Cap<sup>t</sup> Salteston, why that he did not form a Line at the Narrows with his Largeest Ships and a Coverd the Transports, M<sup>r</sup> Little further told the Commadore that if had Command of the Ship he would git all his Eighteen Pounders upon one Side, & Springs on his Cables, and would be able to defend the Ship that way, the Commadore Replied the Enemy would git the Ship by that means, We then Proceeded up the River, and went along Side the Putman, when the Gen<sup>l</sup> Requested Cap<sup>t</sup> Warters, to go on board the Commadore, and to send a boat in Order to help up with the Ship as soon as the Tide should make, Cap<sup>t</sup> Warters Replied he would and should be up with his own Ship in the Morning, we then Proceeded up the River and went along Side every Ship in the River whare the Gen<sup>l</sup> Requested the Captain, of each Ship to go on board the Commadore, and to Send a boat from each Ship, in Order to git the Warren up the River as as soon as the Tide should make, the Captain of each Ship complied with the Gen<sup>l</sup> Request, except Cap<sup>t</sup> Thomas, of the Venjance, Cap<sup>t</sup> Carns, of the black Prince, & Cap<sup>t</sup> West, of the Hector, who told the Gen<sup>l</sup> that they had Landed their Peopple, and ware

going to burn their Ships, the Gen<sup>l</sup> Indeavoured to Preswade them from burning their Ships, by many arguments, that they could git all their Ships up the River, and git their Cannon on Shoar, & fortify, & would be able to defend their Ships, untill the State could send to france, for Ships to git them out, and he made no doubt they would, if not that the State had better be at the expence of maintaining 1000 Men their untill they could git the Cannon, Sails, and, Rigging, across to Canabeck River, Provided they could not Save the Ships, the Gen<sup>l</sup> further told them that he would Call in the Melitia and Cut a Road through to Canabeck, and would be able to git Provision that way, Cap<sup>t</sup> Thomas, Offred the Gen<sup>l</sup> his Ship, the Gen<sup>l</sup> Replied he would except her Rather than have her burnt, We then went on board the Hazzard, and, Cap<sup>t</sup> Williams Immedeatly Sent down his boat to the Assistance of the Commedore, and said the Private Property ariveing up the River and had put the Devil in his People, but he had got them pacified and Willing to Stay by the Ship, Cap<sup>t</sup> Cithcart Soon after came on board, and Said Cap<sup>ts</sup> Carns, & West, Landing their Men had put the Devil in his People, and One boat full of Men had Attempted to go on Shoar, but the Centries had fired on them and, brought them along side, and he had got them on board in Irons,—

16<sup>th</sup> About Eight OClock in the Morning, I discovered the Black Prince, & Hector, on Fire, which Lay not half pistol Shot from Many Ships, which had not Landed their Men, I was on board the Hazzard, which had her People most on board, and Immagining much Danger from the Ships blowing up, Sot of with a flatbottom boat, of Provision, in Order to Supply the Troops down the River, and Passing the two Ships on fire M<sup>r</sup> Little hailed a Gentlemon who had got on Shoar from one of the Ships on fire and

Asked him, if their Guns were Loaded, who made answer they ware, with Round Shot, Grape, and Langrage, I Immedeately Spoke to the People which ware on Shoar very thick, to go up the hill, for they ware in much Danger, as well as those on board the Hazzard, and Tiranaside, from the Timber which must blow from the Ship, and also the Shot, I had but Just passed the Ships when they blew up, and the Shot came very Plentifully round my boat, as well as a Cross, & up the River, I then Proceeded Down the River, whare I saw, the, Warren, Putman, Vengance, & every Other Ship, was burnt, I then Proceedid through the Woods to Cambden; and further Saith not;—

Depositions given into Court

Questions to Gen<sup>l</sup> Lovel by Col: Revere

Did you on the 28<sup>th</sup> of July, the day you landed on Magabigwaduce, see me, with the Corps I commanded.

Yes

Do you remember that you ordered, me to follow you with my men, and that we followed you up the steep, and kept close in your rear, till you Ordered me to halt. That just after you halted, you Ordered me to git a field piece on

Shore; I asked you, if I should take one of my companys to do it, that you answered me yes.

yes, I remember the whole

Do you remember that sometime after (the same day) you Orderd me Verbaly to send to the Island for the Howitz, Field — piece, Gin, and Apparatus, and to call on Col. Davis for Boats & men.

proverbly I did but dont remember the Circumstance

Do you remember, that about sun down, the evening of the 28<sup>th</sup>, I waited on you, and informed you; that I had found a part of the Bank not near so high as that we Came up, upon which you directed me to gitt two 18 pounders on shore, and to call on Cap<sup>ts</sup> Williams, Holmes, Halet and Catchcart, for men to assist me.

Yes, I gave such orders, but it lies in my Mind it was about 10 oClock P. M.

Do you remember the next morning, I met you near the lines, where the militia were at work, when you took me by my self, and told me that you had reconitred the Enemys works, and found them stronger than you expected; that it never would do to storm them with what men you had, and that I must be as expeditious as possible, in gitting my cannon on shore, for we must aproach them.

I beleve it is so but dont recolect ye circumstance

Was there a day from the time we landed on Magabigwadu, to the day we retreated up the River, but what you saw me at least twice a day.

I do not recolect every day but remember I see you often

Did you ever send, or Give me an Order Verbally which I did not obey

No Except on the day after we retreated,

Did you on the Evening of the 29<sup>th</sup> of July send me a Billet of this import, to wit, The General is surprised that

he had not seen Col<sup>o</sup> Revere & desires he would wait upon him immediately—

Ans<sup>r</sup> Such a Billet was sent but I cannot recollect the time when—And the Col<sup>o</sup> waited upon me immediately & satisfied me that he had been well employ'd. I now think it was not later than the 28<sup>th</sup>

Q. Did you by your order of the 28<sup>th</sup> of July mean to include the whole Army?

Ans<sup>r</sup> I did

*Statement of Gilbert W. Speakman.*

Being desired by Cap<sup>t</sup> Carnes to give in writing what I know concerning the conduct of Lieu<sup>t</sup> Col<sup>o</sup> Revere at Penobscot; The line of my duty leading me different from that of Col<sup>o</sup> Revere, can't be able to know but little concerning him—all I know to the best of my recollection is as follows, Viz<sup>t</sup>

That some few days after our arrival at Penobscot, orders were sent on board for him to go on shore with some artillery, which he ordered his Officer to get ready to go with,—said, he could not think the General meant for him to go, but beleived 'twas a mistake—he then ordered the Barge ready to carry him to the General, went on board, returned, & sent Cap<sup>t</sup> Cushing on shore with the piece's—A few days after some of the General's family (I don't recollect who) came along side with Gen<sup>l</sup> Lovell's compliments to Col<sup>o</sup> Revere, & beg'd the len't of his Barge—he replied he wanted it himself—& said he brought that Barge for his own use

& not for the General's,—One Afternoon being on Shore at the Gen<sup>l</sup>'s Marquee, heard an enquiry after Col<sup>o</sup> Revere—The Gen<sup>l</sup> said he was surpriz'd at his conduct, wondered that he kep't himself out of the way, and turn'd to me, said, do you know Cap<sup>t</sup> Speakman what's become of Col<sup>o</sup> Revere,? I told him I left him on board the Brig<sup>t</sup> that afternoon & beleived he was there—The Gen<sup>l</sup> then desired Major Todd to write him, & order his attendance, and ask'd if any person was going that way that would carry it—Mr Bromwell then present offered his service, but the Gen<sup>l</sup> said I was going on board the same Vessell and could save him that trouble; I told the Gen<sup>l</sup> I was willing to comply with his Orders, but as Major Bromwell had offered to carry it, if 'twas agreeable to him, I had rather he would; which letter was delivered when Col<sup>o</sup> Revere was in bed, or just going to bed—he got up—said he was surpriz'd the General should send such an order—he went on shore, & return'd again—said he thought by Major Todd's letter, the Gen<sup>l</sup> was very uneasy, but found it the reverse & made a trifling matter of it.—On the 14<sup>th</sup> as we were on the retreat up the River the General sent Major Todd & ordered Col<sup>o</sup> Revere to take his men and get some Cannon from an Island, commonly call'd Hacker's Island—he said he could not go, he had no boat; his boat being then gone to fetch Cap<sup>t</sup> Cushing with his men & one field piece.—In the Morning after the Transports came to sail he said he did not choose to risk his men there, and did not know whither Gen<sup>l</sup> Lovell had a right to order him,—he then took out a paper & read, which I took to be the Orders given him from y<sup>e</sup> Hon<sup>l</sup> Council, said his Orders were to be under the Command of Gen<sup>l</sup> Lovell during the Penobscott Expedition, and as the Siege was rais'd he considered the expedition at an end, and therefore did not consider himself any longer under Gen<sup>l</sup> Lovell's Command—After dinner that day Col<sup>o</sup>

Revere went on shore, & never saw him after that till at the Court in Funuel Hall

Gilbert W. Speakman

Being question'd by Col<sup>o</sup> Revere the Deponent adds that at the time Major Todd deliver'd those orders to Col<sup>o</sup> Revere mentioned above the transports were then or soon after under sail — that the Men the General had order'd never arrived to assist him —

Ques<sup>t</sup> Do you recollect the time when Gen<sup>l</sup> Lovell sent the Billet mentioned by Col<sup>o</sup> Revere, carried by Maj<sup>r</sup> Bronville —

Ans<sup>r</sup> I cannot name the day, but it was after the Generals Marque was moved from the left to the right, it was not pitched at all 'till the second day — I don't recollect whether it was moved that day, or the day after —

The same Question is put to Maj<sup>r</sup> Todd Who says he wrote he remembers seeing Maj<sup>r</sup> Todd write a Billet of that import in the Wall Tent which was pitched the day after the removal of the Gen<sup>ls</sup> Marque as above — I can't say but it was removed the first day it was pitched, but I dont think it was I am certain the Billet was not wrote till after the removal of the Marque

The same Question is put to Maj<sup>r</sup> Todd Who says he wrote the Billet in the Wall Tent, the Wall Tent was pitched both before & after the removal of the Marque, but not before the 29<sup>th</sup> of July the Billet was not wrote before the 30<sup>th</sup>

The same Question is put to Major Bronville Who says, He thinks the Billet was wrote before the removal of the Gen<sup>ls</sup> Marque, but can't be certain He deliver'd the Billet to Col<sup>o</sup> Revere on Board the Ordnance Brig, late in the

Evening when he was in bed — Upon which he immediate put on his Cloths & went on shore — I'm sure 'twas before the 31<sup>st</sup>

*Statement of Gawen Brown.*

1779

Thursd<sup>r</sup> July 15<sup>th</sup> I set out from Boston in company with Gen<sup>l</sup> Lovell, at noon embark'd on board the Warren in Nantasket Road bound on an Expedition against the Enemys of the States at Penobscot. We remained in the Road 'till Monday 19<sup>th</sup> and having a fair breeze at S. W. the whole Fleet got under way, Viz<sup>t</sup> Warren, Putnam Vengeance, Monmouth, Sky Rocket, Hector, Hunter the Brigs. Diligence, Hazard, Tyrannicide and a number of Transports, the Tyrannicide was order'd by the Commodore into Portsmouth with the Signals for the Hamden and orders for her to join the Fleet, this afternoon we was Join'd by the Black Prince a fine ship mounting twenty guns from Salem — Tuesd<sup>r</sup> 20<sup>th</sup> continue our Course for Townsend — Wednesd<sup>r</sup> 21<sup>st</sup> we arriv'd at Townsend and find the first division of Transports in the Harbour Gen<sup>l</sup> Lovell makes his Head Quarters at the Rev<sup>d</sup> M<sup>r</sup> Murrays, the Gen<sup>l</sup> examines the returns of the Troops find them fall short of their Quota about five Hundred Men — gives out Orders for the Troops to draw their Provision, Ammunition, and other Necessaries, & for them to be reveiwd to morrow — Thursday 22<sup>d</sup> the Gen<sup>l</sup> reviews the Troops, and orders two Reg<sup>ts</sup> to embark the remainder not having supplied themselves are order'd to

embark to morrow by six °Clock A. M. this Even<sup>g</sup> there was a consultation held at Mr Murrays the proceedings, of which I refer to the Gen<sup>l</sup> Fryday 23<sup>d</sup> the Troops & Fleet ready to proceed, but the Wind being unfavourable cannot put to Sea Saturday 24<sup>th</sup> This morning a fair Breeze — — set sail from Townsend towards Penobscot, the Wind flatter<sup>s</sup> till twelve °Clock when a fair Wind sprung up from S. S. West, This Evening came to Anchor Off the Fox Islands about three Leagues from the Enemy at Magabigwaduice.— Sunday 25<sup>th</sup> Set sail from Fox Islands and Arrive off Magabigwaduice about 12 °Clock when the Wind blowing fresh, the Transports came to Anchor within Cannon shot of the Landing cover'd by the Ship Sally, Brigs Hazard & Active, about 7 °Clock we attempted to Land at a place call'd Bagwaduce Head cover'd with a thick wood Brush &c the Wind blowing very fresh—the Gen<sup>l</sup> observ'd if the first division landed they would be in danger of being cut off, before they could be reenforc'd by the second—and countermands the Orders previously given upon the return, the Enemy fir'd a smart Volley and kill'd one Indian—

Monday July 26<sup>th</sup> The first division is Ordered into their Boats to make a feint of landing on the bagwaduce Head, while the Marines are to land on an Island in the Harbour which commands the shipping as they then lay at Anchor—and one of their Batteries, the Marines made good their landing drove the Enemy off the Island and took four peices of Artillery a small Quantity of Ammunition &c without any loss—Brigd<sup>r</sup> Gen<sup>l</sup> Wadsworth with the first division left their feint and supported the Marines but unfortunately lost the Worthy Major Littlefield and two men by a Chance shot from the Enemys Shipping which struck the boat and were drowned—this afternoon the Ships, cannonade the Enemys Batteries, and Shipping with remarkable

spirit—Tuesday 27<sup>th</sup> This day our men employed in fortifying the Island—in the Afternoon there was a Council on board the Warren the proceedings of which I refer to the Gen<sup>l</sup> Wednesday 28<sup>th</sup> This Morning between one & two °Clock the Gen<sup>l</sup> order'd the Troops to make every preparation to Land as soon as possible, which was effected in the following manner—Viz<sup>t</sup> the Marines on the Right under the command of Cap<sup>t</sup> Welsh—first division led by Brigd<sup>r</sup> Gen<sup>l</sup> Wadsworth—second by Col<sup>l</sup> McCobb—third & left division by Col<sup>l</sup> Mitchel—the Gen<sup>l</sup> in centre of column, Aided by Col<sup>l</sup> Tyler, Major Hile, Major Lithgow, and others of his Family—the Landing commenced about half an hour before sun rise under cover of the principle part of our Shipping, and in justice to the several Officers and seamen / if my opinion may be admitted / I think they merit the applause of their Countrymen for their Alertness, and Spirit in supporting so well a directed fire, as in a great measure to facilitate the Gen<sup>ls</sup> plan, in approaching the shore. the Marines Recieved the fire from the Enemy and return'd it with such spirit, as to call a gen<sup>l</sup> discharge of Muskettry from them—The Troops push'd for the Shore—landed, and form'd / as well as could be expected for a body of Militia / agreeable to the Gen<sup>ls</sup> Order—they mounted the height and drove the Enemy to their principal Fort—where it was tho<sup>t</sup> imprudent to storm untill a line of defence was securd, and orders given for a supply of Ammunition &c—the remainder of this day all hands employ'd in throwing up works— Thursday 29<sup>th</sup> We continue fortifying—laying out a Battery within point blank shot of the Enemys lines nothing Remarkable this day— Friday 30<sup>th</sup> We open our Battery of two eighteen pounders and one twelve d° with one Howitz 5'p Inch and play on the Enemy with unknown Success—, Saturday 31<sup>st</sup> Continue our Cannonade, Noth-

ing very material effected — Sunday Aug<sup>t</sup> 1<sup>st</sup> At two °Clock A. M. the Gen<sup>l</sup> Order'd 300 Men to be detach'd including Marines under the command of Brigd<sup>r</sup> Gen<sup>l</sup> Wadsworth to take a Battery in Possession of the Enemy which commands their harbour and protects their Shipping — this Order was put in to Execution and effected — for particulars I refer to Brigd<sup>r</sup> Gen<sup>l</sup> Wadsworth — the command<sup>s</sup> Officer of the Party the remaind<sup>r</sup> of this day rainy Weather — Monday Aug<sup>st</sup> 2<sup>d</sup> Nothing remarkable this day — Tuesday 3<sup>d</sup> Brigd<sup>r</sup> Wadsworth Order'd by Gen<sup>l</sup> Lovell to take possession in the Enemys rear on the main, the Particulars of which Brigd<sup>r</sup> Wadsworth will Inform your Honors — Wednesd<sup>y</sup> Aug<sup>st</sup> 4<sup>th</sup> This Afternoon and for several days past we have had Alarms, the Enemy discover an inclination to attack our Battery on the Main. the whole army Under Arms the men are much fatigu'd being continually on duty — either on Picket or throwing up Works — and complain of the Severity of common duty — Thursday Ag<sup>st</sup> 5<sup>th</sup> Nothing very remarkable — Friday 6<sup>th</sup> a Councill the proceedings of which I refer to the Gen<sup>l</sup> Our Army continue to carry on the Seige with as much Vigour as matters will admit. Saturday Aug<sup>st</sup> 7<sup>th</sup> A Councill of War held on board the Hazard the proceedings I refer to Gen<sup>l</sup> Lovell — this Afternoon scouting parties sent out nothing of consequence effected. — Saturday 7<sup>th</sup> a Council held on board the Hazard the proceedings, I refer to Gen<sup>l</sup> Lovell this Afternoon the Gen<sup>l</sup> detach'd small parties out on our right in order to draw the Enemy from their Fort, which was effected and a Skirmish follow'd without any loss on our party except one man Wounded — 8<sup>th</sup> Rainy Weather many cartridges destroy'd as the men were badly cover'd — 9<sup>th</sup> & 10<sup>th</sup> very little done except firing upon the Enemys lines from our Batteries — 11<sup>th</sup> the Gen<sup>l</sup> order'd 600 men to be paraded, at 12 °Clock

but many of the men not very fond of storming lines, tho' it much safer to sculk in the woods and four hund<sup>d</sup> only, could be collected for the purpose of drawing the Enemy out—the remainder of the Troops were order'd to Man the lines, the Gen<sup>l</sup> then march'd off with the four Hundred men as above mentioned, and order'd two Hundred under the command of Majors Larabee, Bronville, and my Self to take post at the fort which was taken on Sunday 1<sup>st</sup> Aug<sup>st</sup> and there tarry 'till a signal should be thrown out for us to retire, we advanced and took Post, and remained there till the signal was given for us to repair to the Gen<sup>l</sup>; I then orderd the men to file off by the Right and retire—we had not march'd fifty paces before the Enemy discover'd our movements, and advanced to the Fort which we had left, they gave us a smart Volley which threw our men in such confusion as to render every attempt (which was made) to rally them, Abortive. Major Bronville and Myself then made a report to the Gen<sup>l</sup> of our proceedings—Aug<sup>st</sup> 12<sup>th</sup> a Council held I refer your Honors to the Gen<sup>l</sup> for their proceedings—This Evening the cannon are remov'd out of our batteries on board the Transports, 13<sup>th</sup> This Afternoon the Gen<sup>l</sup> order'd 400 men to parade, the lines to be mann'd, and marched off with 200—almost in the rear of the Enemys Fort and finding it practicable to attempt the Storming the lower Fort he desired Cap<sup>t</sup> Burke to request the Commodore to come with his Ships, they weigh'd Anchor and came to sail, but unfortunately for us the enemys Ships appear'd which entirely caus'd us to raise the Seige. about ten °Clock P. M I rec<sup>d</sup> Orders from the Gen<sup>l</sup> to go on board the Commodore to be Inform'd of the particular strength of the Enemys fleet—he gave me a Letter for the Gen<sup>l</sup> which I deliver'd—and orders were given for us to quit the ground which was effected by 4 °Clock A. M. on the 14<sup>th</sup> and every

kind of military Stores taken off at consequence, about 7 °Clock the Transports were under way bound up Penobscot River but being calm they soon drop't Anchor—about 12 °Clock the wind sprung up at South—the Transports then weigh'd anchor and we were soon follow'd by our Arm'd Vessels, pursued by the Enemys Ships, the Commodore and fleet pass'd by us, the Transports ran on shore were set on fire by whose Order I know not the Shipping suffer'd the same fate—

the Enemy's Ships which soon after were with in Point blank shot, & pour'd their Broad sides upon the Shore where L<sup>t</sup> Phillips & myself with our party were join'd to Cap<sup>t</sup> Cushings: Tarried there till Dusk then Cap<sup>t</sup> Cushing Said he wold march a Little from the Shore & in camp Accordingly we Did

*Petition of Inhabitants of Lincoln.*

To the Honorable the Council & the Honorable the house of Representatives of the State of Massachusetts bay.

The Petition of the subscribers inhabitants of the County of Lincoln, Humbly Sheweth,

That, altho we your Petitioners do not address your

Honors in any public capacity, nor by virtue of any delegation from the Eastern country, and are well assured that a particular representation of present circumstances of that part of the State will shortly be laid before the Hon<sup>ble</sup> Court by a Convention of the County called for that purpose; yet, as it is suggested to us that a speedy adjournment of the Court is in contemplation, from anxious fears of its being effected before any application from the County can arrive, & from painful apprehensions of the most dangerous consequences arising to that Country, from their being neglected by Government till another Session, such inhabitants of it as happened to be in Boston, on other business, from a serious concern for the preservation of that part of the State, having met together for mutual consultation on the matter, think it their Duty thus humbly to lay before your Honors their thoughts of the State of that County & beg your candid attention to them:

The failure of the late expedition to Penobscot has already laid desolate a number of very hopeful settlements in these parts; the inhabitants, men, women & children having fled thro' the wilderness to the Western parts of the State; leaving behind them their stock, provisions, crops & all they had, many of them are already arrived in these parts, know not where to set their heads, being destitute of money & every resource of supply to their families, & must cast themselves on the merey of the country in general, or expect to terminate their present calamities by a miserable death; Many more are following them in similar circumstances; & if Government do not speedily devise some method for the relief of that ruined people, the prospect before them is horrible indeed; we reflect with pleasure on the wise plans of the Legislature adopted for the relief of the distressed inhabitants of Boston, when their case resembled this, in all

respects, except that the one came off from their homes generally with money in their pockets, the other are in flight destitute of all things; we hope it will be thought a subject worthy the attention of the Hon<sup>ble</sup> Court to enquire whether some similar measures may not be adopted now, in behalf of these sufferers who cannot help themselves.

Nor is the condition of that part of the people that yet remains, near the Shores, in the County, much more comfortable than that of them that fled; their prospects of sustenance by the fruits of the earth (which were truly flattering & promised a great supply) are now cut off & ended; they were engaged in opposing the common enemy when they should have been attending their grain & their hay; & hence great quantities were much damaged, & not a little totally perished; of the residue very little now remains, after supplying the retreating army & the fleeing families that followed them; and that little is in jeopardy every hour from the wanton depredations of an insolent & triumphant enemy who avow the design of treating the country as a country conquered & its inhabitants as persons taken in actual rebellion; hence many have been compelled to take an impious & profane oath contrary to their consciences, & then driven in like slaves to work at constructing forts, recovering cannon &c for the enemy, & in the meanwhile obliged to find their own supplies & subjected to be cudgelled, kicked, & abused by every petty officer that is set over them; we forbear to express our feelings or mentioning this ignominious treatment of our brethren! We cannot but trust the Hon<sup>ble</sup> Court will manifest feelings of their own, on this occasion that will supercede all expostulations on our part; we therefore only beg leave to add that, for ought we can see, there is the greatest reason to apprehend that what is now suffered by the people near Penobscot, will be the common fate of the

whole Coast of the Counties of Cumberland & Lincoln before the opening of another campaign; the provision already made having hardly a shew of intention to defend it, the whole number raised being scarce a man to a mile if equally distributed on the coast: & even these are like to become a grievous burthen to the towns that must maintain them, whose stores are utterly inadequate to the wants of their own houses: & without a number of whale boats the troops as already stationed can never be assembled, Reasonably, at any place to answer any great purpose either for offence or defence:

The want of the means of giving or receiving intelligence at suitable intervalls, & the enormous expence of doing it at any time is a grievance which that County has never felt, & sometimes complained of; but, at this crisis, it has become a sore burden; your Petitioners would only suggest that, by extending the Post as far as Cambden, one man, by a weekly journey to Falm<sup>o</sup> could save the journeys of great numbers to Boston at the public expence & therefore such a step taken by the Government would be no small Saving to the State.

Your Petitioners beg leave to add that, as the lumber trade of the Eastern Country is now entirely in the enemy's hands, the only resource of that people for the purchasing provisions is at an end. Nor will it be possible for such of them as have any vessels yet left in their possession to stir out of any harbour without the most probable prospect of being speedily captured, unless the Hon<sup>ble</sup> Court should be pleased to order a few armed vessels to cruize on the coast from Boston bay Eastward: we beg leave to suggest that in our humble opinion three or four Brig<sup>ts</sup> or smaller vessels from twelve to eighteen guns each would be sufficient for that purpose; & we cannot now think of any service they can be employed on more

important, to both Eastern & Western parts of this State, at the present juncture, than this would be.

We beg the indulgence of the Hon<sup>ble</sup> Court while we mention one thing more; a very little reflection on the condition of that Country — invaded — ravaged — in great part desolated & ruined, may suffice to convince an impartial mind (even on so impopular a subject) that it will be utterly impossible for its inhabitants to supply as formerly they have done, an equal proportion of the public funds — the valuation by which the late tax-bills were regulated cannot be considered as a rule by which to judge the taxable property in that Country now, when so great a part of it has fallen into the hands of the enemy — & so much more is lost at the late destruction of our fleet; their usual ways of acquiring money have been blocked up for a considerable time & from the best judgment we are able to form by a pretty general acquaintance with the County of Lincoln, we declare it our belief that all the money in it would not suffice to pay more than one half of the tax last assessed upon it:

The justice & wisdom exhibited by that act of Congress that excused Georgia, in the late taxation of the continent, is acknowledged with applause by every part of America; we only add that no plea for that exemption could be offered in favor of that invaded State that would not operate, at least, with equal force in behalf of the County we now plead for:

Your Petitioners beg leave to suggest that it is their unanimous opinion that the enforcing the late tax-act in that County will reduce the greatest part of its inhabitants to the last extremity & must issue in the transfer of their real estates into the hands of their wealthier brothers in the Westward, & so produce a very general desertion of the settlements in the east:

with the firmest confidence then, we refer it to the wisdom of the Hon<sup>ble</sup> Court to judge of the policy of the laying further taxes on that people at this time; as we cannot prognosticate without pain, the steps that may be taken by a people, in their circumstances, deeming themselves abandoned by Government, to the fury of an enemy left secure of their triumphs in the very heart of their country, neglected in their distress tho' crying for relief to the father of the State, & driven to desperation by oppressive burdens which neither themselves nor their fathers, in their best circumstances, were able to bear

Your Petitioners therefore most humbly & earnestly pray the Hon<sup>ble</sup> Court to take up the contents of this humble representation, as soon as will be consistent with your convenience, that we may have opportunity to be heard before a Committee on the Subjects it has but touched; and that we may return to our homes sufficiently instructed to inform anxious hundreds what they may expect from the wisdom & goodness of the legislature, & what the Government expects from them.

And your Petitioners as in duty bound shall ever pray

Que<sup>n</sup> Do you Remember of Sending for Col<sup>l</sup> Revear several times whilst we Lay on Baguaduce, and Received for Answer he was not to be found.

Answer I did once

Question Do you Remember of Saying, at Several times that you was Supprised of Col<sup>l</sup> Revears Inattention to his Duty —

Answer I do not remember it —

Question Do you Remember of Saying Let the Scage Continue as Long as it will, you should not Desire, or order Col<sup>l</sup> Revear to take any Command.

Answer I do not remember saying any such thing.

Question Do you Remember when you sent the orders for some Peices of Artillery to be carried on Bank's Island, weather You ment for Col<sup>l</sup> Revear to go himself or to order some officer to go

Answer I expected he would see it done —

Question Do you Remember Giveing Col<sup>l</sup> Revear orders to Retreat up the River with his men, as you was Deturment to fortify

## Questions asked by the Committee

Answer Yes—on the 15<sup>th</sup> of Aug<sup>st</sup> he was then on board the Pidgeon Transp<sup>t</sup> his Men were landed the Night before—He answer'd Ordnance Brig was destroy'd and there were no Cannon to make a Stand—I told him there was no difficulty about that we might take Cannon from the Ships

Ques<sup>n</sup> Do you Remember of Seeing any thing of Col<sup>r</sup> Revere after you gave him orders to go up the River with his men till you see him in Boston—

Answer I do not

On the 20<sup>th</sup> I ordered Col<sup>o</sup> Revere to land with his Men, with their Muskets. In about an hour after our landing I ordered him to take one of his Companies and the Cannon on shore from on board the transport. I gave no permission to Col<sup>o</sup> Revere to go on board the Transport to Dine, Sup, lodge or Breakfast on the 28<sup>th</sup> or 29<sup>th</sup> but expected he was on shore with his Men, till the contrary was represented to me, which occasioned my order of the 30<sup>th</sup> of July to him to encamp with his Corps on Shore with the Army.

Ques<sup>n</sup> Did you write to the Council to give Col<sup>o</sup> Revere a reprimand for his unsoldierlike behaviour?

Ans<sup>r</sup> Yes, and I had reference to his disobedience of the order of the 15<sup>th</sup> of August above mentioned—And his leaveing the army without permission.

Ques<sup>t</sup> When Col<sup>o</sup> Revere lodged on board did you consider it as a disobedience of orders?

Ans<sup>r</sup> I did not consider it as a disobedience of orders for I had given no orders that he should be on shore, but expected that he & every other officer that had any thing to do with the army, should be on shore—

Sir My Hurry of Business & the Uncertainty of Conveyance Has prevented me for some time, To Inform the Respectable Committee of Boston of Many Matters, which Appears in these Eastern parts, hurtfull to the Interest of the States —

The Toleration Given for persons to settle Affairs in Nova Scotia has terminated | as I have often Cautioned the Court)

in an Open & Free Trade. The Many Methods which is pursued & the Secrete Mode of Conducting, with the Universal Degeneracy & Corruption, Tho these parts Renders it possible to Detect without Some more rigid Measures are followed & orderd by Government—

The Small Check, By a Resolve of the General Court, the past Season as had some Little Effect—But the permission Given to Go to Passamaquody makes it more dangerous, as thereby every one does as they please—it Being Supposed part of the State, Liberty is taken to a great Extent & most seems to Defy any Authority this way. I have Complained to Civil Authority Here, it Coming more perticularly into their Department but they Think its Not in Their power to Stop it, as it is Continanced from the Westward—

It may be Depended Upon, That The reinforcement to the Enemy at Penobsent was procured Thro That Channel, & every Inteligence from Torys to Nova Scotia pass that way—

My time not permitting me to write so fully on this as I Coud wish being surrounded on every Side with Indians & others, and the Sudden Departure of the Bearrers, my Chief Intention was to Acquaint about One Cap<sup>n</sup> Littlefield in a Sloop, part of Which I Understand is Own'd in the States— and as a Toleration from Government to Gete his Effects out of Nova Scotia—

This has been Near three Years the Casé— He takes from the States a Load of Lumber Every time he is Here—has it Taken by the Enemy But always Gets a Good price for it By some friend he tells of return Loaded with a Good Cargo & Disposes of it mostly, & some times all in Nova Scotia—

On Hearing the restraint Laid upon Going to Nova Scotia Hauls up his Vessell, Sends his Master Upon Some frevelous Excuse to this place But well Known Upon Speculation with

Illicite Traders—I had him Confined On Board the Armd Schooner—After some time, The said Master, with a Spy, a Deserter, & Two Others went of in the Schooners Boat—

I immediately sent of a Party of Indians who siezed Littlefield & Brot him Here, where I kept him A small privateer having taken some of his property at Passamaquody, he solicited for Permission to Go Westward—Being willing he should have Justice & Desirious such people who are Generally in These Privateers should be Brot to Account—I Gave Liberty Under Bonds—Probably he may soon be in Boston I Recommend in the Strongest Terms he may be taken Care of & all Such Incendarys—I am under Much obligation to Littlefield in Geting my Famely from Nova Scotia—View myself as a private person Bound By every Tie of Gratitude to help him—But his Public Behaviour is such that I must Sacrifice private Friendship, when such Flagrant & Notorious Things Appears Against him, That Strikes at the Public Weal. I have acquainted the Court of This, & further that I wrote you Thereupon

My time Obelidges me to Conclude, & I am with all Sutable respect & Esteem—sir

By Order of the Board

*Representation of the Board of War.*

To the Hon<sup>ble</sup> the Council, & the Hon<sup>ble</sup> House of Representatives in General Court Assembled

The Board of War begg leave to represent, That by the failure of the late Expedition to Penobscot they find themselves involv'd in difficulties and embarrassments inextricable,

and, without your Honors immediate interposition, totally insurmountable. In pursuance of your Honors directions, this Board, with unremitted assiduity, procur'd for that unfortunate Expedition, under every disadvantage of exhausted Stores & Scanty Magazines, even the most minute article in the Commissarial, Naval & Military departments, but much the greater part of those articles, altho' procur'd, are still unpaid for, notwithstanding payment has been frequently & pressingly demanded.—

The arm'd Vessells, together with the Transports, (all of which excepting one, are destroy'd) were insur'd by Government, which together with their pay & subsistence, amounting to upwards of three millions & an half of dollars, is expected to be immediately paid. To this we must add the loss of our three State arm'd Brigg<sup>tns</sup> on whom we more especially depended for a supply of our Stores: As we would observe to your Honors that a dependence on any further Commercial Importations is, in our present situation, much too precarious, as we must, with reluctance, acquaint your Honors, that we have lost every Vessell, except one, that has been employ'd for Commercial purposes the last season; to this we subjoin, altho' with particular regret, the loss of the Brig<sup>tn</sup> Mantes from Bilboa, with Cloathing and other articles sufficient for a supply for our Army & Stores for the coming Winter.—

To the above disagreeable detail we have to mention the loss of the flatt bottom Boats constructed for the purpose of carrying Troops; & without replacing which, it will be impracticable, in case of attack, to transport Soldiers, with facility, from one fortification in this harbour to the other.— The amount of the Debt incur'd by the Penobscot Expedition we cannot, at present, precisely ascertain, but just & true accounts of that whole Expenditure, Shall, as soon as they can be collected & made out, await your order.—

We would, with due deference, suggest to your Honors, that the season of the Year is now fast approaching when it will be indispensably necessary that our Magazines should be recruited with large supplies of provision & other Stores as p<sup>r</sup> Schedule, which we have taken the liberty to annex, which will require very great sums of money, more especially as by the loss of our arm'd & trading Vessells, our usual resources are destroy'd On our part, we must beg leave to assure your Honors that whatever Grants may be made for that, or other purposes, shall be applied with the strictest Oeconomy to the purposes for which they may be intended.—

We have now in duty to you, our Honored Constituents, & in discharge of the Trust & Confidence placed in us, given you a general account of the Public Business and Concerns within our Department; and submit the whole to Your Honors wise & deliberate Consideration, nothing doubting that every measure that policy may warrant or prudence dictate will be adopted for relieving us, as far as may be practicable, from our present very embarrass'd situation.—

The Committee of both houses appointed to enquire into the reasons of the failure of the late Penobscot Expedition have after giving due Notice to the Commanders by Land & Sea & cited such persons as the Committee judged most likely to give the best account of the Reasons of the failure aforesaid proceeded to enquire into the Causes of said failure —

General Lovells narrative of his procedure with the Councils of War by Land & Sea & the Depositions of the several Witnesses delivered in on this enquiry accompany this Report And the Opinion of Your Committee upon the aforesaid Subject will appear as follows —

1<sup>st</sup> Question Is it the opinion of this Committee that they have made sufficient Inquiry into the Causes of the failure of the late Expedition to Penobscot —

Answer — Unanimously Yes —

2<sup>d</sup> Question What appears to be the Principal reason of the Failure ?

Answer — Unanimously, Want of proper Spirit & Energy on the part of the Comodore —

3<sup>d</sup> Question Was General Lovell culpable in not storming the Enemies Principal Fort according to the Requirement of the Comodore & Naval Council who insisted upon that as the Condition of our Ships Attacking the Enemies Ships, when at the same time the Comodore informed him that in Case of such an Attack he must call the marines on board their Ships (the last was not made apart of the Condition by the Naval Council) —

Ans<sup>r</sup> — Unanimously, No —

4<sup>th</sup> Question What in the opinion of this Committee was the occasion of the total Destruction of our Fleet —

Answer—Principally the Commodore's not exerting himself at all at the time of the Retreat in opposing the Enemies foremost Ships in pursuit—

5<sup>th</sup> Question Does it appear that Gen<sup>l</sup> Lovell throughout the expedition & the Retreat acted with proper Courage and Spirit?

Answer Unanimously, Yes, & it is the opinion of the Committee had he been furnished with all the Men ordered for the service or been properly supported by the Commodore he wou'd probably have reduced the Enemy

6<sup>th</sup> Question Does it appear that the Commodore discouraged any Enterprizes or offensive measures on the part of our Fleet?—

Answer Unanimously, Yes And tho' he always had a Majority of his Naval Council against offensive operations which Majority was mostly made up of the Commanders of private Armed Vessels yet he repeatedly said, it was matter of favor that he called any Councils & when he had taken their advice he should follow his own opinion—

As the Naval Commanders in the service of the State are particularly Amenable to the Government the Committee think it their Duty to say that each & every of them behaved like brave experienced good Officers throughout the whole of the Expedition.—

Ques<sup>tion</sup> 7<sup>th</sup> What was the Conduct of Brigadier Wadsworth during his Command?

Ans<sup>r</sup> Brigadier Wadsworth (the Second in Command) throughout the whole Expedition, during the Retreat & after, 'till ordered to return to Boston, Conducted with great Activity, Courage, Coolness & prudence.—

The Committee find the number of men ordered to be detached for this Service were deficient nearly one third whether the shameful neglect is chargeable upon the

Brigadiers, Colonels or other Officers whose particular duty it might have been to have faithfully executed the Orders of the General Assembly they cannot ascertain —

*Petition of Wm. Erskine.*

State of the  
Mass<sup>ts</sup> Bay

To the Honble the Council and the Honble  
the House of Representatives of said State in  
General Court Assembled at Boston October  
1779 —

William Erskine humbly Shews

That, after the arrival of the Privateer Charming Sally into this Port (through the damage which s<sup>d</sup> Ship received in capturing the Revenge, a Privateer of twenty six Guns & whose force was wholly directed against the Shipping in this Bay,) your Petitioner willing to render his country still further service immediately dispatched s<sup>d</sup> Ship Charming Sally upon the expedition to Penobscott; That s<sup>d</sup> Ship was fitted out with provisions and Stores for four months entirely at the expence of your Petitioner without the least cost to Government; That s<sup>d</sup> Ship shared the general destruction of the aforementioned Fleet, by which means your Petitioner was not only unfortunate in not accomplishing those services to his country which his good wishes had anticipated, but he thereby bears an unequal loss in the ruin of that day, as the s<sup>d</sup> Privateer was valued at only about two thirds of her real worth, according to the valuation of the rest of that Fleet: — That your Petitioner is now employed in dispatching two Ships of force to cruise against the enemies of these United States, from which he is apprehensive of being forced to desist through the present scarcity of Stores & Provisions suitable for that purpose, unless he is assisted by your Honors —

Your Petitioner therefore humbly prays that your Honors would issue direction to the Board of War to deliver to him the following articles viz. 12 Barrells of powder, 40 Bbls of

Beef &, 5000 weight of bread, in lieu of part of the articles of the same kind Shipped by your Petitioner in manner as aforesaid: And your Petitioner, in consideration that the Vessells he is now fixing for sea may be under the necessity of waiting for the above articles; in case your Honors shall not think proper to grant them as an equivalent for the same quantity by him expended in the public service as afores<sup>d</sup> he is ready to pay for them in cash immediately, or return them in specie at some future period, or have the price of them deducted from the price of the Charming Sally, as your Honors in your great wisdom shall think proper. And your Petitioner as in duty bound shall ever pray —

*Report of W<sup>m</sup> Lithgow Jun<sup>r</sup>.*

Sandy Point on Penobscut River Oct<sup>r</sup> 15<sup>th</sup> 1779

Sir,

As my present situation obliges me to be a Witness to the distress of the people on this river I should not only be guilty of an abuse of the confidence reposed in me by the Honourable Council, but also callous to the cries of the miserable was I to delay a single moment to lay before them the peculiarly calamitous circumstances of the wretched Inhabitants. some Weeks since General McLean issued an Order requiring one half of the Inhabitants to go to Magebigwaduce and labour on the Fortifications erecting there,

who were to be relieved by the other half when the General thought proper who threatned in case of disobedience to desolate the Settlements on the river & the adjacent Islands & treat the persons of the Inhabitants as Rebels; the people on the Island exposed by their situation and unable to resist pretty generally complied with the Mandate and went in to work, notwithstanding which, the humane McLean last week ordered a party in a number of small Transports & conveyed by the Nautilus Ship to land on Fox Islands where I believe they have plundered all the Cattle (except such as belonged to a few Tories who have gone within their lines) & burned some houses & Barns; but the Inhabitants on the River encouraged by our appearance at Cambden and disgusted at the perfidy of the British General, as well as the repeated insults offered them by the Troops under his command determined to sacrifice all their interest rather than comply with the General's Order, & in the mean time made application to me for Assistance in getting off their families & effects, as they seem generally to think they can no longer continue on their farms without having a body of men stationed among them for their protection; in consequence of their Application I left Cambden last Sunday night with a party of 500 men being all that could be spared from that post & arrived at this place a Monday Evening—the day following I took a small party & went further up the River accompanied by Major Minch a Volunteer in quest of a small party who had marched thro' the Woods from Kennebec; towards evening a party of about 90 regulars & Tories landed on this point (which is quite clear of Woods) under the fire of an armed Vessel, destroyed two old Whale Boats of ours that lay at the landing, burned one House which stood near the Shore, & endeavoured to destroy the remainder of the houses to the number of 4 or five but were repulsed in

the attempt with the loss of three killed & 7 badly wounded; Henry Goldthwait, a son of the Colonel's we are informed is among the latter.

I have now 70 men at this place but find it impracticable to get off the Inhabitants for want of Boats, as there is scarce one left on the River, all therefore that can be now done is to protect the Inhabitants as well as we can in securing their Crops which are very considerable, untill I receive some Order of Council respecting them, which (for the sake of the poor distressed people) I beg may not be delayed, as they will be entirely exposed to the fury of the Enemy after we leave this river which will be the first of November, being the expiration of the Term for which the Men were Detached—I am persuaded the Honorable Council will think it necessary either to remove the Families with their effects or immediately order a sufficient Guard on the River to protect them during the Winter; should their removal be thought eligible I should think it best to send a number of Transports convoyed by a sufficient armed force, as it is in the Enemy's power to prevent the passing of Boats—perhaps half a Dozen Wood Sloops might serve to remove the whole (except the Cattle which may be driven by land which might enable the people to support their families untill the Spring without being a public burden, but should it be thought more expedient to post a body of Troops here during the Winter I imagine 200 would be little enough to guard this river and Cambden which places are at any season accessible to the Enemys Shipping in the latter case it will be necessary to order Barracks built to shelter the men & a quantity of Bread sent down; as for Beef I believe enough may be got here—many persons with large Families of helpless Children have already fled to the Neighbours of Cambden St Georges &c with scarce property enough to support them a single day &

many more have been obliged to take Shelter in the Woods — some wish to continue here provided they can have protection & others incline to go to their friends in various parts of the Country at all events — the Enemy's naval strength at present consists of two Ships; three Nautilus of 16 Guns & the Albany of 16. or 14 Guns and an armed Sloop & Schooner; I shall endeavour to employ the small remainder of my time here in annoying the Neighbourhood of the Enemy as much as I can by scouting parties. Yesterday I sent a small party near Magebigwaduce to drive off the Cattle, & destroy some Hay which is like to fall into the Enemy's hands, after removing the Families who wish to come away & propose very soon to take possession of a Field of indian Corn belonging to Col<sup>o</sup> Goldthwait said to contain 50 or 60 Bushels which lies between us & the Enemy

I have the honor to be

Sir

Your obedient Servant

Sirs.

Major Lisgow's Absence from this Post up Penopscutt River, make's it my duty to Informe you of the Arival of a number of the Enemy's Shiping in this Bay and now on their way to Major — Bigwaduce —

They Appear to consist of one Large Ship Suppose to be a Transport of Troops, a Frigate of About 32 Guns and a Number of Tenders— The principle Officers at Bagawaduce have given out they would pay us a Visit at this post very soon, but With the Troops I have here which Consist of 60 men, and the Assistance of the Inhabitants I am determined to maintain the Ground if Possible

I am your Honours Most Obedient Humble

*Report of Gen<sup>t</sup> Cushing—*

Pownalborough Oct<sup>r</sup> 18<sup>th</sup> 1779

Sir/

Inclosed is a Letter sent express by two men from Penobscot through the woods by the way of Fort-Halifax from Cap<sup>t</sup> Ulmer who is there with a Scouting party of about Sixteen Men— In Consequence of which I have ordered a Company of Men to March from Fort-Halifax to Penobscot & there Protect the Inhabitants in the best manner in their Power until the time for which they were detach'd shall expire which will be the first of next month. have also directed Major Lithgow to send a Company from Cambden to Co-operate with them at certain seasons as he can spare the men from that Quarter. Have also appointed M<sup>r</sup> Jedediah Prebble of Penobscot to Supply the men that may be sent there with provisions.

I apprehend it would be very necessary that some men should be continued to be stationed up Penobscot River to Support the drooping spirits of the Inhabitants who it seems are willing to defend themselves, notwithstanding their oaths

—provided they can have assistance. And if no assistance could be afforded they would choose to remove from thence if they could get off, rather than be subject to the Britains—Their Situation is truly distressing—between the Britains & Torys they are subject to daily plunder & know not which way to fly for shelter & if proper measures are not taken to keep up Constant Guards The Inhabitants this way may be, by the incursions of the enemy rendered in like manner miserable. I have Stationed Some Troops at the mouth of Kennebeck River where it will be needful to Continue them & in several other places, but principally at Cambden—

If a Military Force Should be kept up it will be necessary to provide Barracks before the Cold weather comes on especially at Camden where it is likely the greatest number of Men may be stationed.

As the Article of Bread may be much wanted not only for the Inhabitants of this Country but also for Men that may be raised for the defence of it—It would be very beneficial that some measures should be taken to prevent persons that come into this County from Carrying off Indian Corn Rye & other grain which is done by extorting this sort of pay for what they may have to sell, to the refusal of the currency—

I am at a loss to know the proper rations to be delivered to each Soldier—having never received any directions for that purpose. Should be glad to be inform'd respecting the same

Previous to the raising the Troops for the Penobscot expedition upon the first arrival of the enemy at M. biggwaduce I caused about three hundred men to be raised & stationed at Cambden by advice of the Committees of the several Towns in this County. When the establishment is made for the payment of the Penobscot Troops, should be

glad it might be made for the payment of the other also —  
I am Sir Your Most Obed<sup>t</sup> & Very Hble Serv<sup>t</sup>

To the Honorable the Council

Ebenezer Thayer humbly represents

That he has been for some time in the service of this State as a Marine Officer and was first Lieutenant of the Armed Brig Tyrranicide on the late unfortunate Expedition to Penobscot, where in the general destruction his own loss was very considerable, that he flatters himself that in the several

Stations in which he has had the Honor to be placed he has conducted himself as an Officer and Seaman and as he believes to the approbation of his Commander. But his private circumstances and disposition not admitting a State of inactivity and being well informed that there is no prospect that any immediate equipment of State Armed Vessels would take place and wishing to hold his Rank and expectations when opportunity presents, solicits your Honors leave of absence for four Months Cruise against the Enemies of the United States, upon his return from which and at all other times he prays leave to assure your Honors that he shall be cheerfully ready and desirous to obey the call of the Honble Council or the Board of War for any Station or Command for which he may be thought to be qualified.

*Letter of Col. Allan.*

Mechias, Octo<sup>r</sup> 20<sup>th</sup> 1779

Sir — I had the Honour of Writing you the 28<sup>th</sup> Utomo, by Capt<sup>n</sup> Da Badie who went in Company with Col<sup>e</sup> Lowther of Penobscut, By the Lakes 130 Miles Back, with four Indians in Two Birch Canoes, But verry Unfortunately The whole Fell into the hand of the Enemy about the 12<sup>th</sup> Instant on the River Penobscut, some Cannadians, Indians & French to the number of Twenty Six Under the Direction of Cap<sup>n</sup> Lunier, who Lives on the Carrying place between Penobscut and S<sup>t</sup> Lawrence—

They Arrived at the Indian Village about an hour before Col<sup>e</sup> Lowder, none but Two Indians of Penobscut being present the Rest Gone to Kenebeck & others come this way There Business was for Inteligence, & verry Unfortunately for me and this Department they found out the perticulars of every Matter This way—Lunier finding by Letters That the Indians were on their March from S<sup>t</sup> Johns to Joyn me,

dispatch'd of a Canoe with a Belt of Wampum Inviting Them to Canada with Great Promises & on refusal Threatning Them—

The advantages the Enemy Must reap by this will be Great if they Improve Thier Time—I took This Opportunity Supposing very Safe to write to Congress, the General & Several Others wherein a full State of the Whole Business was Communicated, a Copy of what I wrote with The several papers to The Hon<sup>ble</sup> Board, I here Inclose no time must be Lost for aid to Enable me to Support these parts—

This Capt<sup>n</sup> Lunier, the Hono<sup>ble</sup> Board may remember, That I mentioned Several times since my Being here, he is an Active Vigilent fellow & Great Influence amoung the Indians, I was very Anxious to have him DisLodged, on my first Coming here which might have easily been done Then, but he has Now a Number of regular Troops & Canadians with him, I dread him Most at present & by his late success no doubt he will Endeavour to harras these Settlements—

The difficulty & Troubles in this Department seems Growing, the successes of the Enemy Strengthens the Sentiments & Encourages the Disaffected & selfish Combinations forming to Overthrow every Order & Regulation & Reports probagated to discourage the Commonality as to render them Useless Members of the States, every Illicite Method persued, both in Trade & Politics, authority defyed, & Declarations made, that the principle of the General Court will support them in Their Trade with Nova Scotia—This is prevalent thro all the settlements Eastward of Penobscut—The Sloop which the Indians took from Littlefield was taken from the place where the Indians Left her, in a Most Vilianous Manner & Conveyed into Another part of the State, whereby a Mock Process, to be Libilled in Behalf of the States By a Naval Officer, without doubt to return into the

hands of the former owners — This has Occationed a Great Resentment Among the Indians, which with several others of the Like Kind, Keeps the Indians so Unsteady, That no Dependence Can be put Upon Them & Creates an Intolorable Expençe by Making presents to prevent Their Going to the Enemy —

The Unsteady Conduct of the Indians, with some Unhappy Conduct of Some people Oblidged me to Use every Mean to prevent their Going to S<sup>t</sup> Johns Every Employment & Service requires Immediate pay, which has Consumed every Matter I had Come — I flatter'd myself Much in the Spring in having a Chaplain, but am Greatly decievd in my Expectations, have not met with such Difficulty Like this Summer

Ammunition is become verry Short, Bread Kind is just out must request an Immediate Supply at all risques, as also dry goods —

Lieu<sup>t</sup> DeLesdernier whome I sent to the Indians assembled on S<sup>t</sup> Johns River from the Confines of Canada to prepair them to Meet me, returnd a few days ago — with Inteligence of their Being on the Way to Passamaquody to joyn as Ambroise sent me word of their being Upwards of Three hundred, this day have Sent them some provisions & shall follow in Two or three days myself, — I expect Great Demand to be Made, & our Shortness of Bread, Dry Goods, & Ammunition, the Latter Continually in want of, I shall be put to hard shifts — More perticularly as I know not the Intention of Government, I shall be at a Loss how to settle them for the Winter, they must not be permitted to Go away, as the Safety of the Country depends on their being near us —

The Militia seems to Act now with a Little better spirit Tho I am oblidged to persue every easy & Condesending

Measure to Obtain Any, I allow them provisions & have settled the meat part, with those Eastward of Frenchmans Bay That were Going to Penobscut, & obligated my self to settle the rest, I have also Caculatd the Bounty to so much a Mounth, to Keep up the Garrison in a posture of Defence The Post is finished & a Barrack allmost done for 40 Men — I have a Compound Complex & Mix'd Affair to Go thro to Sustain the post & Keep it Any way respectable in all Shall Endeavour to Keep as Close to the Resolve of Court, as possible, & accomplish the Intention of Government, But am often Compell<sup>d</sup> to Depart from regular Rules & fall Upon & persue a Variety of Measures to bring about Matters —

Several Things I Mention in a Hurry in a postscript in my last Letters which I now omit, perticularly respecting the Indians Assembling at S<sup>t</sup> Johns — I have diliv<sup>d</sup> Col<sup>o</sup> Campbell some Advertizements which I publishd Thro the Country, for the Honoble Boards Satisfaction, which Contains the Intelligence —

I trust & Rely That Attention may be Given to my Letters, That I may know what I am to Depend Upon & how to Manage — With all Humble Respect I have the Honour to Be with the utmost respect Sir

Your most obd<sup>t</sup> very hble serv<sup>t</sup>

*Instructions of Col. Allan.*

Dear Sir

Machias October 27<sup>th</sup> 1779

I am obliged to hurry you away, so that I cannot write to Every one I intended, and shall allso be very Incorrect in

my Instructions, But you must Endeavour to Pick them out as well as you Can—

You will immediately on receipt of my Packet, take the most Immediate & Safe Methode for Camden, observing to have the Packet allways in a situation to distroy—

The several letters will be open for your perusal, which when you perceive the Contents you will Seal up so as to be able to Communicate my sentiments if anything should happen the Letters—

On my Arrival at Camden, you will proceed by Land or water as you think best & most safe & Expeditious for Boston.—on the Way you will Endeavour to see any Commanding Officer making known our perilous situation & Claiming a reinforcement if any way Compatable with this duty—

You will Endeavour, By all means, to have a Claim Laid in for Littlefields Sloop, in favour of Ambroise St Aubin Shechem & others of the mansheete Tribe of Indians in the service of the United States who siezed said Sloop at Passamy when Carrying on an Illicit Trade with the Enemies of the United States, & had been doing so for sometime past, Carrying Lumber to the English West India Islands, & returning with the produce to Nova Scotia, Converting the said returns into English Dry Goods making it a plea that he was Getting his Debts from Nova Scotia, so to the States for a Load of Lumber—

On my Arrival in Boston you will deliver the Different Letters to the Severell persons with your own hands & Communicate such matters as belongs, or Comes under their Inspection or Cognizence, after which I woud have you go to Providence and wait upon Generell Gates, no doubt he will Inquire perticular of matters, perticular of Mr Lemotte you own knowledge of the Country & other affairs

you will be able to judge best thereon and answer accordingly—

Mr. Valnais will also be perticular about Lemotte, you will mention the difficulty I have put up with, and was determined to Continue so if matters had not come to such a pitch, you will urge to have him sent of as he is possess'd of such a disposition, as makes him a most dangerous person to Continue in this department, or any part where he is likely to reach the Enemy, and as to Ecclesiastical matters he will be of no use without a Reformation—

In respect to the affairs of this Department & the Country in Gen<sup>l</sup> you will see my Sentiments in the Severell Letters, which I woud have you press home to them, know doubt you will find much opposition & a strict sentiment into matters here—You are sufficiently Acquainted with the Nature of the affairs & how I am oblided to manage to keep matters together. The Indians Demands are perpetual & Extensive—I am often Compelled to Borrow Vegetables, Meal & meat from the Inhabitants, and when anything is to Be done am necessiated in order to keep the department together, to Borrow, Lend & Dispose of matters from the store—allso to Supply the Troops at times with necessarys, or nothing Coud be done it is a Compound Complex'd affair, & I can give no other Satisfaction then acting upon principles of Honour—

You will Endeavour to State | tho' not With a View of Complaint | my Difficultys with the Priest and others of the French, that He has been the means of great Expence, you will find By Mr Valnais Letters how he has acted—I woud have you take at your Leisure times, a Memorandum from the Several Letters I write notes of all matters to put you in Remembrance—

You will perticularly observe about the Stur in the Eastern Country, Passamaquody, Tradings with Nova Scotia — about Militia affairs and other of those matters —

If you find it necessary, you may gete Copys of my letters, former & present to the Court to send to Congress, or otherways as you think proper —

In respect to this department, it will be necessary to know what is Intended, if it is of so much Consequence to be supported or not — if it is as I have represented in my Letters or not — If it is thought to Be of Consequence, then to prevent the great Expence By not Laying in suitable supplies, as allso to Enable a Commander to Defend the Country there must be a Body, not less then 100 men sent from the westward, with Every necessary, Supplys must be Laid in more Certain for the Indians — The Court may suppose many things Comes here. But there is seldom not more then two thirds & often not one half of what they Vote, & that of the most Inferior sort — If they Intend Not to Support it, I must beg Liberty to resign my Military Commission for I cannot do Justice to my County & am daily Raising the Expence By being oblided to Employ others to Carry on Business —

Should it be thought adviceable I woud have you or Mr. Avery proceed to Congress — but in any matter I woud have nothing done, only what Actualy Concerns the publick, for my own part I woud much rether Decline Saving — But if it is to be supported there is no time to Be Lost in sending down a Supply of flour & Indian Corn, Molasses, Rum, Blankets Powder Ball Shott Tobacco — Rether then delay Mr Avery must purchase with any money he has of mine & Convey'd if no otherway, By diff<sup>t</sup> opp<sup>o</sup> — I must again repeat there must be no time Lost in Sending the fore-

mentiond Supplys & if possible some men, for I am under the Greatest Apprehension Every moment

The Body of Indians now at Passamaquody is very large, uncertain the Number till I go there which I trust will be by Sunday I have Invited them there, will Expect to Be supply'd, as I Generely keep them in actual service, they are Anxious for fighting & had I but Forty men I Certainly woud attempt Fort Howe .

The taking of my Packet will give the Enemy such notice of our situation, as to require the most Vigilant & active attention to this department—you will State the matters of the Big Necessity I was under to take the Cargo—But not all the Butter—

You will in my Name fully oppose the Tolerations & Priviledges given to people going to Passamaquody & Nova Scotia as allso the Conduct of small privateers, & those advanteuses of Nova Scotia, who are perpetually prompting the Enemy to attempt this way and Greatly Endangering the unhappy people in Nova Scotia—

You will allso appear in my behalf to oppose any thing alledged against me respecting the Toleration said to Be Given the Indians to distress, as allso in my behalf State the Impropriety of the Conduct of many in the Eastern Country, the danger we are all in By its present State, & the Influence the Disaffected seems to have over the Commonality—

You will please Act in Conjunction with Mr. Avery if you Come across him, if not yourself asking advice from those you Can Confide in—As I shall not write Mr Avery this will Do for Both make my best wishes & affection to him, I wrote By how Mr Avery will deposit in Mr Shaws hands all my money But £2000 which he will bring with him—

You will perticularly wait on Captain Whales of Dorchester one of the House, my Comp<sup>ts</sup> to him, wrote him But fell into the hands of the Enemy. Communicate suitable matters to him, you'l find him a man of Integrity & Honor

You will allso in my behalf, wait on Mr Sam<sup>l</sup> Adams, Mr Cross & others of my friends making my Comp<sup>ts</sup> acquainting them with my Troubled situation —

You will in my behalf address the Gen<sup>l</sup> Court in a Humble manner, Acknowledging their Great kindness to me & the Trouble I am in that they shoud be so harrass'd in my affairs respecting my Character Last Spring—that to Give them Satisfaction I am Geting the Commissarys Acct<sup>s</sup> Settled, & beg if they are Jealous of my Integrity they woud order me to Tryall—as I am allways willing to do my utmost so I woud willingly act under any whom the Generell Court woud Chuse to Superintend, till they were thoroughly Acquanted before my full Desmission.

I want to Lay up nothing, all I want is a Bare Subsistence to Enable me to go thro the business, the rest my Country is Welcome to—

Mr. Avery can be a sufficient Judge of the necessarys for Indians he has a Catalogue my time will not permit it at present—

By the Inclosed Copy from S<sup>t</sup> Johns, you may see the Precarious Situation of this Country, By the Threats of that Schoundral Rogers; He is to Be feared & Dreaded, I have not probagated the news here—

I woud have you take a good Trusty person with you, who is to Be sent immediately Back, from any Place you think sutable Even to go to Boston if that Best—with all Intellegence & News you Can gete

As I have not time to write Copys of Letters, papers &c, you will have under Cover a number of papers, Expecting

different matters which you will Shew to the Different persons Concern'd, or such as you think proper—Mr. Avery having returned, the whole will Lye upon you to Transact—

I must recommend strongly that you Endeavor to Gete to Gen<sup>l</sup> Gates before you show any of your Letters, or go into Boston; as I flatter myself he will pay the most attention, But I woud have you, be perticular before you shew him any other then his own Letters, what his Temper is & how his time is Be Spared for the purpose—you may acquaint him my Inclination to resign if not better supported, the dishonor am Liable to in my Situation. The difficulty's I pass thro', my House being a rendevous & the Difficulty therein—you may Lett him know if time will admit of all the difficulty in the Country—upon the whole I must have 200 Bushels Corn—40 Barrls flower—1000 w Powder—3000 w of Shott & Ball—and all the mollases & rum due from the Board of War.

You must send the Copys of my Letters to the Gen<sup>l</sup> Court to Congress—Inclosing a Line that it was my Directions for so doing If you Go not yourself—

Sir/

The Officers of the Continental Army belonging to this State are in extreem want of Cloathing & the General Assembly in their last Session were so fully impressed with a Sense of their necessity that they directed this Board to make every exertion in our Power to render their situation & appearance more decent & comfortable, but the great scarcity of Cloathing has rendered our endeavours ineffectual & we can see no possibility by purchases here of making the supply that is absolutely necessary to render the situation

of the Officers in any degree tolerable we have been informed that the Enemy have left a considerable quantity of Cloathing at Newport suitable for officers as we have no doubt of your good disposition toward the Gentlemen of the Army we take the liberty to request you Sir to furnish us with such a quantity of Goods or afford us an opportunity of making such purchases as will enable us to execute our Commission in this respect—the loss of our Vessels at Penobscot has occasioned a very great demand for Cannon for Public use which it is not in our power to replace for want of Sea Coal to keep the Air furnaces in blast—we are also in great want of Cannon for a New Ship of L<sup>t</sup> Greens belonging to this State these objects it will not be in our Power without the utmost difficulty to compleat for want of Sea Coal we would therefore request your Honor if consistant with the Public interest to furnish us with 15 or 20 Chaldron for those Purposes—Success seems to be attendant upon the Conqueror of Burgoyne & we most sincerely congratulate you on your present agreeable situation at Newport, hope soon to have an Account of our Friends & Allies being as happily accomodated at Savanah and we wish to add New York—give us leave to ask an Answer as early as is consistant with your Honors other important actions—

*Resolve Committee of Safety.*

In Committee of Safty &c &c

Machias Nov<sup>r</sup> 6<sup>th</sup> 1779

Resolved that it is the opinion of this Committee, that in Case the enemy hold their Post at Penobscot, and should attack this and the neighbouring settlements to the Eastward of Penobscot, with a Considerable force, we should not be able to defend the Country against them, Unless we can have succor from the westward

Resolved that it is the opinion of this Committee, that three or four hundred troops, in addition to the inhabitants, and Indians; with sufficient supplies for their subsistence, would be sufficient to defend these Settlements against any force in the power of the enemy to Lend this Winter

Resolved that it is the opinion of this committee that Machias is the most Eligible place for depositing Supplies for the Indians and that there ought to be a Cap<sup>ts</sup> Com-

mand to gaurd them, and that the remainder of the afore mentioned number of men, ought — Under the Command of a proper officer, to be stationed where it shall be thought most advantageous for the security of the whole.

Resolved, That it is the opinion of this Committee that the publick Service wou'd be better promoted were Col<sup>o</sup> Allan not to be burd'ned with any millitary Command, but left at liberty to give his whole time and attention to the Care of Indians — Which business, we think him as well qualified for, as any person within the Compass of our knowledge

Resolved that this Committee, and they believe every Individual of them Constituents, Considers it as the greatest temporal evil that can possibly befall them, to be reduced to the hard necessity of Submitting and takeing an oath of Alegiance to the British tyrant Which rather than Submit to, many of us, are determined to quit our habitations, which we Consider as nothing in Comparison to leaveing to the mercy of the enemy our wives and children those dear objects of our Best affections

Resolved That our fears are much abated and our expectations raised by the late advices we have receiv'd of Count DEstangs arival & successes on the coasts of Carolina & Georgia, and of his being hourly expected at York Should he arive there and meet with the wished for success we are Confident that we shall nothing to fear from the enemies in this quarter —

Resolved that Col<sup>l</sup> Alexander Campbell be desired to represent our present unhappy situation, to the great and General Court of this State, and to pray for them advice and assistance under our present distresses And ordered that the Chairman write Col<sup>l</sup> Cambell on the matter and send him a Copy of these Resolves

Gentlemen

I am again constrained in behalf of the Continent, & the General public service which is essentially suffering, to re-iterate my Request, that your honorable Board, would so far interfere as to recommend to the Selectmen & Committee of the Town of Falmouth to release the 49 Head of Cattle which the Navy Board purchased soly for the Use of the Continental Ships now in this Harbour. The Person, by the Embargo Act appointed to grant certificates in the County of Cumberland necessary for the Cattle to pass, being a Selectman & Committee Man both, refuses to grant such. Certificate; Nay they go much farther & appear determined to take such steps as they think will get the Cattle condemned as forfeited. The public Money, to the Amount of 30,000 — Dollars has been truly paid for this Supply of Provisions, & the frigates now lying in Nantasket Road & in the Harbour are supplied with Beef Borrowed & to be paid out of the afores<sup>d</sup> 49 Cattle.

Your Honors ready Attention to the Continental Service, renders any thing farther on the Subject unnecessary, except to request your Honors Consider of the Subject as soon as possible, the Man employed by the Board being in waiting to proceed to Falmouth for the third time on this vexatious Business

That on the expedition again Penobscot when the En[ took possession, your Petitioner being in the Service of this State, was obliged to remove his Family from the Island, that the Enemy are in possession of all his Estate, that he is now drove from his habitation and has no place to put his Family into this Winter, that one Nathan Jones of Goldsborough, who is indebted to your Petitioner by three several Notes of Hand to the amount of about Five hundred pounds lawful Money, which Notes bear Date Nov<sup>r</sup>

Falmouth 10<sup>th</sup> Nov. 1779

The Committee of Correspondence &c for Falmouth, in Obedience to an Order from the Hon<sup>ble</sup> Board of the 3<sup>d</sup> Septem last, have endeavoured to provide for the Detachment then Order<sup>d</sup> to be made, in the most frugal manner possible.

For this purpose we appointed Cap<sup>t</sup> Joseph McLellan to act as Commissary, & directed him to issue bread to the Battallion of some then in his hands belonging to the State, This he did so long as it lasted. We then furnished y<sup>e</sup> Men with soft Bread as well as we could.—We endeavoured to content y<sup>e</sup> Men with as small Rations as possible.—We allow'd them only Beef, Bread, Potatoes & a small quantity of Soup.—We were reduced to the necessity of selling some State Rum, in the Hands of Cap<sup>t</sup> McLellan, in Order to raise Money to purchase Beef &c. This we thought good Aconemy, & therefore directed the Rum to be sold.—

Our Acco<sup>t</sup> we now send forward by Cap<sup>t</sup> McLellan.—We think y<sup>e</sup> amount will not exceed your Honors expectation. We have charg'd no Commissions, leaving it with your

Honors to make such allowance for our Service as you shall think proper.

The Men were discharg'd on the 22<sup>d</sup> October last.

We are, with much respect,

Your Honors most Obed<sup>t</sup> & most hum<sup>l</sup> Serv<sup>ts</sup>

To the Hon<sup>ble</sup> the Council & Hon<sup>ble</sup> House of Representatives of the State of Massachusetts Bay in General Court Assembled at Boston Nov<sup>r</sup> 10, 1779

The Memorial of the Navy Board for the Eastern Department—Humbly Sheweth

That for the Supply of the Continental Navy in this Department under their Direction they have Employed Mr Jonathan Winship to procure for them Beef, Pork, & Mutton, that the said Winship has usually procured the Beef for them in the State of New Hampshire, & in the Easterly part of this State, & that he has latly by Mr Greely, purchased for that purpose, near one hundred head of Cattle in the Easterly part of this State, & that Forty nine head of said Cattle which said Greely was designing to bring here for the use of the Navy, have been Stopped & detained by the Committee of the Town of Falmouth, That a pass for them has been refused & that they are still detained from the public Service not only as your Memorialists conceive against the Spirit & design but against the Letter of the Acts of this State—

They therefore pray your Honors to take this matter into your consideration, & afford such relief in the present case,

& make such provision for any of a Similar Nature that may occur in future, as your honors may in your Judgment think proper & Conducive to the public Interest

On the River Waggagaudawoia, or S<sup>t</sup> Croix  
Sir, Nov<sup>r</sup> 10<sup>th</sup> 1779

I have just time to Acquaint the Honble Council that in Consequence of my Message to the Several Tribes of Indians

a Number mett me on this River for Conference—I find still a General Attachment to the American Cause, But fluctuating in their Intention where to rest, as the Britains are using Every method to Gain them, by presents & other Encouragements, which gives me some Suspicion.—

The Intelligence by them Corroberates, with what I before received of the Enemys Intention of Coming from Canada this winter on Snow Shoes for the purpose of Destroying the Eastern Settlements,

Having invited the Indians to Come, who left their Corn & Effects on St Johns, the Winter being so near, that they Could not go else whare for Subsistance which they strongly remonstrated about, the fear of their falling in, in General with the English if I did not keep them under my own Eye, & the Danger of those parts the Ensuing Winter without their Assistance, I think it most Expedient that most of them Winter at Machias,—Accordingly 46 Wigwams Containing about 90 Men, in the whole 280, are now preparing to sett off. I have promised to procure them Necessarys & Provisions, & have Communicated perticular the present situation—relying some Assistance more will soon be for them—I have ordered a Quantity of Different kinds of Vigitable to be purchased for Butter—

I Trust this step will be approved of, if not the Indians must be supported—the very Conduct Towards them this Winter will be of the Utmost Consequence in the Indian Affairs the Ensuing Summer, as their is some from all parts here—

The Consumption of Meat & Butter is Great for want of Indian Corn & other Bread kind must Occation its soon being out—Cloathing is Wanting,—I must therefore request, that a Quantity of Bread kind, Corn flower &c Powder, Shott,—a Quantity of Blankets Shirts & Cloth for Indian

Stockings for the whole be sent with the Utmost Expedition — as I must again repeat the whole Indian Connection Depends upon it,—

I had the Honor of writing a short Time ago by Col. Campbell which I hope has ben rec'd, I have further to Acquaint their Honors that but three familys of the S<sup>t</sup> Johns, is now on that River, which I expect Daily — Piere Tomma is here, & we have Buried the Hatchet & promised mutual affection,—Those who does not go to Machias will Continue on the Lakes at the Head of this River,—

I shall Transmit a perticular List of Every Indian and their familys, as soon as I Can get Time, I am present surrounded by them which is the Common Custom—it prevents me Doing it at this Junecture

I have the Honor to Be with all possible respect & Esteem

Your Honours most obed<sup>t</sup> and Devoted Hble. Ser<sup>t</sup>

J Allan

P. S.

I met here 2 Deserters from Fort Cumberland in a small Packet Boat, belonging to Col<sup>o</sup> Goreham — one an American the other a Foreigner, the Boat being of much use here I purchased her;—

We allso fell in with a Large Schooner, Having on Board a Considerable Value, some of which appeared to have a Toleration to be brought into the States, But the Principle part otherwise, & by every Circumstance appear'd to be following an Illicit Trade, as much for the Benefit of Britain as America—I tho't it Expidient, to reccommend to the Cap<sup>t</sup> of the Neashquowoite, to take charge of her & send her to Machias till further Inquiry—Every perticular shall be Communicated as soon as Time will permit—

The Indians before mentioned does not include those now at Machias, there is 36 Wigwams now on the Lakes at the

Back of that Settlement within the sound of an alarm — no  
Miemareks has arrived

*Testimony of Thomas Wait Foster.*

I Thomas Wait Foster testify and say that I was Gunner on Board the Ship Warren in the Expedition to Penobscot—

that when we arrived at Penobscot Cap<sup>t</sup> Saltonstall applied to me for Wads, for Col<sup>o</sup> Revere who he said was destitute, I told him it was Col<sup>o</sup> Revere's business to supply himself & that I should not furnish him—after Col<sup>o</sup> Revere had sent the eighteen & twelve pounders to Hackers Island Cap<sup>t</sup> Furlong applied to Cap<sup>t</sup> Saltonstall for Shot for the aforesaid Cannon—Furlong said he had applied several times to Col<sup>o</sup> Revere, but could not get Shot that were suitable, all the Shot he had receev'd were too small, I then supplied him with ninety Round Shot 18 & 12, pounders—When the Redoubt on Bagaduse was taken, I was again applied to for Cartridges, Spunges, & worms, for the Cannon the enemy had left in the aforesaid Redoubt; the person applying said he had applied on board the Ordnance Brig: but had not been supplied by Col<sup>o</sup> Revere—I accordingly supplied him—After this Col<sup>o</sup> Revere personally applied to Cap<sup>t</sup> Saltonstall for Grape Shot—for 18 & 12 pounders—I by Cap<sup>t</sup> Saltonstalls order deliverd two hundred weight of Shot for grape which were not quilted—I never during the expedition discover'd any backwardness in Col<sup>o</sup> Revere, but he ever appear'd to me to be busy in endeavouring to find out the strength of enemy—

Machias Novem<sup>r</sup> 15<sup>th</sup> 1779

Sir I had the Honor of writing the 10<sup>th</sup> Ins<sup>t</sup> from the River St Croix,—Have now to acquaint the Hon<sup>'ble</sup> Board of my Arrival here with all the Indians, Except 14 Wigwams which I ordered on the River Copskook which leads from Passamaquody to Machias

The Virtuous Conduct of those Savages requires the Generosity of the States, to attend to their Situation—and

for fear of their Drawing off from us, Commands the Exertions of Government to Give an immediate Ear to the Care of them,—

As soon as I range matters a Little I intend if Possible to go with a Number of Indians towards Majorbagwaduce to Join Capt Preble who I sent sometime ago to raise Rangers, by the Encouragement I received from several Inhabitants on that River, Agreeable to a resolve of the Gen<sup>l</sup> Court—I have Dismiss'd Cap<sup>t</sup> OBrien & some others, allso what of the Malitia I have on duty here shall dismiss this Week,—

I have Calld on the Commisary for a General Acc<sup>t</sup> of every Expenditure since my Command, & am now Settling the whole affairs of this Department, which shall be Transmitted as soon as finished with the other Returns,—

I am sorry that I am Compelled to inform the General Court that a General Conduct appears to Take place, (under the Colour off Bosmith to bring affects from Nova Scotia) of Carrying on an Illicit Trade

The Military by doing their duty must become obnoxious, this I find will soon be the case with me, nor can I Discharge the Duty I owe my Country without bringing the Vengeance of the Commercial part of the Eastward upon me, By which I am Liable to be Keep'd in perpetual Broils, much to the Damage of the Public Service, as it must prevent my pursuing my business with the Indians, which requires all the Time & Talents I have—

From these Circumstances, should there not be a Check to such proceedings by Government, I must Claim the Indulgence to be Dismiss'd from my Military Employment in this place,—I have been very happy in this Capacity, & Esteem it the Greatest Honor & favour During the Corse of my whole life in being in the Military Department &

Cou'd wish to Continue during the War, But the Difficultys I have to Encounter is beyound my fortitude or ability to Withstand in this place—Shoud the Hon<sup>ble</sup> Congress approve of my past Conduct and think it Suitable to Continue me Longer with the Indians—I woud Chuse to move the Stores & Every matter whatever of that Department from among the Inhabited part of the Country—

Shoud my Conduct not be approved off & tho't Expedient for the public Service that I shoud be succeeded, I willingly offer my Service as a Volentier under any Gentleman appointed to Continue until he may be Acquainted with their ways,—

This Day I have a Conference with the Indians, the whole Proceedings, I shall Transmit by next Opportunity—

I have the Honor to Be very respectfully Sir

*Petition of Towns in Lincoln County.*

State of the Massachusetts

Bay in New England

To the Honourable the Council and house of Representatives In General Court Assembled at Boston A. D. 1779

The Petition of the Several Towns in the County of Lincoln by their Agents mett in Convention at Wiscasset pint on the Sixteenth Day of November A. D. 1779—Humbly Shews That the first Settlers of this County, as well as those that have Settled here Since, were most of them very poor, and Destitute of almost all the Necessaries of Life, the Land heavily Loaded with wood and Timber, and very hard to Cultivate, they were obliged to go into the Lumber Trade, for their Immediate Support, by which they had many Thousand Bushells of Grain Annually brought to them, as well as wool & flax and other Articles by which they were Supported, and have ever Cheerfully paid their full proportion of the Publick Charges, but Since the Commencement of the unhappy Controversy between Great Britain and these Colonies our Case and Circumstances are become truly Deporable, for those few that had some small Interest in their hands, which consisted Chiefly in Coasting Vessels, which they imploy'd, in carrying of our wood and Lumber, and bringing back Grain, and other Necessaries of Life, until the Risque became so great that it reduced our wood and Lumber to almost nothing, and the prise of Provisions—Excessive high, whereby an undue proportion of the Burthen of the War fell upon us, and finally out of Sixty Coasting vessels, which was own'd to the westward of S<sup>t</sup> Georges Forty nine are taken or Lost, and Still further to compleat our misfortune, we are prohibited by a Law of this State, from Exporting masts spars & yards, many of which are now Laying upon our hands, and will soon be finally Lost, and in the

year past, the little hopes we had from the produce of our Small Farms was almost wholly cut off by an uncommon Drought, so that in the winter Season many Families were forced to Live (or rather Subsist) without bread or meat, for weeks and many for months together, as there was but very Little Grain brought to us to be sold, and that at as high a Price as Sixty Dollars p<sup>r</sup> Bushell — ¶ and as to the present year the Prospect is still more gloomy and Desperate, for after haveing Struggled through the Miseries of a hard and pinching winter, the Peoples Countenances Pale, and their Bodies become feeble, through want and hunger, they were in the Spring of the year, from the first appearance of things, in great hopes of a fruitful Summer, but their Early hopes were soon cutt off, by amazeing Swarms of Grass hoppers, and other insects which in many parts of this Country almost covered the face of the Ground, and distroy'd great part of the Grain & Grass and almost all vegetables that grew out of the Earth, and still further to compleat our Misery, Early in the Summer our Sea Coasts were infested, and our harbours block'd up by British Ships of war, and Privateers, whereby the people were Alarmed and Almost all Business Laid aside for some time, not knowing which way to turn themselves But in a Short time about one half of the Militia was called to Arms, & march'd for the protection of our Defenceless Sea Coasts, and then to join in that Inglorious Expedition to Penobscott, where they served for two months, this being in the most Buisy Season in the whole year, and thereby many Lost great part of their Grass and Grain which the Devouring Insex had Left And since that, about one third more of the Militia has been calld off to Guard the Sea Coast, and our Defenceless neighbours who then were and Still are every hour in jeopardy of their Lives and fortunes from the Enemy, which Troops are now Return'd and the Eastern parts of the County left naked and Defenceless, and

most of the Provision there Eate up or Destroyed, and the Wretched Inhabitants near the Sea Coasts driven back without any thing to Support themselves, and Lays as a Dead weight on the rest of the people, who are obliged in Charity to Support them, altho they have not half Provision enough to Supply their own Families, through the winter, and notwithstanding our provisions are so Exhausted by Supplying the troops, before the publick Stores came down — and Supporting the miserable Inhabitants who have Lost their all, we are not a Little Surprized to find, that by an Order from the Committee of War, a Large Quantity of Beef which the Inhabitants could very badly spare, but for the publick Good — did consent to Turn out for the use of the Troops, but it seems it was not Used, and is now Ordered to Boston, and should it so happen, that upon any Sudden Emergency more Troops should be raised, it would be impossible to Supply them even for two Days, this now is the true State of this Poor and Distressd County, and when we Look about us and behold the Distress of the People almost Destitute of most of the Necessaries of Life, no Exports or Imports by Sea as Usual in time past, whereby our wood and Lumber, the Little we got, in our perplexd Circumstances Lays upon our hands, and no provision brought to us and no money to purchase any with, we stand amazd at the Prospect, and when we Look forward and behold the Monsterous Taxes that are Laid upon us, and no money to Pay it with, we are Astonishd & know not what to do but this we are sure of, that it is possible we can by any means subsist ourselves through the winter, yet it is impossible for us to pay those heavy Taxes Demanded of us, or Supply those Articles of Clotheing which by a Risolve of the General Court is Enjoin'd upon us, and altho we have hitherto been neglected, as not to have Precepts Sent to us whereby we could make choice of a person to Represent us in the General Assembly, and have a voice in

the Choice of Councillers and Consequently in that part of the Legeslative Body which procede as Governor, Yet we humbly trust we may Decently petition that Power which has Taxed us unrepresented, as we have a President from these Colonies of Partitioning the Parliment of Great Britain in a Similar Case ¶ we do therefore most earnestly implore the favor of this Honorable Court to take our peculiar distress'd Case under your wise Consideration and Release those heavy Taxes that are Demanded of us, and Releave us from our Distress in such a way and manner as to you in your great wisdom and Goodness shall seem meet otherwise we must be forced to Resign up our all into the hands of that power which Shall see fit to take it from us, and your humble petitioner as in Duty Bound shall ever Pray —
